Guth, 1976 *The Uffculme Wills and Inventories* Peter Wyatt, 1997 This volume for 1997 contains transcriptions of all the 266 probate inventories that could be traced for the parish of Uffculme Devon together with abstracts of the accompanying wills and administrations which have survived Added to these are 322 further abstracts of wills and administrations under

the Salisbury jurisdiction and now housed at the Wiltshire Record Office in Trowbridge which have no surviving inventories. These further wills and administrations extend to the end of the year 1800 with a few in the Dean of Salisbury's list beyond that date. Where possible notes are included on related burial and marriage entries taken from the Parish Registers. The survival rate of probate inventories for Devon is poor as so many perished with the wills when the Exeter Probate Registry was destroyed in the Blitz in 1942. The Uffculme ones escaped because Uffculme was a Peculiar Parish in the jurisdiction of the Diocese of Salisbury and were kept in Salisbury during the war. The publication of this volume will give an insight into the sort of information the historian may gain from this type of document as well as providing aspects of life in Uffculme and farming and woollen cloth making.

Gender and Authority in the Late Medieval Church Ian Forrest, 2025-06-15 Gender and Authority in the Late Medieval Church asks a deceptively simple question: How did the governance of the medieval institutional church remain exclusively male despite plentiful evidence of women being as capable and devout as men? The remarkable endurance of an all-male clergy is an important element of medieval church government, one that is frequently taken for granted in the historiography and is connected to another overlooked feature of episcopal authority: the strategies that bishops used to secure the compliance of a relatively autonomous clergy. As Ian Forrest shows, bishops kept their clergy in check through normative standards of masculinity that necessarily disqualified women from leadership roles. Everywhere in the medieval church were women who had the capacity, the resources, and often the ambition to take part in governance: from abbesses to priests' servants, mothers, sisters, and unofficial wives. Bringing together evidence of female activity at the margins of the institutional church, Forrest argues that the male monopoly on formal power was haunted by female capability and aspiration at every turn. Drawing on case studies from the English diocesan clergy between the mid-thirteenth and early sixteenth centuries, he explores how women's involvement in governance was rendered unthinkable through the very discursive strategies that bishops used to control their male clergy. In doing so, *Gender and Authority in the Late Medieval Church* tells an integrated history that explains how both the exclusion of women and the inclusion of men underpin a rigidly gendered system of religious governance.
