Comedy and the Woman Writer Judy Little, 2015-08-01 Recent critics have affirmed the difficulty perhaps the impossibility of defining modern comedy at the same time some feminist scholars are seeking to understand the special comedy often present in literature written by women Comedy and the Woman Writer responds to both these concerns of recent criticism feminist literary theory and theories of comedy Judy Little develops a critical apparatus for identifying feminist comedy in recent fiction especially the radical political and psychological implications of this comedy and then applies and tests her theory by examining the novels of Virginia Woolf and Muriel Spark Despite recent scholarly attention to Woolf the profound comedy of her work has been largely overlooked and the comic fiction of Spark has seldom had the responsible and attentive criticism that it deserves The introductory chapter draws upon anthropology and sociology as well as literary criticism and the fiction of feminist writers such as Woolf Doris Lessing and Monique Wittig to define a modern feminist comedy Four central chapters then explore the implications of this comedy in the novels of Woolf and Spark Little distinguishes between on the one hand several varieties of traditional comedy and satire and on the other the festive or liminal comedy to which feminist comedy belongs Both Woolf and Spark mock centuries old mythic patterns and behaviors deriving from basic social norms as well as the values emerging from these norms It is one thing the author points out to find manners amusing to scourge vices or to mock the follies of lovers it is a much more drastic act of the imagination to mock the very norms against which comedy has traditionally judged vices follies and eccentricities While the comedy of Woolf and Spark has some precedent in festive or liminal celebrations during which even basic values and behavior are abandoned feminist comedy displays its radical nature by implying that there is no resolution to the inverted overturned world the world in revolutionary transition The final chapter considers briefly in the light of the critical model of feminist comedy the work of several other twentieth century writers including Jean Rhys Penelope Moritmer and Margaret Drabble The presence of radical comedy in the fiction of these and other writers suggests the need for continuing attention to the theory of feminist comedy proposed in this study

Carolyn Dever,2004 In this major work Carolyn Dever considers the ambivalence or outright hostility many feminists feel toward theory arguing that a fundamental skepticism toward abstraction has been vital to the development of the movement Dever analyzes the politics of feminist theory by looking at its popular activist and academic modes from the liberation movements of the 1970s to gender and queer studies now Using key moments in the history of modern feminism consciousness raising best selling books like Sexual Politics by Kate Millett and The Women s Room by Marilyn French and media representations of women s struggle for equality Dever outlines heated debates over psychoanalysis sexuality and activism The abstract and the grounded converge in discussions about the relationship between the feminist mind and the feminist body and in the preoccupation both uneasy and utopian with lesbian sexuality Powerful illuminating and galvanizing Skeptical Feminism traces the strategies the women s movement has used to make theory matter and points toward a new politically engaged approach to feminist thought A clarion call for a new approach to feminist thought **A Reference Guide for English Studies**

Michael J. Marcuse,2023-11-15 **Writing the Land** Daniel G. Payne,2009-05-05 At the time of his death in 1921 John Burroughs 1837 1921 was America s most beloved nature writer a best selling author whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs was second only to Emerson in fostering the nature study movement of the nineteenth century and the popularity of his work inspired Houghton Mifflin to publish or reissue the work of numerous other nature writers including that of Thoreau and Muir His first collection of essays Wake Robin was published in 1871 and over the next fifty years Burroughs wrote almost two dozen books and hundreds of essays not only on nature but on literature travel philosophy religion and science By the turn of the century Burroughs was America s most beloved nature writer whose friends and admirers included Walt Whitman Theodore Roosevelt John Muir Henry Ford and Thomas Edison Burroughs died in 1921 while on a train ride back to his New York from California His final words Are we home yet were a remarkably fitting coda to the career of a writer so closely identified with his native Catskill region of New York State In many of his essays Burroughs explores the woods and fields of home and in doing so like Henry Thoreau and his explorations of Concord Massachusetts he transcends the local and examines the

universal theme of our relation with nature and our native landscape Burroughs's emphasis on place and the local now seems modern once again as the current interest in bioregionalism and climate change demonstrates it has become increasingly evident that thinking locally is thinking globally Since 1992 the SUNY College at Oneonta has hosted the biannual John Burroughs Nature Conference and Seminar Sharp Eyes which honors the influence of Burroughs on American nature writing Distinguished keynote speakers who have addressed the conference include John Elder John Tallmadge Joy Harjo Robin Wall Kimmerer Edward Kanze James Perrin Warren and Edward J. Renshan Jr The scope of the conference is not limited solely to Burroughs however as each year the writers and scholars in attendance direct their attention toward a particular issue of significance to contemporary nature writers and scholars of environmental literature The theme of this collection Writing the Land John Burroughs and his Legacy was featured in the 2006 conference and includes essays on John Burroughs as well as essays on the work of other writers who like Burroughs are linked closely through their work to a particular landscape or region The third and final section of this book features invited essays by three distinguished scholars John Tallmadge Robert Beuka and Charlotte Zo Walker who consider the topic of what writing about the land and nature means from three different perspectives urban suburban and rural

Redressing the balance Zita Dresner,1988 Gathers humorous stories poetry and essays by American writers from Anne Bradstreet to Erma Bombeck and Erica Jong **The Voice of the Child in American Literature** Mary Jane

Hurst,2014-07-15 We as adults are reflected in our children those in our literature as well as those in our families and so it is natural to want to examine their presence among us Children and child speech are important literary elements which merit careful critical analysis Surprisingly comprehensive studies of the child in American fiction have not been previously attempted and fictional child speech even that of individual characters has been almost totally ignored Nevertheless the language of fictional children warrants attention for several reasons First language and language acquisition are primary issues for children much as sexual development is primary issues for adolescents Second because vast linguistic efforts have been directed toward language acquisition research a broad base of concrete information exists with which to explore the topic And third language is a key which opens many doors An understanding of fictional children s language leads to discoveries about various critical questions sociological and psychological as well as textual and stylistic This study examines the presentation of children and child language in American fiction by applying general linguistic principles as well as specific findings from child language acquisition research to children s speech in literary texts It clarifies sorts and assesses the representations of child speech in American fiction It tests on fictional discourse linguistic concepts heretofore applied exclusively to naturally occurring child language The aim is not to evaluate the degree of realism in writers presentations of child language for that would be a simplistic and reductive enterprise Rather the overall object is to analyze fictional child language using linguistic methods **Feminists Who Changed America, 1963-1975** Barbara J. Southern Local Color Barbara C. Ewell, Pamela Glenn Menke, Andrea Humphrey, 2002 Conflict exoticism sensuality eccentricity and the sheer differences of the American South pervade this lively anthology the first in fifty years to focus exclusively on the nineteenth century tradition of southern local color Its thirty one stories spanning the 1870s through the early 1900s represent some of the best southern fiction to appear during the great flowering of American local color writing The fifteen authors included here are those most admired by their contemporaries Modern readers may recognize Kate Chopin author of *The Awakening* Charles Chesnutt the courageous and gifted African American writer or Joel Chandler Harris whose *Uncle Remus* and *Br'er Rabbit* tales have remained continually in print However some authors like suffragist Sarah Barnwell Elliott are virtually unknown today while others like African Americans

Paul Laurence Dunbar and Alice Dunbar Nelson are known primarily as poets or diarists. The editors' extensive introduction locates the stories in the context of contemporary and current history and culture, and each selection of tales begins with detailed information on the author. Also included are bibliographies and extensive notes showcasing the many styles, topics, and settings of southern local color. The anthology reconnects us to an unjustly neglected literary tradition. As the editors make clear, such tales of the South were essential to post-Civil War America's struggle to address yet contain cultural and geographic variety, racial mixtures, and the just clamor of women and African Americans for equality. From George Washington Cable's New Orleans to Thomas Nelson Page's Tidewater Virginia to the Appalachians imagined by Sherwood Bonner, these stories engage nation-shaping themes: war, segregation, immigration, depression, and suffrage at the personal and community levels. In *Southern Local Color*, we have a unique forum for pondering a timeless American question: how to reconcile our diversities with a unified national identity.

Reading for Realism Nancy Glazener, 1997. *Reading for Realism* presents a new approach to U.S. literary history that is based on the analysis of dominant reading practices rather than on the production of texts. Nancy Glazener's focus is the realist novel, the most influential literary form of the nineteenth and twentieth centuries, a form she contends was only made possible by changes in the expectations of readers about pleasure and literary value. By tracing readers' collaboration in the production of literary forms, *Reading for Realism* turns nineteenth-century controversies about the realist romance and sentimental novels into episodes in the history of readership. It also shows how works of fiction by Rebecca Harding Davis, Henry James, Nathaniel Hawthorne, and others participated in the debates about literary classification and reading that in turn created and shaped their audiences. Combining reception theory with a materialist analysis of the social formations in which realist reading practices circulated, Glazener's study reveals the elitist underpinnings of literary realism. At the book's center is the Atlantic group of magazines whose influence was part of the cultural machinery of the Northeastern urban bourgeoisie and crucial to the development of literary realism in America. Glazener shows how the promotion of realism by this group of publications also meant a consolidation of privilege, primarily in terms of class, gender, race, and region for the audience it served. Thus, American realism, so often portrayed as a quintessentially populist form, actually served to enforce existing structures of class and power.
