Religion The Western Mind:

The Closing of the Western Mind Charles Freeman, 2007-12-18 A radical and powerful reappraisal of the impact of Constantine's adoption of Christianity on the later Roman world and on the subsequent development both of Christianity and of Western civilization. When the Emperor Constantine converted to Christianity in 368 AD he changed the course of European history in ways that continue to have repercussions to the present day. Adopting those aspects of the religion that suited his purposes, he turned Rome on a course from the relatively open, tolerant and pluralistic civilization of the Hellenistic world towards a culture that was based on the rule of fixed authority, whether that of the Bible or the writings of Ptolemy in astronomy and of Galen and Hippocrates in medicine. Only a thousand years later, with the advent of the Renaissance and the emergence of modern science, did Europe begin to free itself from the effects of Constantine's decision, yet the effects of his establishment of Christianity as a state religion remain with us in many respects today. Brilliantly wide-ranging and ambitious, this is a major work of history.

Religion and the Western Mind Ninian Smart, 1987-03-15 Ninian Smart believes that the modern study of religion should occur in the context of a radical reappraisal of our educational system. This is a worldview analysis of religion appropriate to today's global city. It attacks narrowness, whether found in Western philosophy or Christian theology, and argues for a disestablishmentarian stance. *Religion and the Western Mind* presents the explosive possibilities of religions of world views that have the power to shape history. It offers a theory regarding the need of nations for religious justifications. It examines three fundamental backlashes: the Moral Majority, the Muslim Brotherhood, and Gush Emunim. It looks at the contrasting Indian and Sri Lankan responses to Western influence and delineates the Indian tradition in a new way. And finally, it diagnoses the future, exploring the ethical inferences of the worldview and supporting a position that runs like a thread through this book.

Passion of the Western Mind Richard Tarnas, 2011-10-19 This magnificent critical survey, with its inherent respect for both the West's mainstream high culture and the radically changing world of the 1990s, offers a new breakthrough for lay and scholarly readers alike. Allows readers to grasp the big picture of Western culture for the first time. SAN FRANCISCO CHRONICLE Here are the great minds of Western civilization and their pivotal ideas from Plato to Hegel, from Augustine to Nietzsche, from Copernicus to Freud. Richard Tarnas performs the near miracle of describing profound philosophical concepts simply but without simplifying them. Ten years in the making and already hailed as a classic, *THE PASSION OF THE WESTERN MIND* is truly a complete liberal education in a single volume.

by publisher **The Oneness of the Eastern Heart and the Western Mind** Sri Chinmoy, 2014-03-22 This historic collection of all of Sri Chinmoy's university lectures in eBook form has been released to commemorate the 50th anniversary of Sri Chinmoy's arrival in the West on 13 April 1964. Sri Chinmoy's very first university lecture was given at the University of the West Indies in Kingston, Jamaica, on 10 January 1968. It was entitled 'Spirituality: What It Is and What It Is Not'. This inaugurated a whole era of talks which saw Sri Chinmoy travelling ceaselessly across the length and breadth of America and around the world to address the youth of each country. He would spend countless hours travelling by car or train to reach far-flung universities, sometimes visiting two or even three in the course of a single day. After many of these sublimely inspiring discourses, he would answer questions from the audience or spend time instructing sincere seekers in the age-old practices of concentration, meditation, and contemplation. By the mid-seventies, Sri Chinmoy had spoken volumes, and he began to include longer and longer periods of silent meditation in his lectures. Then, in 1984, in a significant departure from the spoken word, he introduced the theme of Peace Concerts. At these concerts, Sri Chinmoy would play his own soulful and devotional compositions on a variety of instruments of both Eastern and Western origin, meditating between each instrument and sometimes giving aphorisms on peace and related themes. In 2003, yet another form of Sri Chinmoy's self-offering unfolded when he travelled to a number of universities to honour distinguished professors for their significant contributions to the betterment of humanity by physically lifting them overhead. This remarkable endeavour was part of his 'Lifting Up the World With a Oneness Heart' award programme. Thus, through words, silence, music, and a combination of physical and spiritual upliftment, Sri Chinmoy has shared his profound spiritual message with the aspiring Truth-seekers and God-lovers of the university world for four decades. Sri Chinmoy's words are mantras for the modern age, reverberating in our hearts with their timeless and truly life-transforming wisdom. In his exquisite prose, which is suffused with the very breath and cadence of poetry, Sri Chinmoy has revealed all the many stages of the seeker's journey towards the Golden Shores of the ever-transcending Beyond. For generations to come, these three volumes will awaken the inner mounting cry of seekers everywhere to achieve the highest Goal of Yoga: union with God in this life. **Eastern Religion for Western Gnostics**

Michael Faust, 2013-01-26 Is religion compatible with science? The Tao of Physics by Fritjof Capra famously attempted to draw parallels between modern physics and Eastern mysticism. What Capra conspicuously avoided was any comparison between the Abrahamic religions and physics. These religions of faith have no scientific component. The West has, in the last few hundred years, been the engine of scientific progress, yet the dominant religions of the West are anti-scientific. This has led to a damaging dichotomy in the Western mind. Doesn't the West have any enlightenment religions that might allow science and religion to find common ground? This book compares and contrasts the Gnostic religion of Illumination, the religion of the ancient secret society known as the Illuminati, with the main Eastern religions of Hinduism, Buddhism, and Taoism, and suggests that all four religions can be brought together under one banner: Enlightenment that may stand in united opposition.

FUNDAMENTALS OF RELIGION, THE BRAHMA, NALINI KANTA,2007-09-22 We find today in different parts of the world fierce feuds and strifes Religious fanaticism and fundamentalism contribute in a substantial way to such strifes and

conflicts among people We also find a large number of people are steeped in superstitions irrational beliefs and indulge in mere ritualism Where true religion prevails such fanaticism and fundamentalism find no place A deep comparative study of world religions enables one to drive away all superstitions and fanaticism For religion in the true sense is an abiding faith in the values of life and God is the embodiment of all values Religious experience accordingly implies the realisation of the Absolute What Prof Nalini Kanta Brahma tries to do in this well researched book written in a clear and straightforward style is to demonstrate the nobility and positive aspects of each religion he has discussed He classifies religion into three categories Impersonal under which he brings in Buddhism Jainism and Confucianism Personal in this category he describes Christianity Islam and Vaishnavism and Supra personal under which he analyzes Vedantism Sufism Taoism and the Johanine Gospel the Gospel of St John one of the twelve disciples of Jesus Christ The fundamentals of each religion are discussed with great clarity and genuine appreciation Knowing very well there are a large number of opponents to religion the author vigorously defends the religious view He successfully meets the various objections of Freud Marx and Bertrand Russel among others For he says agnosticism atheism and scepticism are based on a narrow and limited view of life Realisation of divinity by man is the universal characteristic of all religions and the author contends that it should aptly be called the universal religion This realisation of the divinity is so marked in the supra personal religions and being a votary of such religions he stresses that they are on a different level If a study of this world religion is included in the course on comparative religion for students it would certainly help towards dispelling erroneous notions about religion and drive away many superstitions fanaticism and communalism the last being a cancerous growth that eats into the very fabric of a nation Besides students of philosophy who study comparative religion as one of their subjects all enlightened persons who have an abiding faith in religion should find reading this text an exhilarating and ennobling experience
