Reinventing Communication:

Reinventing Communication Mr Mark Phillips, 2014-04-28 In his ground breaking book Reinventing Communication Mark Phillips shows how even the most mature organization can fail to deliver successful projects and worse how this can lead to an organization's demise. With clear examples Mark reveals the underlying principles at work and introduces a revolutionary new technique for harnessing the power of communication to ensure long term success. For organizations of all sizes this book changes the way we think about management and leadership. Mark makes his case by looking at teams and individuals that set out to deliver ambitious achievements in complex and challenging environments. We meet the leadership team that built the F 18 Super Hornet fighter jet one of the US Navy's most successful programs. We discover the untraditional approach to risk used in building a new terminal at London's Heathrow airport. We draw lessons on corporate survival from the cat and mouse fight against IED's in Afghanistan and are introduced to a website where online video gamers solved a critical piece of the AIDS puzzle using their gaming prowess. Reinventing Communication is about creating the conditions for performance and attaining long term success. Whether a start up, a global enterprise or a government agency this book shows us how to deliver ambitious achievements by getting communication right. It is a book that no manager, leader or innovator should be without.

Reinventing Strategy Willie Pietersen, 2002-10-15 At last a proven system for developing the strategic innovations every company needs to compete and win. As everyone knows today's unprecedented rate of business change demands new levels of strategic insight and adaptability. Reinventing Strategy is the first practical systematic guide to creating an adaptive enterprise showing how companies around the world are using the Strategic Learning approach to consistently out think, out maneuver and out perform their competition. As Willie Pietersen explains companies that aspire to long term success must develop and implement strategy as part of a continuous four step cycle: Learn, Focus, Align, Execute and he offers dozens of provocative anecdotes and case studies illustrating how to implement it at every level of an organization. Written with unusual clarity, frankness and wit Reinventing Strategy will change the way managers everywhere approach their greatest and most important challenge: the need to make strategy into a tool for ongoing corporate renewal.
