*The Politics of Religion and the Religion of Politics* Ira Sharkansky, 2000-01-01

Prominent political theorist Ira Sharkansky looks at the intersection of religion and politics using the case of Israel where a chief rabbi officiates along with a prime minister to examine how the two inform each other

Focusing more on similarities than differences Sharkansky demonstrates that both religion and politics can justify their position on the moral high ground

Both are involved in shaping our values and standard of living however neither religion nor politics can claim a monopoly of virtue

Political demagogues have their religious equivalents in self serving prophets and false messiahs and politicians and religious leaders both may violate the morality that they preach

Sharkansky examines the place of intellectual certainty doubt charisma and passion in both realms

He argues that Israel among other Western democracies where politics and religion intersect supports a successful fusion of the two
