Paul's Emotional Regime Ian Y. S. Jew, 2020-10-15 In his letters Paul speaks often of his emotions and also promotes certain feelings while banishing others This indicates that for Paul emotion is vital However in New Testament studies the study of emotions is still nascent current research in the social sciences highlights its cognitive and social dimensions Ian Y S Jew combines rigorous social scientific analysis and exegetical enquiry to argue that emotions are intrinsic to the formation of the Pauline communities as they encode belief structures and influence patterns of social experience By taking joy in Philippians and grief in 1 Thessalonians as representative emotions and contrasting Paul's approach with that of his Stoic contemporaries Jew demonstrates that authorized feelings have socially integrating and differentiating functions by reinforcing the shared theological realities upon which emotional norms are based group belonging is bolstered Simultaneously authorized emotions fortify the theological boundaries between Christians and others which strengthens group solidarity in the Church by accentuating its members insider status Using this framework heuristically Jew explores how the interplay of symbolic ritual and social elements within Paul's eschatological worldview reinforces emotional norms and demonstrates that attention to emotion can only deepen our understanding of the social formation of the early believers

Mormonism and the Emotions Mauro Properzi, 2015-05-21 Mormonism and the Emotions An Analysis of LDS Scriptural Texts is an introductory Latterday Saint LDS theology of emotion that is both canonically based and scientifically informed It highlights three widely accepted characteristics of emotion that emerge from scientific perspectives namely the necessity of cognition for its emergence the personal responsibility attached to its manifestations and its instrumentality in facilitating various processes of human development and experience In analyzing the basic theological structure of Mormonism and its unique canonical texts the objective is to determine the extent to which LDS theology is compatible with this three fold definition of emotion At this basic level of explanation the conclusion is that science and Mormon theology undoubtedly share a common perspective The textual investigation focuses on unique Mormon scriptures and on their descriptions of six common emotions hope fear joy sorrow love and hate For each of these emotional phenomena the extensive report of textual references consistently confirms an implied presence of the outlined three fold model of emotion Thus the evidence points to the presence of an underlying folk model of emotion in the text that broadly matches scientific definitions Additionally the theological examination is enlarged with a particular focus on the Mormon theology of atonement which is shown to play a significant role in LDS understandings of emotions A broad exploration of such areas as epistemology cosmology soteriology and the theological anthropology of Mormonism further contextualizes the analysis and roots it in the LDS theological worldview

Women, Religion, and Emotions in Modern Germany and Beyond Lisa Fetheringill Zwicker, Martina Cucchiara, 2025 Analyzes the role of emotions in the religious lives of women from across Germany and Europe from the nineteenth century to the 1970s Scholarship on women and religion has focused

primarily on the intersection between women's religious engagement and their emancipation. This volume goes beyond that to examine the vital role religion has played in the private and public lives of German and European women. Because emotions are central to the expression of religiosity, it draws on approaches from the history of emotions to examine how women understood, felt, and practiced religion in their search for meaning. Spanning from the nineteenth century to the 1970s, the volume's essays show how religion helped women make sense of their lives. It also illuminates the degree to which women used religion and its attendant emotional scripts to shape modern society and how religious discourses in turn shaped women's emotions and comportment in the public sphere. The volume builds on recent research that shows that religion, especially the religiosity of women, remained a pressing public concern in modern Europe. From anxieties over the religiosity of Bavarian servants to restrictive norms imposed on Jewish widows, from the interfaith commitments of kindergarten teachers to the autobiographical narratives of aspiring Protestant deaconesses, from the suffering of stigmatics in Germany and Belgium to Irish women's public narratives of their religiosity, this book reveals how women's faith and attendant religious emotions have been central to their public and private lives.

Women and Interreligious Dialogue Catherine Cornille, Jillian Maxey, 2013-09-26. Though women have been objects more often than subjects of interreligious dialogue, they have nevertheless contributed in significant ways to the dialogue, just as the dialogue has also contributed to their own self-understanding. This volume, the fifth in the Interreligious Dialogue Series, brings together historical, critical, and constructive approaches to the role of women in the dialogue between religions. These approaches deal with concrete examples of women's involvement in dialogue, critical reflections on the representation of women in dialogue, and the important question of what women might bring to the dialogue. Together, they open up new avenues for reflection on the nature and purpose of interreligious dialogue.

African Pentecostals in Catholic Europe Annalisa Buttici, 2016-04-04. Catholic Italy is a destination for migrants from Nigeria and Ghana who bring their own form of Christianity, Pentecostalism, the most Protestant of Christian faiths. At the heart of Annalisa Buttici's ethnography is a paradox: Believers on both sides are driven by a desire to find sensuous, material ways to make the divine visible and tangible.

Crossing and Dwelling Thomas A. Tweed, 2009-06-30. A deeply researched and vividly written study, this book depicts religion in place and in movement, dwelling and crossing. Drawing on insights from the natural and social sciences, Tweed's work is grounded in the gritty particulars of distinctive religious practices, even as it moves toward ideas about cross-cultural patterns. It offers a responsible way to think broadly about religion, a topic that is crucial for understanding the contemporary world.

Emotions as Engines of History Rafał Boryślawski, Alicja Bemben, 2021-09-23.
