*Creation and Covenant* Christopher Roberts,2008-11-01 Does sexual

difference matter for marriage Are there good theological reasons why the two main characters in a marriage should be a male and a female or is marriage a more flexible covenant which any two people can keep Creation and Covenant analyzes latent but under examined beliefs about sexual difference in the theology about marriage which has been dominant for centuries in the Christian west The book opens by studying patristic theologies of marriage which rested on mostly implicit and often incompatible beliefs about sexual difference However Roberts argues that Augustine developed a coherent theology of sexual difference according it a shifting significance from creation to eschaton Roberts traces how Augustine s theology influenced and was developed by subsequent theologians such as Bernard of Clairvaux Luther Barth and John Paul II Finally Roberts engages today s debates about gay marriage Before becoming an academic Dr Roberts was a journalist On behalf of PBS television he covered both the Lambeth Conference in England and the World Council of Churches in Zimbabwe During those years he was disappointed by both the liberal and conservative arguments on homosexuality Left wingers seemed more interested in privacy autonomy and experience than in theology and right wingers seemed to have lots of prohibitions but little good news In the final chapters this book tries to do better inviting liberals to improve the standard of their arguments and explaining what is beautiful and persuasive about the traditional case
