Reliable Software Technologies - Ada-Europe 2007 Nabil Abdennahder, Fabrice Kordon, 2007-06-30 Reliable Software Technologies is an annual series of

international conferences devoted to the promotion and advancement of all aspects of reliable software technologies The objective of this series of conferences initiated and sponsored by Ada Europe the European federation of national Ada societies is to provide a forum to promote the development of reliable softwares both as an industrial technique and an academic discipline Previous editions of the Reliable Software Technologies conference were held in Porto Portugal in 2006 York UK in 2005 Palma de Mallorca Spain in 2004 Toulouse France in 2003 Vienna Austria in 2002 Leuven Belgium in 2001 Potsdam Germany in 2000 Santander Spain in 1999 Uppsala Sweden in 1998 London UK in 1997 and Montreux Switzerland in 1996 The 12th International Conference on Reliable Software Technologies took place in Geneva Switzerland June 25 29 2007 under the continued sponsoring of Ada Europe in cooperation with ACM SIGAda It was organized by members of the University of Applied Sciences Western Switzerland Engineering School of Geneva in collaboration with colleagues from various places in Europe The 13th conference in 2008 will take place in Venice Italy Reliable Software Technologies - Ada-Europe 2008 Fabrice Kordon, Tullio Vardanega, 2008-06-11 th The 13 edition of the International Conference on Reliable Software Technologies Ada Europe 2008 marked its arrival in Italy by selecting the splendid venue of Venice It did so after having been hosted twice in Switzerland Spain and the UK Montreux for its inauguration in 1996 and Geneva in 2007 Santander in 1999 and Palma de Mallorca in 2004 London in 1997 and York in 2005 and having visited Sweden Uppsala 1998 Germany Potsdam 2000 Belgium Leuven 2001 Austria Vienna 2002 France Toulouse 2003 and Portugal Porto 2006 It was certainly high time that the conference came to Italy The conference series which is run and sponsored by Ada Europe chooses its yearly venue following two driving criteria to celebrate the activity of one of its national member societies in a particular country and or to facilitate the formation or the growth of a national community around all aspects of reliable software technologies The success of this year's conference beside the richness of its technical and social program will thus be measured by its lasting effects We can only hope that the latter will be as good and vast as the former Owing to the absence of a national society associated with Ada Europe in Italy the organization of the conference was technically sustained by selected members of the Board of Ada Europe its governing body with some invaluable local support **Reliable Software Technologies - Ada-Europe 2007** Nabil Abdennahder, Fabrice Kordon, 2007-06-15 Reliable Software Technologies is an annual series of international conferences devoted to the promotion and advancement of all aspects of reliable software technologies The objective of this series of conferences initiated and sponsored by Ada Europe the European federation of national Ada societies is to provide a forum to promote the development of reliable softwares both as an industrial technique and an academic discipline Previous editions of the Reliable Software Technologies conference were held in Porto Portugal in 2006 York UK in 2005 Palma de Mallorca Spain in 2004 Toulouse France in 2003 Vienna Austria in 2002 Leuven Belgium in 2001 Potsdam Germany in 2000 Santander Spain in 1999 Uppsala Sweden in 1998 London UK in 1997 and Montreux Switzerland in 1996 The 12th International Conference on Reliable Software Technologies took place in

Reliable Software Technologies - Ada-Europe '99 Michael Gonzalez Harbour, Juan A. de la Puente, 2003-07-31 The Fourth International Conference on Reliable Software Technologies Ada Europe 99 took place in Santander Spain from June 7 to 11 1999. It was sponsored by Ada Europe the European federation of national Ada societies in cooperation with ACM SIGAda and Ada Spain and it was organized by members of the University of Cantabria and the Technical University of Madrid in Spain. This was the 19th consecutive year of Ada Europe conferences which have always been the main Ada events in Europe with their counterparts being the ACM SIGAda conferences in the USA formerly Tri Ada. The conference is not just devoted to the Ada language but rather to the more general area of reliable software technologies. In this sense there are papers on formal methods testing software architectures and design software engineering tools etc. We believe that the role of reliable software technologies is becoming increasingly important as computer applications control more and more of our everyday systems. The goal of our conference is to contribute to advancing the state of the art of all the technologies that help us in achieving better and more reliable software at a lower overall cost.

Started on the inspired initiative of Prof Alfred Strohmeier back in 1996 and spawned from the annual Ada Europe conference that had previously run for 16 consecutive years, the International Conference on Reliable Software Technologies celebrated this year its tenth anniversary by going to York UK where the first series of technical meetings on Ada were held in the 1970s. Besides being a beautiful and historical place in itself, York also hosts the Department of Computer Science of the local university whose Real Time Group has been tremendously influential in shaping the Ada language and in the progress on real time computing worldwide. This year's conference was therefore put together under excellent auspices in a very important year for the Ada community in view of the forthcoming completion of the revision process that is upgrading the language standard to face the challenges of the new millennium. The conference took place on June 20-24 2005. It was as usual

sponsored by Ada Europe the European federation of national Ada societies in cooperation with ACM SIGAda The conference was organized by selected staff of the University of York teamed up with collaborators from various places in Europe in what turned out to be a very effective instance of distributed collaborative processing The conference also enjoyed the generous support of 11 industrial sponsors
