Religion And Politics In The Developing World Explosive Interactions Contemporary Perspectives On Developing Societies:

Religion and Politics in the Developing World Rolin Mainuddin, 2018-01-12 This title was first published in 2002 What is the relationship between religion and politics How are they associated in the developing world When does the interface between them result in violence This volume attempts to answer these questions In particular the objective is to understand the circumstances that lead to explosive interactions between religion and politics in the developing world However this focus does not imply a perpetual tension between the religious and political spheres Rather it explores those historical moments when the relationship does break down and often ends in violent conflicts The contributors have expertise in fields such as anthropology history and political science

The African Exception Ulf Engel, 2017-11-28 Governance has become an important concept in the politics of African development It is therefore a crucial concept for social science analyses focusing on Africa In public discourse Africa's future is being shaped by a combination of external interventions backed by African elites who cooperate with the donors whose understanding of the importance of good governance they share This groundbreaking book disentangles the analytical aspects of governance from its political and normative connotations The African exception the difference in development between Africa and other regions of the South can be understood by analysis focusing upon the specific forms of governance played out in politics and economics The perspective of neo patrimonialism is crucial but not sufficient here The first section of the book explores African governance in two functional spheres the political realm and the economic Section two looks at new areas of governance in Africa violent social spaces HIV AIDS and entrepreneurial urban governance

Devolution and Development Mwangi S. Kimenyi, 2018-01-18 Through a collection of unique case studies and theoretical analyses this work examines the genesis and impact of decentralization reforms in developing and transition countries In particular the volume shows how decentralization affects governance and efficiency in the provision of public goods and under what conditions decentralization seems to deliver its theoretical benefits Analyses in the book address current concerns about the interaction of decentralization with social and political structure resource mobilization public goods provision and corruption This work will be invaluable to scholars of politics development studies and regional studies

Dilemmas of Weak States Tatah Mentan, 2017-11-30 Given the dramatic changes that have taken place in global politics in recent years especially following September 11 2001 it is time to examine a series of critical issues confronting the global political economy One of the most important of these issues is terrorism and its relationship with weak states This book examines the weak state terrorism nexus with particular emphasis on Africa Specifically it provides an in depth analysis of state weakness poverty and the opportunities offered by the latter for the breeding of terrorism and terrorists It also looks at the part played by radical Islam in transnational terrorism in Africa Emerging from this study is recognition of a need for the international system to analyze a wide range of issues that contribute to the weakening of

African states *Constitutionalism and Society in Africa* Okon Akiba, 2017-03-02 The issues addressed in this rewarding book provide new insight into the way we conceive, reflect and study the problems of political transformation and constitution making in Africa. The study provides a refreshingly in-depth analysis of the strengths and weaknesses of constitutional provisions for managing the challenges of race, religion, ethnicity, citizenship, civil liberties and civil-military relations in Africa's transitional democracies. Tracing emerging trends in constitution making, it blends the theory of constitutional democracy with case studies and defines the imperative of social justice.

Sweden vs Apartheid Abdul Karim Bangura, 2017-11-28 Sweden vs Apartheid examines the effort by the Swedish government and civil society in Sweden to abolish the system of apartheid that was instituted in South Africa in 1948. There are many reasons why this book is important. It explores the foreign policy posture of a state, looks at Sweden's neutrality policy which embraced the idea of international solidarity with weaker states and groups, and examines the first Western state to adopt an active anti-apartheid stance when such a position was quite unpopular in the West. The analysis blends both international relations and comparative political approaches to take a critical look at the role played by Sweden in the defeat of the apartheid system.

Agenda Setting and Public Policy in Africa Kelechi A. Kalu, 2017-03-02 Agenda Setting and Public Policy in Africa examines how decision makers have managed and mismanaged public policy issues in sub-Saharan Africa. It analyses the neglected issue of how ideas about public policy are generated by whom and for what purpose. Persistent problems such as political instability, environmental pollution, famine, hunger, desertification, rent seeking and incessant intra-conflicts across the continent are explored in a systematic and structured manner. Each contributor proffers convincing solutions to clearly identified problems. Well researched and solution orientated, this book will engage scholars and policy makers who are interested in public policy and development issues in Africa.

Human Impact on Environment and Sustainable Development in Africa Michael B.K. Darkoh, 2018-12-20 This title was first published in 2003. Based on a blend of knowledge and perspectives from a variety of disciplines, this volume examines the human-environment interaction in Africa with a focus on the economic, social and political processes that generate environmental change and problems in this region. Currently, there are controversies over and challenges to such concepts and issues as environment, human relationships, ecological resilience, decertification, sustainable development, globalization and North-South dialogue. This book draws upon past and present research findings to discuss these issues. It features an examination of the characteristics, processes and patterns of environmental crises, an analysis of the principal issues and challenges facing policy makers and implementers, and the promotion of awareness of theoretical, empirical and comparative research. The volume not only seeks to answer some of the old questions but also opens up new ones for further discussion.

The Role of Coloniality, Decoloniality, and Education in Shaping Perspectives on Extremism Helal Hossain Dhali, 2024-03-19 This book extends a comprehensive overview of the treatment of extremism in education in Bangladesh using a study of perceptions among

students to explore proactive measures for the prevention of various types and forms of extremism prevalent among youth. It offers a critical holistic and student centred study of the role of formal education in shaping perceptions of extremism and intersectional differences among individuals drawing on data from university students. The author employs post colonial theory and multicultural educational approaches to highlight how understandings of extremism differ across young adults and policymakers. Ultimately it demonstrates that students' overall understanding of extremism is much broader than that of policymakers and how understandings differ between male and female students at the intersection of rural and urban locations and socio economic positions. As such it foregrounds a need to involve and organize formal education as a proactive means to raise awareness and counter all forms of extremism through incorporating specific teaching strategies into pedagogical practices to foster an anti communalist humanistic critical multicultural and cosmopolitan outlook among students. It will appeal to scholars and researchers with interests across multicultural education comparative and international education the sociology of education extremism and conflict and peace studies.
