**Understanding Marriage, Family, and Intimate Relationships** Jerry D. Lehman,2005 This introductory textbook is for students who are interested in learning about and establishing healthy marriage family and intimate relationships With divorce rates high and relationships fragile books and courses are needed that help students address important issues regarding relationships The readers of this text examine many important and relevant issues through the lens of theory and research and do so using a written format that is readable understandable and easy to apply to one s life It was written so that each chapter has information that readers will find helpful as they attempt to establish and maintain meaningful healthy relationships There are questions throughout each chapter that help readers focus not only on the material but also on how the material relates to their present and past relationship and family situations The text provides material on the research of John Gottman the object relations theory of Harville Hendrix the solution focused approach of Michele Weiner Davis and the PREP approach to conflict management of Markman Stanley and Blumberg These and other topics discussed are very relevant to students concerns and are addressed in greater depth than found in most other texts The emphasis is not just on couple relationships but also on family relationships Therefore in this book there is extensive coverage of family systems theory and the influence of family rules and family structure on the development of families There is also material on how change produces transitions in family life that must be assimilated into the family structure for example when a couple has their first child Thus both couple and family issues are addressed throughout the book For instructors who want to focus their courses on marriage family and intimate relationships this book would be an ideal choice A study guide for students and instructional material for instructors can be obtained by visiting [www.understandingrelationships.net](http://www.understandingrelationships.net)      **A syllabus and**

**reading guide for courses in marriage and family relations** Lester Allen Kirkendall,1957      EBOOK: Gender And Ageing: Changing Roles and Relationships Sara Arber,Kate Davidson,Jay Ginn,2003-11-16 This book is a follow up to Arber and Ginn s award winning *Connecting Gender and Ageing* 1995 It contains original chapters from eminent writers on gender and ageing addressing newly emergent areas within gender and ageing including gender identity and masculinity in later life Early work on gender and ageing was dominated by a focus on older women The present collection breaks with this tradition by emphasizing changing gender roles and relationships gender identity and an examination of masculinities in midlife and later life A key theme running through the book is the need to reconceptualize partnership status in order to understand the implications for women and men of widowhood divorce and new forms of relationships such as Living Apart Together LAT relationships Another is the influence of socio economic circumstances on how ageing is experienced and transitions are negotiated The book illustrates new ways of thinking about old age and indicates policy implications especially concerning the nature of service provision for older people It will change the ways in which social scientists conceptualize later life

Written with undergraduate students and researchers in mind Gender and Ageing Changing Roles and Relationships will be an invaluable text for those studying social gerontology sociology of later life gender studies health and community care and social policy

**The Marriage and Family Workbook** Bud A. McClure, Robert M. Milardo, 1985-10 **Marriage, Family and Relationships** Thomas A. Noble, Sarah K. Whittle, Philip S. Johnston, 2017-06-15 Family life has undergone revolutionary changes in Western society in the last sixty years posing both theological and ethical challenges for the contemporary church This book responds with wide ranging essays on sexuality marriage family life singleness same sex relationships violence against women anthropology gender and culture These chapters are essential reading for anyone concerned with Christian teaching on marriage and the family They balance a clear loyalty to the church's historic and biblical teaching with a recognition that all doctrine is contextualized There is a growing gap between the ethics of many Christians and those of wider society So Christians have to be counter cultural But the church also has to be self critical differentiating between biblical revelation and cultural development And it must know how to present unchanging Christian convictions to a constantly changing society The contributors are Andy Angel Daniel Block Rosalind Clarke Barry Danylak Andrew Goddard Stephen Holmes David Instone Brewer A T B McGowan Nicholas Moore Onesimus Ngundu Oliver O Donovan Ian Paul Andrew Sloane Katy Smith Elaine Storkey and Sarah Whittle

**Your Choice of a Life Partner** Alexander O. Sign, 2014-06-06 The book will expose you to the biblical guidelines and procedures guiding a Christians choice of a life partner and how to be certain that God is actually leading and guiding in your choice of a life partner It will enable you to know the right qualities to look in the lives of your several suitors and how to prepare yourself for marriage

**Women in Midlife** Grace Baruch, 2012-12-06 The Study of Women In Midlife GRACE K BARUCH AND JEANNE BROOKS GUNN To describe the middle years that relatively long span when one is neither young nor old as a neglected period may no longer be accurate given current scientific and popular interest in adult development and aging But midlife is still too often seen merely as a kind of staging area on the way to old age when one gathers one's forces and tries to stock up on assets health money relationships that will be needed for the rigors of the last phase of life The middle years have been characterized more as a transition period than as a time of growth satisfaction and creativity As this volume will show although midlife is not without its difficulties it is for many women a time of unexpected pleasure even power

**MAJOR THEMES** A central theme of this volume is the impact of social change The influence of economic conditions of ideology of the normative timing of such life events as age of marriage and childbearing are addressed in many chapters from many different perspectives Social changes are shown to have both negative and positive consequences On the negative side for example the sex differential in life expectancy is a biosocial phenomenon that greatly restricts the availability of sexual partners or more precisely heterosexual partners for older women
