The Keeper of Stories Sally Page, 2023-01-24 A charming uplifting debut novel full of humor and depth that has taken readers around the world by surprise Everyone has a story to tell But does Janice have the power to unlock her own She can't recall what started her collection Maybe it was in a fragment of conversation overheard as she cleaned a sink Before long as she dusted a sitting room or defrosted a fridge she noticed people were telling her their stories Perhaps they had always done so but now it is different now the stories are reaching out to her and she gathers them to her Cleaner Janice knows that it is in people's stories that you really get to know them From recently widowed Fiona and her son Adam to opera singing Geordie the quiet bus driver Euan and the pretentious Mrs YeahYeahYeah and her fox terrier Decius Janice has a unique insight into the community around her When Janice starts cleaning for Mrs B a shrewd and prickly woman in her nineties she finally meets someone who wants to hear her story But Janice is clear she is the keeper of stories she doesn't have a story to tell At least not one she can share Mrs B is no fool and knows there is more to Janice than meets the eye What is she hiding After all doesn't everyone have a story to tell *All My Sins are Relatives* W. S. Penn, 1995-01-01 Within its pages Penn describes learning the depths of his love for his grandfather to whom he dedicated this book As arrogant as youth can be I was often too busy silently grading his grammar to pay real attention and see what he was giving me Among the gifts was an awareness of what a story could tell what it could conceal and what it could never tell His grandfather inhabited a different

sense of time and it was a long while before Penn lived there too

The Salt Cedars (Stories for My Daughter) Mona D. Sizer, 2009-01-07 In a beautiful and touching memoir, Mona Sizer brings the 1930s and 40s to life as she lived them on a farm in South Texas. Intended for her daughter, Rachel, she shares them with her readers as well. In this warm-hearted recounting of the problems and pleasures facing women alone in a world suddenly threatened by World War II, the author is a popular writer of more than twenty historical romance novels, ten books of Texas history, biography, and true crime, a book of poetry, and numerous other works. She is happy to report that to this day she has never considered selling the family farm.

Dictionary of Midwestern Literature, Volume 1 Philip A. Greasley, 2001-05-30 The *Dictionary of Midwestern Literature, Volume One* surveys the lives and writings of nearly 400 Midwestern authors and identifies some of the most important criticism of their writings. The *Dictionary* is based on the belief that the literature of any region simultaneously captures the experience and influences the worldview of its people, reflecting as well as shaping the evolving sense of individual and collective identity, meaning, and values. Volume One presents individual lives and literary orientations and offers a broad survey of the Midwestern experience as expressed by its many diverse peoples over time. Philip A. Greasley's introduction fills in background information and describes the philosophy, focus, methodology, content, and layout of entries, as well as criteria for their inclusion. An extended lead essay, "The Origins and Development of the Literature of the Midwest" by David D. Anderson, provides a historical, cultural, and literary context in which the lives and writings of individual authors can be considered. This volume is the first of an ambitious three-volume series sponsored by the Society for the Study of Midwestern Literature and created by its members. Volume Two will provide similar coverage of non-author entries such as sites, centers, movements, influences, themes, and genres. Volume Three will be a literary history of the Midwest. One goal of the series is to build understanding of the nature, importance, and influence of Midwestern writers and literature. Another is to provide information on writers from the early years of the Midwestern experience as well as those now emerging who are typically absent from existing reference works.

100 Years of the Best American Short Stories Lorrie Moore, Heidi Pitlor, 2015-10-06 Witness the ever-changing history and identity of America in this collection of 40 stories collected from the first 100 years of this bestselling series. For the centennial celebration of this annual series, *The Best American Short Stories* master of the form Lorrie Moore selects forty stories from the more than two thousand that were published in previous editions. Series editor Heidi Pitlor recounts behind-the-scenes anecdotes and examines decade by decade the trends captured over a hundred years. Together, the stories and commentary offer an

extraordinary guided tour through a century of literature with what Moore calls all its wildnesses of character and voice. These forty stories represent their eras but also stand the test of time. Here is Ernest Hemingway's first published story and a classic by William Faulkner who admitted in his biographical note that he began to write as an aid to love making. Nancy Hale's story describes far reaching echoes of the Holocaust. Tillie Olsen's story expresses the desperation of a single mother. James Baldwin depicts the bonds of brotherhood and music. Here is Raymond Carver's minimalism, a term he disliked, and Grace Paley's secular Yiddishkeit. Here are the varied styles of Donald Barthelme, Charles Baxter, and Jamaica Kincaid. From Junot Díaz to Mary Gaitskill, from ZZ Packer to Sherman Alexie, these writers and stories explore the different things it means to be American.

Relative Strangers Jessica Steele, Chizuko Beppu, 2019-04-16. After the loss of her mother Zarah goes to visit her aunt whom she hasn't seen since she was a young child but she is greeted instead by a young man named Stein who introduces himself as her aunt's son. He seems aggressive from the start, his cold smile no comfort. It turns out that Zarah's aunt has passed away and left her a huge inheritance. Though it's a complete surprise to her, Stein believes Zarah is nothing more than a gold digger. Her intention had only been to uncover the mystery of her birth but the condition of the inheritance states that she must live in her aunt's house for six months before she can claim her legacy. Will she be able to handle red-hot Stein's icy attitude until then?

Relative Stranger Mary Loudon, 2006. This is the story of Mary Loudon's search for her dead sister whom she had not seen for the last 12 years of her life. It provides an explicit account of the devastation that schizophrenia can visit upon a person and their family.

Explorations in Diversity Sharon K. Anderson, Valerie A. Middleton, 2018. Narratives by professionals and future professionals unpacking the complexities of privilege and oppression in our multicultural world.

Selves in Two Languages Michèle Koven, 2007. Bilinguals often report that they feel like a different person in their two languages. In the words of one bilingual in Koven's book: "When I speak Portuguese automatically I'm in a different world, it's a different color." Although testimonials like this abound in everyday conversation among bilinguals, there has been scant systematic investigation of this intriguing phenomenon. Focusing on French-Portuguese bilinguals, the adult children of Portuguese migrants in France, this book provides an empirically grounded theoretical account of how the same speakers enact experience and are perceived by others to have different identities in their two languages. This book explores bilinguals' experiences and expressions of identity in multicultural, multilingual contexts. It is distinctive in its integration of multiple levels of analysis to address the relationships between language and identity. Koven links detailed attention to discourse form to participants' multiple interpretations of how such forms become signs of identity and to the broader macrosociolinguistic contexts that structure participants' access to those signs. The study of how bilinguals perform and experience different identities in their two languages sheds light on the more general role of linguistic and cultural forms in local experiences and expressions of identity.
