Relativism Nihilism And God:

Relativism, Nihilism, and God Philip E. Devine, 1989 This book presents a defense of the reality of God in the sense in which Nietzsche proclaimed His death It explores various contemporary versions of Nietzsche's maxim God is dead and proposes an alternative to them Philip E Devine critically examines three views that in one way or another accept the death of God and take it as central to the intellectual life pragmatism which asserts that the only end of the intellectual life is the pursuit of worldly goods other than truth relativism which admits a multiplicity of truths corresponding to the modes of life pursued by human beings and nihilism to which the pursuit of truth is a deception Devine then defends his own position on the nature of God and religion and argues for a convergence between the concerns of faith and philosophy *The Moral Interpretation of Religion* Peter Byrne, 1998 The Moral Interpretation of Religion provides a critical examination of the traditional attempt to interpret religion in moral terms alone He assesses historical attempts to reason directly from the basis of morality to the existence of a personal God **Nietzsche as Postmodernist** Clayton Koelb, 1990-09-11 The contributors discuss the current debate about what philosophy is how it works and how Nietzsche's thought clarifies or complicates its understanding They represent a wide range of views and practices some aggressively postmodern in their approach some profoundly skeptical about postmodernism Although the issue of postmodernism is the central focus the essays also touch on many other areas of interest to readers of Nietzsche **The Question of God** Michael Palmer, 2001 This invaluable text introduces the six great arguments for the existence of God It requires no specialist knowledge of philosophy and includes a wealth of primary sources from classic and contemporary texts *Alvin Plantinga and Christian Apologetics* Keith A. Mascord, 2007-01-01 The distinguished American philosopher Alvin Plantinga has had a career long interest in the defense of Christian belief There hasn't been a major contemporary challenge to such belief that Plantinga has not in some way addressed This book draws together those contributions highlighting particularly Plantinga's groundbreaking work in the areas of epistemology and the problem of evil Historical and biographical background information is included to give perspective to Plantinga's work His theory that both theistic and Christian belief is warranted and basic is explored and critiqued and an assessment is offered as to the significance of Plantinga's work for apologetic theory and practice **God Is Not a Story** Francesca Aran Murphy, 2007-07-19 This is a challenging critique of narrative theologies Murphy argues that the widespread notion that the role of the theologian is to tell God's story has not helped theology to advance the reality of its doctrines She offers her own alternative approach making use of cinema and film theory Dictionary of Ethics, Theology and Society Paul A. B. Clarke, Andrew Linzey, 1996 Each entry includes a brief definition of the term a description of the principal ideas behind it and analysis of its history development and contemporary relevance followed by a detailed bibliography giving the major sources in the field **The Knowledge of God in the World and the Word** Douglas Groothuis, Andrew I. Shephardson, 2022-12-06 Intellectual support for defending your faith Knowledge of God in the World and

the Word is a clear and succinct introduction to classical Christian apologetics that also addresses the most common objections to natural theology Amid the crisis of authority in our modern and postmodern era Christians need to be able to point to God's revelation in the natural world in addition to defending God's unique revelation in the Bible and in the person of Jesus Christ Classical apologetics takes a two step approach to commending the Christian picture of reality first establishing arguments for the existence of God and then defending key items of Christian revelation including The reliability of the Bible The identity of the historical Jesus The resurrection of Jesus Christ from the dead With this book you will discover an easy point of entry into understanding why Christian beliefs about Jesus are true and rational Perfect for any Christian who wants to articulate a sophisticated and comprehensive defense of their faith Out of Many, One Ruth

O'Brien,2013-05-21 Feared by conservatives and embraced by liberals when he entered the White House Barack Obama has since been battered by criticism from both sides In Out of Many, One Ruth O'Brien explains why We are accustomed to seeing politicians supporting either a minimalist state characterized by unfettered capitalism and individual rights or a relatively strong welfare state and regulatory capitalism Obama O'Brien argues represents the values of a lesser known third tradition in American political thought that defies the usual left right categorization Bearing traces of Baruch Spinoza John Dewey and Saul Alinsky Obama's progressivism embraces the ideas of mutual reliance and collective responsibility and adopts an interconnected view of the individual and the state So while Obama might emphasize difference he rejects identity politics which can create permanent minorities and diminish individual agency Analyzing Obama's major legislative victories financial regulation health care and the stimulus package O'Brien shows how they reflect a stakeholder society that neither regulates in the manner of the New Deal nor deregulates Instead Obama focuses on negotiated rule making and allows executive branch agencies to fill in the details when dealing with a deadlocked Congress Similarly his commitment to difference and his resistance to universal mandates underlies his reluctance to advocate for human rights as much as many on the Democratic left had hoped By establishing Obama within the context of a much longer and broader political tradition this book sheds critical light on both the political and philosophical underpinnings of his presidency and a fundamental shift in American political thought The Philosophical and Theological Foundations of Ethics Peter Byrne,2016-07-27 This study

is an introduction to the problems of moral philosophy designed particularly for students of theology and religious studies It offers an account of the nature and subject matter of moral reasoning and of the major types of moral theory current in contemporary moral philosophy The account aims to bring out the major issues in moral theory to present a clear non technical articulation of the structure of moral knowledge and to explore the relation between religious belief and morality

Secular Nations under New Gods Willem H. Vanderburg,2018-01-01 The ongoing political muscle flexing of diverse Christian communities in North America raises some deeply troubling questions regarding their roles among us Earlier analyses including Herberg's Protestant Catholic Jew showed that these three branches of the Judaeo Christian tradition

correspond to three forms of the American way of life while Kruse's *One Nation Under God* showed how Christian America was shaped by corporate America Willem H Vanderburg's *Secular Nations under New Gods* proceeds based on a dialogue between Jacques Ellul's interpretation of the task of Christians in the world and Ellul's interpretation of the roles of technique and the nation state in individual and collective human life He then adds new insight into our being a symbolic species dealing with our finitude by living through the myths of our society and building new secular forms of moralities and religions If everything is political and if everything is amenable to discipline based scientific and technical approaches we are perhaps treating these human creations the way earlier societies did their gods as being omnipotent without limits Vanderburg argues that until organized Christianity becomes critically aware of sharing these commitments with their societies it will remain entrapped in the service of false gods and thereby will continue to turn a message of freedom and love into one of morality and religion

God Without the Supernatural Peter Forrest, 1996 Peter Forrest expounds a program of best explanation apologetics He contends that since the existence of God would provide the best possible explanation of various facts those facts support theism Among the facts cited are the suitability of the universe for life the regularity of the universe the human capacity for intellectual progress the experience of a moral order and various forms of beauty The beauty that interests Forrest as evidence for the existence of God includes sensuous beauty the beauty of the natural order as revealed by the sciences and the beauty of necessity discovered by mathematicians In addressing the need for an adequate motive for creation Forrest conjectures that God created the universe for embodied persons not for their life on earth alone but also for an afterlife Forrest acknowledges the speculative nature of such an account He suggests that philosophical speculation is also required to defend theism against the charge that it is too extravagant a hypothesis to be warranted Providing a speculative defense against the argument from evil he explains how such speculations can be used to support best explanation arguments without the conclusions themselves being rendered purely speculative

Philosophy of Religion Beverley Clack, Brian R. Clack, 2014-03-10 The first publication of Beverley Clack and Brian R Clack's exciting and innovative introduction to the philosophy of religion has been of enormous value to students as well as providing a bold and refreshing alternative to the standard analytic approaches to the subject This second edition retains the accessibility which made it popular for both teachers and students while furthering its distinctive argument that emphasises the human dimension of religion The text has been fully revised and updated The traditional emphasis on the arguments for the existence of God is reflected in a newly extended and reworked investigation into natural theology Recent developments in the subject are also reflected in updated chapters and in a move that highlights the originality of the authors approach they offer a critical engagement with current world events An entirely new concluding chapter interrogates the connection between religion and terror and demonstrates how philosophy of religion might be conducted under the terrible shadow of 9 11 This new edition of *The Philosophy of Religion* will continue to be essential reading for all students and practitioners of

the subject **God in Postliberal Perspective** Robert Andrew Cathey, 2016-04-22 Who is God The variety of images of God tends to overwhelm us in the present age Is God a fiction of human construction or a reality that makes claims upon how we practice faith in God How does this quest for an understanding of God illumine who we are God in Postliberal Perspective presents an introduction to the doctrine and concept of God in contemporary philosophy and theology exploring how some theologians and philosophers dare to speak of God as real in our sceptical pluralistic and interfaith age Robert Cathey tours the house of realism as constructed by postliberal Christians David Burrell William Placher Bruce Marshall in conversation with living communities of faith and critical work in philosophy and theology and develops a distinctive argument about the relation of realism and non realism in constructing the doctrine of God in postliberal theology Offering a reading of postliberal theology which is open to critical discussion with other types of theology philosophy and faith traditions this book proposes a model of theological reflection that may be extended to the reality claims of a wide range of doctrines and concepts Derrida and Theology Steven Shakespeare, 2009-08-25 Derrida and Theology is an invaluable guide for those ready to ride the leading wave of contemporary theology It gives theologians the confidence to explore the major elements of Derrida s work and its influence on theology without dumbing it down or ignoring its controversial aspects **Beyond Bumper Sticker Ethics** Steve Wilkens, 2011-08-02 Steve Wilkens exposes the complex ethical systems lurking behind the most common slogans of our culture offering a Christian evaluation of each In this revised and expanded edition the author has updated his introductory remarks about each ethical system and has included new chapters on evolutionary ethics and narrative ethics **Post-Christian Nation** Mark A. Stelter, 2024-02-15 We have been indoctrinated with the lie that belief in God is irrational As a result the United States is rapidly becoming a post Christian nation At the current rate by 2040 most Americans will no longer identify as Christian Mark Stelter relies on his professional experiences as a lawyer theologian and former college professor to carefully examine secular materialism and clearly demonstrate that it is the theistic worldview not the atheistic worldview that is most supported by the evidence Stelter explores a variety of topics that include the triumph of secularism in American culture the shift in worldviews the separation of church and state the academic assault on religion moral truth versus moral relativism the intolerance of tolerance and much more Post Christian Nation is a well documented examination of how Christianity not atheism prevails when tested by reason logic and science *Imago Dei: Man/Woman Created in the Image of God* George Hobson, 2019-09-30 The question What is human nature is in vogue today Like everything else this concept is being deconstructed in the context of the reigning ideology of individualistic materialism Is there a fixed human nature or is this simply a manipulatable social construct with no objective reference This book says Yes there is the imago Dei man woman created in the image of God Hobson argues that this text from Genesis 1 26 28 is a God given anthropological revelation that establishes the relational bond of human beings with their Creator and also with his creation for which the imago equips us to be responsible stewards Many of Hobson s essays were delivered as talks in

parishes They explore from multiple angles the import of the imago Dei for theological and sacramental reflection apologetics aesthetics art and at a hands on practical level for pastoral counseling and inner healing His texts one of which opens with a discussion of genocide contain incisive critiques of the dark side of modernity alongside wide ranging demonstrations of the pertinence of the imago Dei to the current debates about human dignity and rights His book is a ringing call to the church to take the measure of the value of this anthropological revelation for its proclamation of the gospel

Philosophical Problems and Arguments James W. Cornman, Keith Lehrer, George Sotiros Pappas, 1992-01-01 Widely used by instructors who emphasize the logical structure of philosophical theories and the dialectical play of argument this popular work provides clear reliable and up to date discussions of central philosophical debates The fourth edition incorporates major revisions the first since 1982 and features an extensive change in content Every chapter has been reworked to improve its organization to make it more accessible and engaging to the student and to reflect recent discussions

Ultimate Answers and the Civilization JUNTIAN HE, 2023-12-12 This book is about theories of ultimate answers and civilization related topics The ultimate answers are about those big questions in human history such as the answer to the universe where we came from who we are and why Therefore this book is based on its fundamental theory to communicate with those philosophical questions in human history In this way it could reveal the ultimate answers clearly It discusses all philosophical ultimate problems ontology monism pluralism idealism materialism skepticism relativism nihilism God free will dialectic contradiction mysticism absoluteness objectivity cosmology subjectivity finitude language truth and so forth It is broad in its discussion but it answers all questions fundamentally The latter two articles are more historical and ethical They discuss these topics based on the fundamental theory Ethical issues gender morality religion wealth justice choice and its cost diversity and management the government and the rich and the government and the public Economy and politics the rich and the poor private ownership and public ownership social competition freedom equality class power order and chaos independence consensus fairness totalitarianism anarchism the sin of ignorance selfish and selfless currency feminism and ideology Historical issues effort and accumulation capital and business distribution Utopia survival future primitive nature and ancient warfare and gender power They show what we have to do after we have the ultimate answers This book shows that we have come to a key point in history
