**Forthcoming Books** Rose Army,2003-04      **Rethinking Nationalism and Ethnicity** Hans-Rudolf Wicker,2020-12-17

While there has been a spate of books concerned with race and ethnicity in Europe more specifically this timely volume offers a broader perspective and positions issues of identity ethnicity multiculturalism xenophobia regionalism and ethnonationalism within the wider contexts of trans and supranationalism With the weakening of welfare states and the homogenizing influences of globalization nations within both Eastern and Western Europe are discovering that the battlefield of political action is being redefined and as a result emotional alliances threaten to bypass the democratic systems of the past Offering fresh insights that are both empirically and theoretically informed this book illuminates the processes and consequences of these new developments In particular it reviews Marx s Durkheim s and Simmel s theories on nationalism and national identity and presents case studies of Belgium Italy s Northern League right wing intellectual production in Russia and much more

**The Nationalism of the Rich** Emmanuel Dalle Mulle,2017-12-01 Based on rigorous analysis of the propaganda of five Western European separatist parties this book provides in depth examination of the nationalism of the rich defined as a type of nationalist discourse that seeks to end the economic exploitation suffered by a group of people represented as a wealthy nation and supposedly carried out by the populations of poorer regions and or by inefficient state administrations It shows that the nationalism of the rich represents a new phenomenon peculiar to societies that have set in place complex systems of wealth redistribution and adopted economic growth as the main principle of government legitimacy The book argues that the nationalism of the rich can be seen as a rhetorical strategy portraying independent statehood as a solution to the dilemma between solidarity and efficiency arisen in Western Europe since the end of the Glorious Thirties It further suggests that its formation can be best explained by the following combination of factors 1 the creation from the end of the Second World War of extensive forms of automatic redistribution to a scale previously unprecedented 2 the beginning from the mid 1970s of an era of permanent austerity exacerbated in specific contexts by situations of serious public policy failure 3 the existence of national cultural cleavages roughly squaring with uneven development and sharp income differentials among territorial areas of a given state

*A World Without Meaning* Zaki Laidi,2005-08-10 This sophisticated book by internationally renowned theorist Zaki Laidi tackles the problem of individual identity in a rapidly changing global political environment He argues that it is increasingly hard to find meaning in our ever expanding world especially after the collapse of political ideologies such as communism With the breakup of countries such as the former Yugoslavia it is clear that people are now looking to old models like nationalism and ethnicity to help them forge an identity But how effective are these old certainties in a globalized world in a permanent state of flux

**Nationalism in Italian Politics** Damian Tambini,2012-12-06 This book is the first full length study available in English to trace the extraordinary history of the Italian Northern Leagues during the 1980s and 1990s At a time when the postwar First Republic entered a crisis amid corruption

scandals the Leagues acted as one of the main protest actors and grew at an unprecedented rate Drawing on electoral and survey data existing research eyewitness accounts of protest events and interviews with activists and leaders this book provides the definitive account of the movement Damian Tambini analyses why the movement was so successful in mobilising support and focuses on its most novel aspect its use of nationalism The new regionalist movements in Northern Italy which were unified into the Northern League in 1990 had a huge influence on Italian politics during the period Written for scholars interested in nationalism ethnicity and citizenship and for specialists in European Studies Italian and ethnic studies Nationalism in Italian Politics draws on the best Italian and international research to thoroughly analyse the movement and update classic studies of nationalism in the age of media spectacle [The Rise of the Capital-state and Neo-Nationalism](#) Oleksandr Svitych,2022-11-21 What explains the rise of populist nationalism in the contemporary phase of globalized development Drawing on Karl Polanyi s study of the great transformation The Rise of the Capital state and Neo nationalism argues that populist nationalism is a societal reaction to the pro market structural changes in the political economies of nation states conceptualized as the capital state transformation Oleksandr Svitych shows that there is an inextricable link between free market reforms declining state legitimacy and identity based mobilization Examining four case studies Australia France Hungary and South Korea through a mixed method approach the book finds that discontented voters gravitate toward populist neo national political forces and embrace identity based solutions often in exclusivist and scapegoating forms to harness their anxieties and insecurities triggered by the capital state restructuring Populist nationalism of both the left and the right has emerged to compensate for the real and perceived inability of the state to shield citizens from the corrosive effects of market fundamentalism The Rise of the Capital state and Neo nationalism contributes to our understanding of the dynamics of the interrelated nature of state capital and identity politicization through a broader social theoretical perspective The Rise of the Capital state and Neo Nationalism is now available in paperback for individual customers [Nationalism Today](#) M. Troy Burnett,2020-08-04 This extensive reference examines extreme political movements and the political cultural and economic conditions that breed them from the alt right in the United States to the Houthi rebel movement in Yemen and the question of Taiwan s independence Nationalism Today Extreme Political Movements around the World is an authoritative guide for students and teachers who seek to understand nationalist movements across the globe The two volume work opens with essays that describe different types of nationalist movements extremist revisionist and separatist Arranged by country the entries that follow provide the geographic cultural economic and political context for the development of nationalist movements The entries provide expert analysis of specific movements and lay the groundwork for comparison of the many different types of extreme political movements that are exerting themselves around the world today In addition easy to read tables give cultural economic and political facts and figures for each country A comprehensive scholarly bibliography of secondary sources rounds out the book **A World Without Meaning** Zaki Laïdi,1998 In this provocative and incisive book

Zaki Laidi argues that as our world becomes ever larger our ability to find meaning in it diminishes With the end of communism came the end of the intimate alliance between power and ideology No power in our globalised world can any longer claim to provide meaning In despair we look back to old models religious traditions nationalism ethnicity to give us a sense of identity But in a globalised world in a permanent state of flux just how effective are these old certainties

**The New Authoritarians** David Renton,2019-07-23 The eighteen months between June 2016 and the end of 2017 saw the victory of Leave in Britain s EU referendum the election of Donald Trump as President of the United States and unprecedented support for Marine Le Pen of the Front National in her campaign for the same office in France Nearly a decade after the great financial crash it is these figures and the alarmingly confident and radical version of right wing politics they represent that have gained the initiative over a moribund center and a still weak left But what exactly does this new reality represent While some argue that we are hurtling towards fascism in a replay of the 1930s and others insist there is little substantial change from politics as usual Renton takes a different and more nuanced view In country after country under the clouds of economic austerity and post 9 11 Islamophobia we have seen a convergence between traditional conservatives the authoritarian far right and previously marginal fascists The result is a new still emergent and deeply troubling form of right wing radicalism at once more moderate than classical fascism in its political strategy yet indulgent of the racism of its most extreme components      **The Migration of Power and North-South Inequalities** E.

Paoletti,2010-11-17 This book examines negotiations on migration in the Mediterranean It argues that migration is a bargaining chip which countries in the South use to increase their leverage versus their counterparts in the North This proposition opens up new understandings reframing relations of inequalities among states      **Italian Modernities** Rosario Forlenza,Bjørn Thomassen,2016-09-30 This book argues that Italy represents a privileged entry point into the comparative analysis of ideologies and experiences of modernity The book compares how thinkers and politicians belonging to different ideological clusters Liberalism Communism Fascism Christian Democracy came to formulate multiple and often antagonistic visions of Italy s road to the modern By revisiting Italian political history from the late nineteenth century until the present with a focus on transition periods Italian Modernities explores how competing historical narratives influenced shifting understandings of Italian nationhood thus foregrounding the active role of memory politics in the formulation of multiple

modernities      **Stranger Or Guest?** Sandro Fridlizius, Abby Peterson, 1996 Racialized violence and murders in Greenwich and Birmingham Le Pen's neo nationalist party in France Lega Nord in Italy neo nazi violence rocking German society the repeated arson attacks on refugee centers in Sweden since 1989 all of these events and phenomena attest to the depth and persistency of racial and ethnic oppression within the practices and narratives of Western European societies and nation states The contributions in this anthology make a passionate plea for the urgency of understanding and coming to grips with racism and neo nationalism      **Redefining the Nation State and Citizen** Günay Göksu Özdoğan, Gül Tokay, 2000
