Religion And Politics In The South Mass And Elite Perspectives

Robert P. Steed, Laurence W. Moreland

Religion And Politics In The South Mass And Elite Perspectives:

Religion and Politics in the South Tod A. Baker, 1983-12-01 Religion and Politics in the United States Kenneth D. Wald, Allison Calhoun-Brown, 2007 Religion and Politics in the United States Fifth Edition offers a comprehensive account of the role of religious ideas institutions and communities in American public life While maintaining that religion is too politically potent to be left out or consigned to the margins in accounts of American politics Wald and Calhoun Brown also argue against the common tendency to treat religion as the dominant force in politics today Early topics include the nature and persistence of religion in the United States its contribution to the Founding and the continuing debate over the role of religion in government and law Following a discussion of how religious factors encourage political action the book concludes by discussing basic political attitudes and behavior among members of mainstream American religious traditions and minority religious communities defined by ethnicity race gender and sexual orientation The new edition greatly expands coverage of various religious minorities with a new chapter on politics and religion among African Americans Latinos Muslim Americans Latter Day Saints Mormons and other faith traditions There is larger focus on how religion influences the politics of local communities

Religion and Politics John T. S. Madeley, 2019-07-15 This title was first published in 2003 This subject area of this work cross cuts conventional sub disciplinary boundaries in the study of comparative politics Connections between religion and politics can be identified in all of the thematic areas covered by the articles within

Religion and Politics in the South Tod A. Baker, Robert P. Steed, Laurence W. Moreland, 1983 **The Oxford Handbook of Southern Politics** Charles S. Bullock, Mark J. Rozell, 2012-03-15 The twenty three essays included in The Oxford Handbook of Southern Politics present a definitive view of the factors that contribute to the South s distinctive politics examining these factors in the context of the region s political development since World War II

Interest Group Politics in the Southern States Ronald J. Hrebienar, Clive Thomas, 1992-07-30 Underscores the pivotal and at times controlling role played by interest groups in southern politics

Religion, Politics, and American Identity David S. Gutterman, Andrew R. Murphy, 2008-03-01 Scholarship on the role of religion in American public life has taken on a new urgency in the increasingly contentious wake of the attacks of September 11 2001 This volume brings together an impressive group of scholars to build on past work and broaden the scope of this crucial inquiry in two respects by exploring aspects of the religion politics nexus in the United States that have been neglected in the past and by examining traditional questions concerning the religious tincture of American political discourse in provocative new ways Essays include examinations of religious rhetoric in American political and cultural discourse after September 11th the impact of religious ideas on environmental ethics religion and American law beyond the First Amendment religious responses to questions of gay and lesbian rights the Church of Jesus Christ of Latter Day Saints and issues of free speech and public space in Utah and the role of religious institutions and ideas on the political priorities of African American and Latino communities In addition Religion Politics and American Identity

includes introductory and concluding essays by leading scholars in the field of religion and politics that assess present and future directions for study *The Life and Death of the Solid South* Dewey W. Grantham, 2014-07-11 Southern style politics was one of those peculiar institutions that differentiated the South from other American regions This system long referred to as the Solid South embodied a distinctive regional culture and was perpetuated through an undemocratic distribution of power and a structure based on disfranchisement malapportioned legislatures and one party politics It was the mechanism that determined who would govern in the states and localities and in national politics it was the means through which the South's politicians defended their region's special interests and political autonomy The history of this remarkable institution can be traced in the gradual rise long persistence and ultimate decline of the Democratic Party dominance in the land below the Potomac and the Ohio This is the story that Dewey W Grantham tells in his fresh and authoritative account of the South's modern political experience The distillation of many years of research and reflection is both a synthesis of the extensive literature on politics in the recent South and a challenging reinterpretation of the region's political history **Writing Southern Politics** Robert P. Steed, Laurence W. Moreland, 2021-12-14 Scholars, journalists, writers and pundits have long regarded the South as the nation's most politically distinctive region Its culture, history and social and economic institutions have fostered unique political ideas that intrigue observers and have had profound political consequences for the nation's citizens, politicians and policymakers Writing Southern Politics is the most comprehensive review of the large body of post World War II literature on southern politics Since the publication of V O Key Jr's landmark work Southern Politics in State and Nation 1949 scholars have produced an astounding number of books, monographs, professional journal articles and research papers addressing elements of continuity and change in southern politics The contributors to this book sort through the literature identifying major themes, examining areas of scholarly disagreement and making the key dimensions and contours of the region's politics understandable Individually the essays in this volume identify and clarify the key writing and research in selected subfields of southern politics including religion, race, women and political parties Collectively the essays identify and discuss the major components of and trends in southern politics over the past half century The contributors, some of the foremost scholars in the field, have been heavily involved in researching and writing about southern politics during the past three decades and have observed the development of many of the research projects that form the foundation of southern political literature In many instances their own writings are included in the body of literature they discuss bringing unique skills, research and perspectives to their original essays In addition to reviewing existing literature Writing Southern Politics also includes suggestions for a future research agenda Not all aspects of the region's dramatic fifty year transformation have been fully explored and the continuation of this development ensures new avenues to examine The discussion of past research and writing is an invaluable tool for understanding the trends in southern politics over the past half century By examining these trends and developing an agenda for future research the authors provide a roadmap for identifying the

changes that will likely shape the region over the next half century Confederate Symbols in the Contemporary South J. Michael Martinez, William D. Richardson, Ronald L. McNinch-Su, 2017-10-15 A timely collection of essays examining the controversy surrounding the use display of Confederate symbols in the modern South *Christian Clergy in American Politics* Sue E. S. Crawford, Laura R. Olson, 2003-05-06 In recent decades Christian clergy have ever more frequently had to decide whether to become involved in politics When they do become involved their influence can be substantial In this book Sue E S Crawford Laura R Olson and their coauthors explore the political choices clergy make and the consequences of these choices Drawing on personal interviews and statistical data to place the actions of clergy in both their religious and secular contexts the authors study mainline and evangelical Protestant Catholic and Mennonite communities They examine the role of white African American and female religious leaders And they address issues of local development city government and national and international politics Contributors Christi J Braun Boston University School of Law Timothy A Byrnes Colgate University James C Cavendish University of South Florida Sue E S Crawford Creighton University Katie Day Lutheran Theological Seminary at Philadelphia Melissa M Deckman Washington College Paul A Djupe Denison University Joel S Fetzer Central Michigan University James L Guth Furman University Ted G Jelen University of Nevada Las Vegas Laura R Olson Clemson University James M Penning Calvin College Mary R Sawyer Iowa State University Corwin E Smidt Calvin College

Varieties of Southern Religious Experiences Samuel S. Hill, 1988-01-01 Over the past twenty years there has been a dramatic increase in the number scope and quality of studies of religion in the American South This new work has been inspired and furthered by a growing acknowledgment of the importance of religious studies in general by the conviction that religion has always been basic to popular discourse in the South and by an awareness of the bearing of religion on the political economic and social spheres of life The authors represented in this collection are professors of religion sociology and history and are all part of a new wave of scholars with fresh orientations toward the study of southern religion The essays cover a wide variety of subjects ranging chronologically from John Boles's work on white black relations in antebellum biracial churches to William Martin's treatment of what he calls the electronic church of the 1980s the television audience congregations who follow evangelists such as Jerry Falwell and Pat Robertson The book encompasses a wide range of points of view socioeconomic classes and denominations In addition to C Eric Lincoln's essay on the history of the black church in America there are J Wayne Flynt's on the social gospel among southern Protestants from 1890 to 1920 David Edwin Harrell's on plain folk religion in the South from 1835 to 1920 Randall M Miller's on southern Catholicism and Ralph E Luker's on the ideas of the Episcopal theologian William Porcher DuBose Wade Clark Roof shows how the unchurched in both the South and the rest of the nation reflect the general modernizing process and Richard L Rubenstein treats the relationship between slavery and the Holocaust in William Styron's *Sophie's Choice* Clarence C Gen writes on the sectional splits in the major denominations prior to the Civil War and in his introduction and conclusion to the collection Samuel S Hill places these ten

essays clearly in the context of our current understanding of southern religion and suggests the ways in which this work breaks new ground and points to important new interpretations These essays reflect the central assumption that there has been a distinct South for a long time and they also reveal and examine the genuine diversity of that region's religious history The book is effective and engaging in its treatment of southern religion as an identifiable cultural entity as well as in its evocation of the rich diversity of the parts of that entity **The Long Southern Strategy** Angie Maxwell, Todd G.

Shields, 2019 In *The Long Southern Strategy* Angie Maxwell and Todd Shields trace the consequences of the GOP's decision to court white voters in the South Over time Republicans adopted racially coded anti feminist and evangelical Christian rhetoric and policies making its platform more southern and more partisan and the remodel paid off This strategy has helped the party reach new voters and secure electoral victories up to and including the 2016 election Now in any Republican primary the most southern presenting candidate wins regardless of whether that identity is real or performed Using an original and wide ranging data set of voter opinions Maxwell and Shields examine what southerners believe and show how Republicans such as Donald Trump stoke support in the South and among southern identified voters across the nation

Religion in the South, **American Studies** Jack Salzman, 1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of *American Studies: An Annotated Bibliography of Works on the Civilization of the United States* published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00

Alabama Baptists Wayne Flynt, 1998 The definitive history of the dominant religious group within the state during the last two centuries **Party Activists in Southern Politics** Charles D. Hadley, Lewis Bowman, 1998 The implications of these and other significant realignments especially as reflected among grassroots activists in the two major parties are the focus of this valuable new book *Fundamentalisms and the State* Martin E. Marty, R. Scott Appleby, 1993 This third volume of the Fundamentalism Project provides a systematic overview of the advances made by antiseccular religious movements over the past twenty five years The distinguished contributors to this volume economists political scientists religious historians social anthropologists and sociologists focus on the impact these movements have had on national economies political parties constitutional issues and international relations on five continents and within the religious traditions of Islam Christianity Judaism Buddhism Hinduism and Sikhism Do fundamentalisms tend toward political activism and how successful have they been in remaking political structures To answer this question and others the contributors discuss the anti abortion movement

in the U S the Islamic war of resistance in Afghanistan and Shiite jurisprudence in Iran Martin E Marty and R Scott Appleby conclude the volume with a synthetic statement of fundamentalist impact on politics economies and state security The Fundamentalism Project is a monumental undertaking by the American Academy of Arts and Sciences that involves an international group of scholars Taken together the volumes in this series will become a standard reference for educators and policy analysts for years to come The 2000 Presidential Election in the South Robert P. Steed, Laurence W.

Moreland, 2002-03-30 This volume is the fifth in a series of analyses of elections in the South beginning with the 1984 general elections and continuing in 1988 1992 and 1996 While the presidential election has been the focus other important aspects of contemporary Southern electoral politics have also been examined including congressional and state elections as well as the overall status of party development and competition in each Southern state Steed and Moreland continue the general organization plan of the previous publications in this volume beginning with an introductory chapter on general issues and background a chapter on presidential primaries an examination of the particular issues of the 2000 presidential election and a look at religion and Southern politics Experts on the individual states then analyze the contests in each state and the volume concludes with a summary of the lessons to be gained from the 2000 election cycle An definitive work for all scholars students and researchers involved with contemporary Southern politics and presidential elections *America's Right* Robert B. Horwitz, 2013-07-10 Conservatism has been the most important political doctrine in the United States for nearly four decades It has dominated the intellectual debate and largely set the policy agenda even during years of Democratic electoral control But 21st century conservatism has moved far beyond even the Reagan Revolution of small government lower taxes and a respect for tradition The alliance of libertarians neoconservatives and the Christian right has launched anxious and angry attacks on the purported homosexual agenda the hoax of climate change the rule by experts and elites and the banishment of religion from the public realm In the foreign policy arena it has tried to remake the world through the cleansing fire of violence Contemporary American conservatism practices a politics that is disciplined uncompromising utopian and enraged seeking to take back our country This is anti establishment conservatism whose origin can be traced back to the right wing that battled both the reigning post World War II liberal consensus and the moderate establishment Republican Party This book examines the nature of anti establishment conservatism traces its development from the 1950s to the Tea Party and explains its political ascendance
