**Twentieth Century** ,1906 *The Nineteenth century and after* London     **The Lotus and the Lion** J. Jeffrey Franklin,2011-03-15 Buddhism is indisputably gaining prominence in the West as is evidenced by the growth of Buddhist practice within many traditions and keen interest in meditation and mindfulness In *The Lotus and the Lion* J Jeffrey Franklin traces the historical and cultural origins of Western Buddhism showing that the British Empire was a primary engine for curiosity about and then engagement with the Buddhisms that the British encountered in India and elsewhere in Asia As a result Victorian and Edwardian England witnessed the emergence of comparative religious scholarship with a focus on Buddhism the appearance of Buddhist characters and concepts in literary works the publication of hundreds of articles on Buddhism in popular and intellectual periodicals and the dawning of syncretic religions that incorporated elements derived from Buddhism In this fascinating book Franklin analyzes responses to and constructions of Buddhism by popular novelists and poets early scholars of religion inventors of new religions social theorists and philosophers and a host of social and religious commentators Examining the work of figures ranging from Rudyard Kipling and D H Lawrence to H P Blavatsky Thomas Henry Huxley and F Max M ller Franklin provides insight into cultural upheavals that continue to reverberate into our own time Those include the violent intermixing of cultures brought about by imperialism and colonial occupation the trauma and self reflection that occur when a Christian culture comes face to face with another religion and the debate between spiritualism and materialism *The Lotus and the Lion* demonstrates that the nineteenth century encounter with Buddhism subtly but profoundly changed Western civilization forever     **The Occult Sourcebook** Nevill Drury,Gregory Tillet,2019-09-10 Originally published in 1978 *The Occult Sourcebook* has been compiled primarily for the many people who are for the first time becoming engrossed by the numerous and often confusing possibilities underlying the occult sciences It consists of a series of articles on key areas providing the reader with easy access to basic facts together with a carefully planned guide to further reading Critical comments on the recommended books allow the reader to select those which best suit their interests The authors have also included a Who s Who of the occult to provide short biographies of some of the more amazing figures who have already travelled down the mystic path The book offers a programmed system of exploration into the realms of the unknown It will be invaluable to the increasing number of people who are concerned with the exploration of enlarging human consciousness     **Paradigm Wars** Mark B. Woodhouse,1996 In this powerful exploration of worldviews in transition Mark Woodhouse examines current controversies in the quest for an integrative vision of reality These include alternative medicine holistic education spiritual healing and ecofeminism as well as reincarnation the New Physics extraterrestrial visitations and personal growth In the Appendix Fred Mills contributes a pioneering study of sacred

geometry Re-incarnation Alexander Joyce,1900 **The New Metaphysicals** Courtney Bender,2010-07-15 American spirituality with its focus on individual meaning experience and exploration is usually thought to be a product of the postmodern era But as **The New Metaphysicals** makes clear contemporary American spirituality has historic roots in the nineteenth century and a great deal in common with traditional religious movements To explore this world Courtney Bender combines research into the history of the movement with fieldwork in Cambridge Massachusetts a key site of alternative religious inquiry from Emerson and William James to today Through her ethnographic analysis Bender discovers that a focus on the new on progress and on the way spiritual beliefs intersect with science obscures the historical roots of spirituality from its practitioners and those who study it alike and shape an enduring set of modern religious possibilities in the process

**Signs of Reincarnation** James G. Matlock,2019-06-15 **Signs of Reincarnation** provides the first comprehensive look at the belief in reincarnation and the evidence for past lives from historical records anthropological studies and contemporary research Matlock discusses various ways the evidence may be interpreted and shows that although reincarnation entails a rejection of the materialist notion that consciousness is generated by the brain it does not require the acceptance of any radically new concepts or the abandonment of well established findings in mainstream psychology or biology This book offers students scholars and anyone interested in the possibility of reincarnation an essential grounding in beliefs cases and theory while opening doors for future research into the extension of consciousness beyond our present lives **Death and Eternal**

**Life** John Hick,1994-01-01 In this cross cultural interdisciplinary study John Hick draws upon major world religions as well as biology psychology parapsychology anthropology and philosophy to explore the mystery of death He argues that scientific and philosophical objections to the idea of survival after death can be challenged and he claims that human inadequacy in facing suffering supports the basic religious argument for immortality **A Monastery in Time** Caroline

Humphrey,Hürelbaatar Ujeed,2013-07-05 **A Monastery in Time** is the first book to describe the life of a Mongolian Buddhist monastery the Mergen Monastery in Inner Mongolia from inside its walls From the Qing occupation of the eighteenth and nineteenth centuries through the Cultural Revolution Caroline Humphrey and Hürelbaatar Ujeed tell a story of religious formation suppression and survival over a history that spans three centuries Often overlooked in Buddhist studies Mongolian Buddhism is an impressively self sustaining tradition whose founding lama the Third Mergen Gegen transformed Tibetan Buddhism into an authentic counterpart using the Mongolian language Drawing on fifteen years of fieldwork Humphrey and Ujeed show how lamas have struggled to keep Mergen Gegen s vision alive through tremendous political upheaval and how such upheaval has inextricably fastened politics to religion for many of today s practicing monks Exploring the various ways Mongolian Buddhists have attempted to link the past present and future Humphrey and Ujeed offer a compelling study of the interplay between the individual and the state tradition and history **The New Science of Consciousness Survival and**
