Women and Reform in a New England Community, 1815-1860 Carolyn J. Lawes,2021-10-21 Interpretations of women in the antebellum period have long dwelt upon the notion of public versus private gender spheres As part of the ongoing reevaluation of the prehistory of the women s movement Carolyn Lawes challenges this paradigm and the primacy of class motivation She studies the women of antebellum Worcester Massachusetts discovering that whatever their economic background women there publicly worked to remake and improve their community in their own image Lawes analyzes the organized social activism of the mostly middle class urban white women of Worcester and finds that they were at the center of community life and leadership Drawing on rich local history collections Lawes weaves together information from city and state documents court cases medical records church collections newspapers and diaries and letters to create a portrait of a group of women for whom constant personal and social change was the norm Throughout Women and Reform in a New England Community conventional women make seemingly unconventional choices A wealthy Worcester matron helped spark a women led rebellion against ministerial authority in the town s orthodox Calvinist church Similarly a close look at the town s sewing circles reveals that they were vehicles for political exchange as well as social gatherings that included men but intentionally restricted them to a subordinate role By the middle of the nineteenth century the women of Worcester had taken up explicitly political and social causes such as an orphan asylum they founded funded and directed Lawes argues that economic and personal instability rather than a desire for social control motivated women even relatively privileged ones into social activism She concludes that the local activism of the women of Worcester stimulated and was stimulated by their interest in the first two national women s rights conventions held in Worcester in 1850 and 1851 Far from being marginalized from the vital economic social and political issues of their day the women of this antebellum New England community insisted upon being active and ongoing participants in the debates and decisions of their society and nation A *History of Women's Seclusion in the Middle East* J Dianne Garner,Linn Prentis,2014-05-01 Learn how the seclusion of women can be used as a feminist defense against exploitation and as an empowering force Internationally acclaimed author Ann Chamberlin s book A History of Women s Seclusion in the Middle East The Veil in the Looking Glass is a critical

**Gender, Ethnicity, and Violence in Kenya's Transitions to Democracy** Lyn Ossome, 2018-04-02 Critiquing the valorization of democracy as a means of containing violence and stabilizing political contestation this book draws links between the democratization process and sexual gendered violence observed against women during electioneering periods in Kenya The book shows the contradictory relationship between democracy and gendered violence as being largely influenced in the first instance by the capitalist interests vested in the colonial state and its imperative to exploit laboring women secondly in the nature of the postcolonial state and politics largely captured by ethnic bourgeois class interests and third influenced by neoliberal political ideology that has remained largely disarticulated from women s structural positions in Kenyan society It argues that colonial capitalist interests established certain patterns of gender exploitation that extended into the postcolonial period such that the indigenous bourgeoisie took the form of an ethnicized elite Ethnicity shaped politics and neoliberal political ideology further blocked women s integration into politics in substantive ways It concludes that it is not so much the norms and values of liberal democracy that assist in understanding women s exclusion but rather the structural dynamics that have shaped women s experiences of democratic politics In this way gender violence in the context of democratization and electoral violence with its gendered manifestation can be fully understood as deeply embedded in the history of the structural dynamics of colonialism capitalism and
