**Religion and Human Rights** Peter Juviler, Carrie Gustafson, 2016-07-01 Much has been written about the issue of religious freedom and church state relations The contributors to this book however take up another side of the question what has been the impact of religion on human rights Representatives from various religious traditions address a broad range of topics from environmental rights to the basic validation of human rights to the rights of women in India and Iran and within Orthodox Judaism to the global imposition of criminal justice to pressures for democratization within the Catholic Church in Latin America The six major essays along with their accompanying replies answer questions and raise issues in a provocative and compelling debate

**Islam and the Challenge of Human Rights** Abdulaziz Sachedina, 2009-11-05 In 1948 the General Assembly of the United Nations adopted and proclaimed the International Declaration of Human Rights a document designed to hold both individuals and nations accountable for their treatment of fellow human beings regardless of religious or cultural affiliations Since then the compatibility of Islam and human rights has emerged as a particularly thorny issue of international concern and has been addressed by Muslim rulers conservatives and extremists as well as Western analysts and policymakers all have commonly agreed that Islamic theology and human rights cannot coexist Abdulaziz Sachedina rejects this informal consensus arguing instead for the essential compatibility of Islam and human rights He offers a balanced and incisive critique of Western experts who have ignored or underplayed the importance of religion to the development of human rights contending that any theory of universal rights necessarily emerges out of particular cultural contexts At the same time he re examines the juridical and theological traditions that form the basis of conservative Muslim objections to human rights arguing that Islam like any culture is open to development and change Finally and most importantly Sachedina articulates a fresh position that argues for a correspondence between Islam and secular notions of human rights

The varied and diverse topics addressed by over fifty global experts in the field provide a rich weave of many threads. The book addresses historical and philosophical background on religious human rights, applicable international norms and the international procedural mechanisms for safeguarding these norms. It surveys central areas of controversy including registration of religious and belief organizations, emerging debates on religion and gender, parental and children's rights, new religious movements, proselytism and conscientious objection. Other chapters describe practical approaches to promoting tolerance and understanding through education, inter-religious dialogue, joint religious efforts addressing shared social problems and conflict resolution initiatives. **The Challenge of Religious Discrimination at the Dawn of the New Millennium** Nazila Ghanea-Hercock, 2013-11-11. The themes and issues explored in this book—religion, human rights, politics and society—could not be more relevant to the post-11 September 2001 world. They lie at the heart of global political debate today. The collection explores these issues after the passing of just over two decades from the adoption of the United Nations Declaration on the Elimination of all Forms of Intolerance and Discrimination based on Religion or Belief. That declaration set out minimum international standards for the elimination of such discrimination. Sadly, the challenge of intolerance on the basis of religion or belief continues to plague us and tackling it seems to have become increasingly entrenched. The complexity of this phenomenon requires expertise from different quarters. This collection draws from diplomatic, activist and theological quarters and benefits from the analysis of scholars of law, history, religious studies and sociology. The ten chapters of this collection examine the relationship between human rights law and religion, offer a typology for the study of religious persecution, problematise the consequences flowing from religious establishment in religiously plural society, analyse the implications of the directions being taken by the jurisprudence of the European Court of Human Rights and the protections offered by the European Commission, Council Directive 2000/43/EC outlawing workplace discrimination, study the 1981 Declaration and its promotion through the work of the UN Special Rapporteur on Freedom of Religion or Belief and explore the intricacies of this freedom in detail from within the context of the United Kingdom and The Netherlands.

**Civil Religion, Human Rights and International Relations** Helle Porsdam, 2012-01-01. This groundbreaking book discusses whether human rights can be forged into a common set of transcendent principles against which actions of every nation can be judged and whether such a common understanding or civil religion could one day become a vehicle for global peace. Eminent international scholars of history, political science, international relations, human rights and civil religion argue both sides of this debate. In Part One, the theoretical issues relating to why human rights have come about and whether they should be fought for are discussed. Part Two focuses on the reality of actions brought about by human

rights ideas with illuminating case studies showing that human rights ideas and practice are generated from both the bottom up and top down by individual actors and institutions The unique book will be of great interest to scholars in the field of history human rights international relations and political science in general Gender and Justice in Multicultural Liberal States Monique Deveaux,2006-11-30 Gender and Justice in Multicultural Liberal States explores the challenges that culturally plural liberal states face when they hold competing political commitments to cultural rights and sexual equality and advances an argument for resolving such dilemmas through democratic dialogue and negotiation Exploring recent examples of gendered cultural conflicts in South Africa Canada and Britain this book shows that there is an urgent need for workable strategies to mediate the antagonisms between the cultural practices and arrangements of certain ethno cultural and religious groups and the norms and constitutional rights endorsed by liberal states Yet such strategies will be successful only insofar as they can resolve conflicts without either reinforcing women s subordination within cultural communities or unjustly dismissing calls for cultural recognition and forms of self governance To this end the book develops an approach to mediating cultural tensions that takes seriously the demands of justice by cultural and religious minorities in liberal democratic states Grounded in an argument for democratic legitimacy this approach invokes norms of political inclusion and democratic dialogue and highlights negotiation and compromise as the best vehicles for arriving at resolutions to conflicts of cultural value However it also reconceives the basis of democratic legitimacy so as to include not merely formal expressions of political consent but also a range of non formal democratic activity that occur in the private and social spheres from acts of cultural reinvention and subversion to outright expressions of dissent and cultural refusal Freedom of Religion Or Belief Heiner Bielefeldt,Nazila Ghanea-Hercock,Michael Wiener,2016 This commentary on freedom of religion or belief provides a comprehensive overview of the pressing issues of freedom of religion or belief from an international law perspective

**International Handbook of the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza,Gloria Durka,Kathleen Engebretson,Robert Jackson,Andrew McGrady,2007-06-04 In today s pluralistic world many cultures feel a shift in the relationship of people with religious traditions A corresponding movement is a resurgence of interest in human spirituality This Handbook presents the views of education scholars who engage these concepts every day in a collection of essays reflecting the international state of the discipline Out of these rises a vision for the emergence of a just and peaceful world *The Cultural Defense* Alison Dundes Renteln,2004-01-15 In what ways and to what extent should cultural background be taken into consideration in response to legal problems The first book length study of the topic The Cultural Defense provides a comprehensive overview of the debate surrounding the admissibility of cultural evidence in the courtroom Documenting an extraordinary range of cases in which individuals have attempted to invoke a cultural defense this book provides an in depth look at the complexities of invoking cultural arguments in the diverse bodies of law under which the cases fall Cases considered include homicide and rape prosecutions child abuse cases drug use cases the treatment of

animals and custody battles Disputing current practices Renteln contends that the cultural defense should in both criminal and civil matters be given formal recognition      **Freedom of Religion Under Bills of Rights** Paul Babie, Neville Rochow, 2012 The Australian Constitution contains no guarantee of freedom of religion or freedom of conscience Indeed it contains very few provisions dealing with rights in essence it is a Constitution that confines itself mainly to prescribing a framework for federal government setting out the various powers of government and limiting them as between federal and state governments and the three branches of government without attempting to define the rights of citizens except in minor respects Whether Australia should have a national bill of rights has been a controversial issue for quite some time This is despite the fact that Australia has acceded to the ICCPR as well as the First Optional Protocol to the ICCPR thereby accepting an international obligation to bring Australian law into line with the ICCPR an obligation that Australia has not discharged Australia is the only country in the Western world without a national bill of rights 4 The chapters that follow in this book debate the situation in Australia and in various other Western jurisdictions From Foreword by The Hon Sir Anthony Mason AC KBE Human Rights and Courts
