Nathanson, 1994-03-17 This is a revolutionary book about the nature of emotion about the way emotions are triggered in our private moments in our relations with others and by our biology Drawing on every theme of the modern life sciences Donald Nathanson shows how nine basic affects interest excitement enjoyment joy surprise startle fear terror distress anguish anger rage dissmell disgust and shame humiliation not only determine how we feel but shape our very sense of self For too long those who explain emotional discomfort on the basis of lived experience and those who blame chemistry have been at loggerheads As Dr Nathanson shows chemicals and illnesses can affect our mood just as surely as an uncomfortable memory or a stern rebuke Linking for the first time the affect theory of the pioneering researcher Silvan S Thomkins with the entire world of biology medicine psychology psychotherapy religion and the social sciences Dr Nathanson presents a completely new understanding of all emotion      **Encyclopedia of Death and Dying** Glennys Howarth, Oliver Leaman, 2003-12-16 In recent years there has been a massive upsurge in academic professional and lay interest in mortality This is reflected in academic and professional literature in the popular media and in the proliferation of professional roles and training courses associated with aspects of death and dying Until now the majority of reference material on death and dying has been designed for particular disciplinary audiences and has addressed only specific academic or professional concerns There has been an urgent need for an authoritative but accessible reference work reflecting the multidisciplinary nature of the field This Encyclopedia answers that need The Encyclopedia of Death and Dying consolidates and contextualizes the disparate research that has been carried out to date The phenomena of death and dying and its related concepts are explored and explained in depth from the approaches of varied disciplines and related professions in the arts social sciences humanities medicine and the sciences In addition to scholars and students in the field from anthropologists and sociologists to art and social historians the Encyclopedia will be of interest to other professionals and practitioners whose work brings them into contact with dying dead and bereaved people It will be welcomed as the definitive death and dying reference source and an essential tool for teaching research and independent study      *Paul And The Religious Experience Of Reconciliation* Gilbert I. Bond, 2005      **The Legal Aspects of Shaming: An Ancient Sanction in the Modern World** Meital Pinto, Guy Seidman, 2023-09-06 Offering an original legal definition of shaming this incisive book argues for greater attention to shaming by legal scholars and practitioners Suggesting nuanced procedures to regulate shaming in diverse areas of law it seeks to make shaming by legal entities legitimate and effective and to use legal mechanisms to limit inappropriate shaming in non legal contexts      **Boundaries of Privacy** Sandra Petronio, 2012-02-01 Offering a practical theory for why people make decisions about revealing and concealing private information Boundaries of Privacy taps into everyday problems in our personal relationships our health concerns and our work to investigate the way

we manage our private lives Petronio argues that in addition to owning our own private information we also take on the responsibility of guarding other people's private information when it is put into our trust This can often lead to betrayal errors in judgment deception gossip and privacy dilemmas Petronio's book serves as a guide to understanding why certain decisions about privacy succeed while others fail *The Oxford Handbook of Practical Ethics* Hugh LaFollette, 2005-09-15

This is a guide to contemporary thought on ethical issues in all areas of human activity personal medical sexual social political judicial and international from the natural world to the world of business *Privacy* Eric Barendt, 2017-09-08

Privacy is a complex and controversial right The essays in this book address fundamental issues about its value and how best it may be defined Some of them examine its importance and scope in the context of the information society in which both government and business acquire ever more knowledge about the conduct and attitudes of individuals Others address the use of privacy to protect the rights of women and to protect individuals against the media *The Ethics of Homelessness*, 2021-11-22

This book extends the study of homelessness beyond the need of shelter Philosophical exploration exposes the fragility of human fulfillment in contemporary society The authors weave the moral fabric of what it means to be human They show how economic and political values compromise the dignity of homeless persons They argue for recognition of rights for the homeless who otherwise would be voiceless and without membership in the moral community This pioneering contribution instills our moral sensitivity to the homeless condition and justifies our moral responsibility to change that condition

**Privacy, Intimacy, and Isolation** Julie Inness, 1992-05-21 Privacy is a puzzling concept From the backyard to the bedroom everyday life gives rise to an abundance of privacy claims In the legal sphere privacy is invoked with respect to issues including abortion marriage and sexuality Yet privacy is surrounded by a mire of theoretical debate Certain philosophers argue that privacy is neither conceptually nor morally distinct from other interests while numerous legal scholars point to the apparently disparate interests involved in constitutional and tort privacy law By arguing that intimacy is the core of privacy including privacy law Inness undermines privacy skepticism providing a strong theoretical foundation for many of our everyday and legal privacy claims including the controversial constitutional right to privacy *Understanding Privacy* Daniel J. Solove, 2010-03-30

Solove offers a comprehensive overview of the difficulties involved in discussions of privacy and ultimately provides a provocative resolution He argues that are multiple forms of privacy related to one another by family resemblances His theory bridges cultural differences and addresses historical changes in views on privacy

*Theatrical Shows and Ascetic Lives* Blake Leyerle,2001-07-28 This book provides an original and rewarding context for understanding the prolific fourth century Christian theologian John Chrysostom and the religious and social world in which he lived Blake Leyerle analyzes two highly rhetorical treatises by this early church father attacking the phenomenon of spiritual marriage Spiritual marriage was an ascetic practice with a long history in which a man and a woman lived together in an intimate relationship without sex What begins as an analysis of Chrysostom s attack on spiritual marriage becomes a broad investigation into Chrysostom s life and work the practice of spiritual marriage itself the role of the theater in late antique city life and the early history of Christianity Though thoroughly grounded in the texts themselves and in the cultural history of late antiquity this study breaks new ground with its focus on issues of rhetoric sexuality and power Leyerle argues that Chrysostom used images and tropes drawn from the theater to persuade religious men and women that spiritual marriage was wrong In addition to her analysis of the significance of the rhetorical strategies used by Chrysostom Leyerle gives a thorough discussion of the role of the theater in late antiquity particularly in Antioch one of the gems among late antique cities She also discusses gender in the context of late antique religion shedding new light on early Christian attitudes toward sexuality Throughout Leyerle weaves an ongoing conversation with contemporary theory in film and gender studies that gives her study an important analytic dimension

*Performing Privacy and Gender in Early Modern Literature* M. Trull,2013-05-07 This book argues that the early modern public private boundary was surprisingly dynamic and flexible in early modern literature drawing upon authors including Shakespeare Anne Lock Mary Wroth and Aphra Behn and genres including lyric poetry drama prose fiction and household orders An epilogue discusses postmodern privacy in digital media

**Copyright, Defamation, and Privacy in Soviet Civil Law** S.Z. Levitsky,2024-12-23

*Locating Atonement* Zondervan,2015-11-10 A Close Look at Atonement s Place in Contemporary Systematic Theology In light of renewed interest in the doctrine of atonement during which a range of atonement models have gained momentum among different traditions it s important to map these models to the broader context of theological thought on this aspect of Christ s work and to show how no single approach has the complete picture The proceedings of the third annual Los Angeles Theology Conference seek to identify the place of the doctrine of atonement in systematic theology Locating Atonement stays away from discussion of theories of atonement typologies of those theories and contests among various theories Instead its focus is on the question What else is there to do in atonement theology besides rehashing types and theories The twelve diverse essays in this collection include discussions on Atonement and the concept of punishment Atonement and ascension Atonement and human suffering Atonement and covenant Each of the essays collected in this volume engage with Scripture as well as with others in the field theologians both past and present from different confessions in order to provide constructive resources for

contemporary systematic theology and to forge a theology for the future      *Varieties of Feminist Liberalism* Amy R. Baehr, 2004-04-05 Over the past thirty years western political philosophy has been enriched by a renewed interest in liberalism and by the development of feminism Although liberalism is one of the important historical roots of feminism many contemporary feminist political philosophers reject liberal political theory Indeed that liberalism and feminism are incompatible has been the dominant view among feminist scholars over the past 30 years *Varieties of Feminist Liberalism* is a groundbreaking collection that examines the relationship between these two rich normative traditions The essays in this volume present versions of feminism that are explicitly liberal or versions of liberalism that are explicitly feminist By bringing together some of the most respected and well known scholars in mainstream political philosophy today Amy R Baehr challenges the reader to reconsider the dominant view that liberalism and feminism are incompatible This long overdue volume is the first to bring together papers by feminist liberals and to aim explicitly at reconciling feminism and liberalism

*The Ethics of Homelessness: Philosophical Perspectives* , 2020-01-20 This new and expanded edition of G John M Abbarno s anthology *The Ethics of Homelessness* underscores what is ignored in plain sight people without a home or dwelling are also without privacy and dignity It is argued that they lack moral standing The chapters uncover the harsh realities of poverty where economic value overrides competing human values Naomi Zack argues that homelessness is symbolic of society s materialistic values It has a tendency to resist sufficient charity and perpetuates conditions of injustice Uma Narayan questions whether the homeless have protection under the U S Constitution Other authors present an enlarged sphere of homeless to include runaway children refugees adoptees and the disabled The book demonstrates the value of applied philosophy
