The Israeli Peace Movement Tamar S. Hermann, 2009-09-14 This book discusses the predicament of the Israeli peace movement which paradoxically following the launching of the Oslo peace process between Israel and the Palestinians in 1993 experienced a prolonged fatal decline in membership activity political significance and media visibility After presenting the regional and national background to the launching of the peace process and a short history of Israeli peace activism the book focuses on external and internal processes and interactions experienced by the peace movement after some basic postulates of its agenda were actually although never explicitly embraced by the Rabin government The book concludes that despite its organizational decline and the zero credit given to it by the policy makers in retrospect it appears that the movement contributed significantly to the integration of new ideas for possible solutions to the Middle East conflict in the Israeli mainstream political discourse

Zionist Israel and Apartheid South Africa Amneh Badran, 2009-09-10 This book is a comparison of two ethnic national apartheid states South Africa and Israel which have been in conflict and how internal dissent has developed In particular it examines the evolution of effective white protest in South Africa and explores the reasons why comparably powerful movements have not emerged in Israel The book reveals patterns of behaviour shared by groups in both cases It argues that although the role played by protest groups in peace building may be limited a tipping point or magic point can become as significant as other major factors It highlights the role played by intermediate variables that affect the pathways of protest groups such as changes in the international system the visions and strategies of resistance

movements and their degree of success the economic relationship between the dominant and dominated side and the legitimacy of the ideology in power apartheid or Zionism Although the politics and roles of protest groups in both cases share some similarities differences remain Whilst white protest groups moved towards an inclusive peace agenda that adopts the ANC vision of a united non racial democratic South Africa the Jewish Israeli protest groups are still by majority entrenched in their support for an exclusive Jewish state And as such they support separation between the two peoples and a limited division of mandatory Palestine Eretz Israel This timely book sheds light on a controversial and explosive political issue Israel being compared to apartheid South Africa [Handbook of Conflict Analysis and Resolution](#) Dennis J.D.
