Religion And Mass Electoral Behaviour In Europe:

Religion and Mass Electoral Behaviour in Europe David Broughton, Hans-Martin Ten Napel, 2000-12-14 An innovative cutting edge study this book focuses on the question of whether and how religion continues to influence and shape electoral behaviour across Europe *The SAGE Handbook of Electoral Behaviour* Kai Arzheimer, Jocelyn Evans, Michael S. Lewis-Beck, 2017-02-27 The study of voting behaviour remains a vibrant sub discipline of political science The Handbook of Electoral Behaviour is an authoritative and wide ranging survey of this dynamic field drawing together a team of the world's leading scholars to provide a state of the art review that sets the agenda for future study Taking an interdisciplinary approach and focusing on a range of countries the handbook is composed of eight parts The first five cover the principal theoretical paradigms establishing the state of the art in their conceptualisation and application and followed by chapters on their specific challenges and innovative applications in contemporary voting studies The remaining three parts explore elements of the voting process to understand their different effects on vote outcomes The SAGE Handbook of Electoral Behaviour is an essential benchmark publication for advanced students researchers and practitioners in the fields of politics sociology psychology and research methods

Religious Voting in Western Democracies José Ramón Montero, Paolo Segatti, Kerman Calvo, 2023-06-14 This book offers a systematic exploration of the role of religion and religiosity in electoral politics in Catholic Protestant and religiously mixed countries across Western Europe and in the United States The chapters approach the relationship between religion religiosity and electoral behaviour from a variety of different angles They include analyses of secularization trends comparative studies of the links between vote choice and religiosity longitudinal single country studies and a novel discussion of the theoretical underpinnings of the politicization of religion that provides a radically new framework for the analysis of the role of religiosity in election studies The volume shows that despite the expectations of secularization theory religiosity remains relevant when casting votes It also argues that the traditional notion of religious cleavage should be replaced with the more accurate idea of religious voting Chapters draw on National Election Studies data and comparative datasets such as European Values Studies EVS European Social Surveys ESS and European Election Studies EES to empirically test expectations regarding religious voting The results show that variations in religious voting are conditional on both the agency of political and ecclesiastical leaders when politicizing religious issues and the legacies of previous societal and political religious conflicts regardless of whether the original party system had a predominant religious cleavage

Religion at the European Parliament and in European multi-level governance François Foret, 2018-10-24 This book presents the findings of the first ever survey of the religious preferences of Members of the European Parliament MEPs An international research team interviewed a large sample of MEPs with the purpose of investigating their beliefs and how these beliefs have an impact on their role as MEPs The findings of this survey are offered in order to discuss in a non normative way some key political and intellectual debates Is Europe secularized Is the European

Union a Christian club What is the influence of religious lobbying in Brussels What are the dynamics of value politics Contributions also compare MEPs with national MPs and citizens to measure whether the findings are specific to the supranational arena and European multi level governance External cases such as the USA and Israel are also presented to define whether there is a European exceptionalism regarding the role of religion in the political arena This book was originally published as a special issue of Religion State Society *The Impact of Cleavages on Swiss Voting Behaviour* Andreas C. Goldberg,2016-11-23 This book studies the impact of cleavages on electoral choices Based on a case study of Switzerland it analyses how cleavages divide voters into voting blocs and how this influences Swiss voting behaviour and the Swiss party system The first part examines the development of salient cleavages such as religion social class rural urban and language between 1971 and 2011 Behavioural changes among voters and changes in the size of social groups are explored as explanatory factors for the decline of cleavage voting The second part proposes a contextual perspective analysis of the current impact of cleavages using both individual and contextual factors These factors are also combined to examine interaction effects between the individual and the context Finally the third part analyses whether the impact of cleavages has harmonised across different contexts Swiss cantons over time **Politics of Religion in Western Europe** François Foret,Xabier Itçaina,2013-06-17 Religion is becoming increasingly important to the study of political science and to re examine key concepts such as democracy securitization foreign policy analysis and international relations The secularization of Europe is often understood according to the concept of multiple modernities the idea that there may be several roads to modernity which do not all mean the eradication of religion This framework provides support for the view that different traditions societies and groups can come to terms with the components of modernity capitalism democracy human rights science and reason while keeping in touch with their religious background faith and practice Contributors examine the interaction between EU integration processes and Western European countries such as Belgium France Luxembourg Austria Scandinavia Italy and the UK and shine fresh light on the economic and cultural contexts brought about by relationships between politics and religion including immigrant religions and new religious movements This volume combines theoretical perspectives from political sociology and international relations to consider the role of religion as a source of power identity and ethics in institutions and societies Politics of Religion in Western Europe will be of interest to scholars of politics religion the European Union and political sociology **The SAGE Handbook of the Sociology of Religion** James A Beckford,Jay Demerath,2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that

religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook s 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009

Morality Politics in Western Europe Isabelle Engeli, Christoffer Green-Pedersen, Lars Thorup Larsen, 2012-06-29 Why do some countries have Culture Wars over morality issues such as abortion and same sex marriage while other countries hardly experience any conflict This book argues that morality issues only generate major conflicts in political systems with a significant conflict between religious and secular parties

Religion and Politics in Interwar Yugoslavia Maria Falina, 2023-01-26 Religion and Politics in Interwar Yugoslavia explores the interaction between religion nationalism and political modernity in the first half of the 20th century taking the case of the Serbian Orthodox Church as an example This book historicizes the widely held assumption that the bond between religion and nationalism in the Balkans is a natural one or that this bond has been historically inevitable It tells a complex story of how East Orthodox Christianity came to be at the core of one version of Serbian nationalism by bringing together the themes of religion nationalism politics state building secularization and modernity Maria Falina reconstructs how the ideological fusion between Serbian nationalism and East Orthodox Christianity was forged The analysis emphasizes ideas and ideologies through a close reading of public discourses and historical narratives while paying attention to individual actors and their personal histories The book argues that the particular political vision of the Serbian Orthodox Church emerged in reaction to and in interaction with the challenges posed by political modernity that were not unique to Yugoslavia These included establishing the modern multinational and multi religious state the fear of secularization and the rise of communism and fascism Religion and Politics in Interwar Yugoslavia makes an important contribution to understanding the history of interwar Yugoslavia 20th century Europe and the ties between religion and nationalism

Liberal Parties in Europe

Emilie van Haute, Caroline Close, 2019-02-12 This book investigates how liberal parties have evolved over time as a party family in a comparative perspective Through a discussion of the applicability of the concept of party family to liberal parties it gives a better picture of the development challenges and opportunities for liberal parties in Europe The history of liberal parties in Europe is peculiar and the origins of the liberal family are not clearly defined Liberal parties are still quite heterogeneous given the various meanings embraced in the idea of liberalism including economic liberalism cultural liberalism progressivism social liberalism Bringing together the best specialists engaged in the study of liberal parties and with a two levels perspective comparative and case study this book renews and expands our knowledge on the liberal party family in Europe Four major themes are developed linked to the four approaches of the concept of party family electoral performances participation to power ideology and political program and party organization These themes are systematically developed in case studies and in comparative chapters Primarily aimed at scholars and students in comparative politics this book should especially appeal to scholars in the fields of political parties and party systems representation and elections voting behavior and public opinion Christian Democratic Parties in Europe Since the End of the Cold War Steven Van Hecke, Emmanuel Gerard, 2004 The period since the end of the Cold War has been characterised by an acceleration in the European integration process a changing pattern of political ideologies and the emergence of new political parties and issues This book assesses the impact of these phenomena on Christian Democratic parties in the current and future member states of the European Union and highlights some of the particularities and universalities of European Christian Democracy from a comparative and transnational perspective Political scientists and historians from various universities examine the way in which Christian Democratic parties have responded to these challenges for instance by a rapprochement with non Christian Democrats and explain how those responses have resulted in failure in some cases and success in others **Contemporary European Politics** José M. Magone, José Magone, 2013-07-03 In this important new introductory textbook Jos Magone provides an accessible and comprehensive introduction to contemporary European politics The unification of the European continent since the Fall of the Berlin wall in 1989 and the collapse of communist regimes in Central and Eastern Europe has changed the nature of European politics This book seeks to address the new European politics that emerged out of this coming together of West and East Utilizing a pan European comparative approach the book covers key topics with chapters on the history theory institutions parties and party systems interest groups systems of interest intermediation and civil society the impact of European public policy and the emergence of a European common and foreign policy provides detailed comparisons of the national political systems across Europe including Central and Eastern Europe and the Balkans contextualises national politics in the growing importance of European integration examines the European Union multi level governance system approach highlighting relationships and interactions between the global supranational national regional and local levels analyses the change from modern politics in which the nation state was still in command of domestic politics

and its own borders to postmodern politics in which de territorialisation de nationalisation and internationalisation processes have transformed the national politics of European states facilitates learning through a wide range of pedagogical features including chapter summaries guides to further reading questions for revision and extensive use of maps figures case studies and tables Richly illustrated throughout this work is an indispensable resource for all students and academics of European politics

The Structure of Political Competition in Western Europe Zsolt Enyedi, Kevin Deegan-Krause, 2013-09-13 Is European party politics hovering above society Why do voters pick one party over others Is it a question of class Of religion Of attitudes about taxes or immigration or global warming Or is it something else entirely The Structure of Political Competition in Western Europe takes a detailed look at the ways in which Western Europe s party systems are anchored in social and ideological structures The book s first section focuses on the role of social structures particularly education class and religion and analyzes the complex interplay among these factors The second section addresses the ways that the sociological structures such as class and religion interact with voters values The third section examines the way that these structures and values shape the space of political competition among parties The conclusion integrates the findings of the empirical articles putting them into broader comparative perspective discussing whether relatively predictable structures have been overwhelmed by media driven spectacles political personalities and focus on short term economic performance This volume will appeal to scholars and graduate students in Europe and those from North America Asia and other regions who study European politics political parties cleavages and political behaviour This book was published as a special issue of West European Politics

Irish Religious Conflict in Comparative Perspective John Wolffe, 2014-05-27 By setting the Irish religious conflict in a wide comparative perspective this book offers fresh insights into the causes of religious conflicts and potential means of resolving them The collection mounts a challenge to views of Irish exceptionalism and points to significant historical and contemporary commonalities across the Western world

Children of International Migrants in Europe R. Penn, P. Lambert, 2009-08-20 This book is a comparative analysis of children of international migrants in Britain France and Germany using survey data from the EFFNATIS project By analysing data on linguistic structural political religious and socio cultural behaviour it offers exciting new evidence on sociological models of immigrant incorporation

Christian Democracy Across the Iron Curtain Piotr H. Kosicki, Sławomir Łukasiewicz, 2017-11-06 This book is the first scholarly exploration of how Christian Democracy kept Cold War Europe s eastern and western halves connected after the creation of the Iron Curtain in the late 1940s Christian Democrats led the transnational effort to rebuild the continent s western half after World War II but this is only one small part of the story of how the Christian Democratic political family transformed Europe and defied the nascent Cold War s bipolar division of the world The first section uses case studies from the origins of European integration to reimagine Christian Democracy s long term significance for a united Europe The second shifts the focus to East Central Europeans some exiled to Western Europe some to the USA others remaining in the Soviet Bloc as

dissidents The transnational activism they pursued helped to ensure that Iron Curtain or no the boundary between Europe s west and east remained permeable that the Cold War would not last and that Soviet attempts to divide the continent permanently would fail The book s final section features the testimony of three key protagonists This book appeals to a wide range of audiences undergraduate and graduate students established scholars policymakers in Europe and the Americas and potentially also general readerships interested in the Cold War or in the future of Europe **Handbook of Public Policy in Europe** H. Compston,2004-10-01 The Handbook of Public Policy in Europe provides an invaluable overview of the content of public policy across the full range of policy areas in Britain France and Germany It is designed to be used by students experts and practitioners both to help compare public policy across different policy areas and countries and as a source of information on individual policy areas Each chapter describes the nature of public policy in a particular area makes detailed comparisons of selected aspects and outlines recent developments Detailed Internet references are also provided

Secularization in the Long 1960s Clive D. Field,2017-03-16 Secularization in the Long 1960s Numerating Religion in Britain provides a major empirical contribution to the literature of secularization It moves beyond the now largely sterile and theoretical debates about the validity of the secularization thesis or paradigm Combining historical and social scientific perspectives Clive D Field uses a wide range of quantitative sources to probe the extent and pace of religious change in Britain during the long 1960s In most cases data is presented for the years 1955 80 with particular attention to the methodological and other challenges posed by each source type Following an introductory chapter which reviews the historiography introduces the sources and defines the chronological and other parameters Field provides evidence for all major facets of religious belonging behaving and believing as well as for institutional church measures The work engages with and largely refutes Callum G Brown s influential assertion that Britain experienced revolutionary secularization in the 1960s which was highly gendered in nature and with 1963 the major tipping point Instead a more nuanced picture emerges with some religious indicators in crisis others continuing on an existing downward trajectory and yet others remaining stable Building on previous research by the author and other scholars and rejecting recent proponents of counter secularization the long 1960s are ultimately located within the context of a longstanding gradualist and still ongoing process of secularization in Britain
