Tsao, 1983-12-07 Routledge Library Editions: Education in Asia Various, 2021-07-14 This set of reissued books examines education in Asia from a variety of different angles From the westernisation of early twentieth century Chinese education to the impact of the Communist revolution to education and society in Korea to Asian women s experiences of education this set collects some key texts by a range of original thinkers *The Cambridge World History: Volume 5, Expanding Webs of Exchange and Conflict, 500CE-1500CE* Benjamin Z. Kedar, Merry E. Wiesner-Hanks, 2015-04-09 Volume 5 of the Cambridge World History series uncovers the cross cultural exchange and conquest and the accompanying growth of regional and trans regional states religions and economic systems during the period 500 to 1500 CE The volume begins by outlining a series of core issues and processes across the world including human relations with nature gender and family social hierarchies education and warfare Further essays examine maritime and land based networks of long distance trade and migration in agricultural and nomadic societies and the transmission and exchange of cultural forms scientific knowledge technologies and text based religious systems that accompanied these The final section surveys the development of centralized regional states and empires in both the eastern and western hemispheres Together these essays by an international team of leading authors show how processes furthering cultural commercial and political integration within and between various regions of the world made this millennium a proto global era **Tribute System and Rulership in Late Imperial China** Ralph Kauz, Morris Rossabi, 2022-04-11 Demanding and offering tribute is a most common feature in human societies and nothing special to China In the course of the development of Neolithic and later societies social classes have developed where persons who achieved superior positions first could demand presents or tribute from neighboring societies they defeated and then with the assistance of sturdy servants from their own people China was certainly no exception to that principle and one of the first terms for tax was thus gong tribute In China s early feudatory social system tribute was demanded from lower political entities and the mutual political relations were already highly developed during the Zhou dynasty 1045 256 BCE This system of inner Chinese relations became a sort of matrix when China expanded and achieved contact with countries which were more or less independent and thus the tribute system evolved The individual case studies in this volume focus on the latest manifestations of the tribute system in late Imperial China **The Cambridge World History** Merry E. Wiesner-Hanks, David Christian, Graeme Barker, Benjamin Z. Kedar, Norman Yoffee, Craig Benjamin, Jerry H. Bentley, John Robert McNeill, 2015 The most comprehensive account yet of the human past from prehistory to the present **Obedient Autonomy** Erika E.S. Evasdottir, 2007-10-01 In the west the idea of autonomy is often associated with a sense of freedom a self interested state of being unfettered by rules or obligations to others This original anthropological study explores a type

of obedient autonomy that thrives on setbacks blossoms as more rules are imposed and flourishes in adversity Obedient Autonomy analyzes this model and explains its precepts through examining the specialized and highly organized discipline of archaeology in China The book follows Chinese students on their journey to becoming full fledged archaeologists in a bureaucracy saturated environment Often required to travel in teams to the countryside archaeologists are uniquely obliged to overcome divisions among themselves between themselves and their peasant workers and between themselves and bureaucratic officials This analysis reveals how these interactions provide teachers of archaeology with stories used to foster obedient autonomy in their students Moreover it demonstrates how this form of autonomy enables a person to order and control their future careers in what appears to be a disorderly and uncertain world A masterly contextualization of archaeology in China Obedient Autonomy shows how the discipline has accommodated itself to a Chinese social structure and uncovers the moral ethical political and economic underpinnings of that context It will be accessible to students of anthropology even as it will provoke Euro American archaeologists and interest social theorists of science philosophers gender theorists and students of Chinese society *Honor and Shame in Early China* Mark Edward Lewis, 2020-12-10 Lewis sheds new light on the early Chinese empires through an ambitious examination of evolving ideas about honor and shame

Qing 1644 1911 periods forced many to seek alternative careers Politically engaged but excluded from their traditional bureaucratic roles creative writers authored critiques of state power in the form of fiction written in the vernacular language In this study Liangyan Ge examines the novels Romance of the Three Kingdoms The Scholars Dream of the Red Chamber also known as Story of the Stone and a number of erotic pieces showing that as the literati class grappled with its own increasing marginalization its fiction reassessed the assumption that intellectuals proper role was to serve state interests and began to imagine possibilities for a new political order     The Journal of Asian Studies ,1984 An essential resource for those interested in Asia Recognized as the leading publication in its field It features articles on the history arts social sciences and contemporary issues of East South and Southeast Asia as well as a large book review section
