*Hedge Fund Regulation in the European Union* Phoebus Athanassiou, 2009-04-14 While hedge funds have been part and parcel of the global asset management landscape for well over fifty years it is only relatively recently that they came to prominence as one of the fastest growing and most vigorous sub sectors of the financial services industry Despite their growing significance for global and European financial markets hedge funds continue enjoying a sui generis regulatory status The ongoing credit crisis and

its lessons for the wisdom of unregulated or loosely regulated pockets of financial activity raise with renewed urgency the issue of deciding how long for the relative regulatory immunity of hedge funds is to be tolerated in the name of financial innovation This well thought out book the first of its kind in this particular field examines the case for the European onshore hedge fund industry s regulation making concrete proposals for its normative future Following a detailed account of the established regulatory systems in Ireland and Luxembourg as well as of the emerging hedge fund jurisdictions in Italy France Spain and Germany and of the regulatory treatment of hedge funds in the UK this book examines to what extent the continuing exclusion of hedge funds from harmonized European regulation is defensible whether their differences to traditional asset management products justify their distinct regulatory treatment and ultimately if their EU wide regulation is possible and if so what form this should take This book offers enormously valuable insights into all facets of the subject of the regulation of hedge funds including the legitimacy of the public policy interest in their activities the conceptual underpinnings and systemic stability emphasis of a realistic hedge fund regulatory scheme the main parameters of a workable onshore hedge fund regulatory framework the role of investor protection and market integrity as part of a holistic hedge fund regulatory scheme the possible use of the UCITS framework as a foundation for the EU wide regulation of hedge funds the MiFID s impact on the regulatory future of the European hedge fund industry existing cross jurisdictional differences and similarities in the normative treatment of hedge funds within the EU hitherto initiatives and recommendations of the Community institutions and bodies and the need for more efficient co operation and information sharing arrangements amongst national supervisors for the monitoring of the cross border risks inherent in the activities of hedge funds As the first ever comprehensive account of the profile main features and normative future of the contemporary global and European hedge fund markets including a systematic inquiry into the conceptual underpinnings of hedge fund regulation and a detailed examination of the European hedge fund industry s treatment under Community and domestic law this book represents a major contribution to the literature on hedge funds and their regulation which through its concrete proposals for the onshore industry s regulation and its clear analysis of the conditions necessary for their implementation should be of extraordinary value to policymakers supervisors and academics alike

**Annual Report on Exchange Arrangements and Exchange Restrictions 2006** International Monetary Fund. Monetary and Capital Markets Department, 2006-09-25 The Annual Report on Exchange Arrangements and Exchange Restrictions AREAER has been published by the IMF since 1950 It is a unique publication based on a database maintained by the IMF that tracks exchange arrangements and foreign exchange systems for all member countries on an annual basis and also provides historical information on these The introduction to the volume provides a summary of recent global trends and developments in the areas covered by the publication Individual country chapters report exchange measures in place the structure and setting of the exchange rate arrangements for payments and receipts procedures for resident and nonresident accounts mechanisms

for import and export payments and receipts controls on capital transactions and provisions specific to the financial sector A separate section in each chapter lists changes made during 2005 and the first part of 2006 The AREAER draws on information made available to the IMF from a number of sources including during official staff visits to member countries and has been prepared in close consultation with national authorities The information is presented in a tabular format

*European Financial Services Regulation* Great Britain: Parliament: House of Commons: Treasury Committee,2006-06-08 The EU s ambitious Financial Services Action Plan started in 1999 is drawing to an end A single market in wholesale financial services exists Many retail financial services institutions are expanding through acquisitions of banks and insurers across Europe though the prospect of a single market in such services with comparable products and services available to consumers direct across borders is not a realistic proposition in the near future The Commission has set out its policy objectives for 2005 2010 attaching greater importance to consistent and workable implementation of existing legislation The Committee welcomes this and the commitment to ensure that any new regulation will have a clear benefit to the European economy The Committee examined three specific case studies implementation of the Markets in Financial Instruments Directive MiFID the consideration of a Clearing and Settlement Directive and consideration of mortgage credit in the context of the development of a single market in retail financial services In all the Commission will need to demonstrate its commitment to better regulation and its new focus on implementation and enforcement The Committee is concerned that MiFID will not be implemented consistently across Europe It finds that the case for a new mortgage directive remains unproven and that there is a clear need to reduce the additional costs associated with clearing and settlement across borders

**Secured Transactions Law Reform** Louise Gullifer,Orkun Akseli,2016-10-20 Secured transactions law has been subjected to a close scrutiny over the last two decades One of the main reasons for this is the importance of availability of credit and the consequent need to reform collateral laws in order to improve access to finance The ability to give security effectively influences not only the cost of credit but also in some cases whether credit will be available at all This requires rules that are transparent and readily accessible to non lawyers as well as rules that recognise the needs of small and medium sized enterprises This book critically engages with the challenges posed by inefficient secured credit laws It offers a comparative analysis of the reasons and the needs for a secured transactions law reform as well as discussion of the steps taken in many common law civil law and mixed law jurisdictions The book written under the auspices of the Secured Transactions Law Reform Project informs the debate about reform and advances novel arguments written by world renowned experts that will build upon the existing literature and as such will be of interest to academics legal practitioners and the judiciary involved in secured transactions law around the world The text considers reform initiatives that have taken place up to the end of April 2016 It has not been possible to incorporate events since then into the discussion However notable developments include the banks decree passed by the Italian Government on 29th June 2016 and the adoption of the Model
