China on Film Paul G. Pickowicz, 2011-12-15
Leading scholar Paul G Pickowicz traces the dynamic history of Chinese filmmaking and discusses its course of development from the early days to the present Moving decade by decade he explores such key themes as the ever shifting definitions of modern marriage in 1920s silent features East West cultural conflict in the movies of the 1930s the strong appeal of the powerful melodramatic mode of the 1930s and 1940s the polarizing political controversies surrounding Chinese filmmaking under the Japanese occupation of Shanghai in the 1940s and the critical role of cinema during the bloody civil war of the late 1940s Pickowicz then considers the challenging Mao years including chapters on legendary screen personalities who tried but failed to adjust to the new socialist order in the 1950s celebrities who made the sort of artistic and political accommodations that would keep them in the spotlight in the post revolutionary era and insider film professionals of the early 1960s who actively resisted the most extreme forms of Maoist cultural production The book concludes with explorations of the highly cathartic films of the early post Mao era edgy postsocialist movies that appeared on the eve of the Tiananmen demonstrations of 1989 the relevance of the Eastern European velvet prison cultural production model and the rise of underground and independent filmmaking beginning in the 1990s Throughout its long history of film production China has been embroiled in a seemingly unending series of wars revolutions and jarring social transformations Despite daunting censorship obstacles Chinese filmmakers have found ingenious ways of taking political stands and weighing in for better or worse on the most explosive social cultural and economic issues of the day Exploring the often gut wrenching controversies generated by their work Pickowicz offers a unique and perceptive window on Chinese culture and society

Flight Capital
David A. Heenan, 2005 For centuries the United States has been a magnet for human capital ambitious talented immigrants came to make their fortunes and stayed to pump wealth into the U S economy Today America relies more than ever on immigrant brainpower over half the PhDs working here are foreign born as are nearly half the physicists computer scientists and mathematicians and many of Silicon Valley s high tech leaders But David Heenan warns they may not be here long In *Flight Capital* Heenan describes how within the past decade America has gone from being the top importer of brainpower to a net exporter Empowered by the globalization of technology emerging economies from Iceland to India are using aggressive initiatives to attract top knowledge workers In a reverse brain drain hundreds of thousands of the best and brightest in America are returning to their native lands to pursue new opportunities Heenan recounts the stories of dozens of emigrating

professionals in an engaging way to explore the various factors personal cultural economic and political that are fueling the exodus human capital and its consequences for America at a time when a shortage of talented labor is exacerbated by post 9 11 immigration restrictions The outflow of brainpower Heenan argues threatens U S technological and economic preeminence and even our security unless quick action is taken He proposes a dozen hard hitting measures to correct the situation both short and long term Timely and compelling Flight Capital focuses attention on whether America will continue as a world leader and on the new forces at play in the global economic community

Shanghai Refuge: A Memoir of the World War II Jewish Ghetto Ernest Heppner, 2019-08-09 After the Nazis took power Heppner a member of a privileged middle class German Jewish family suffered from constant anti Semitism But Kristallnacht in November 1938 introduced a new level of Nazi horror Heppner and his mother used the family s resources to escape to Shanghai the only city in the world that did not require a visa Heppner was taken aback by experiences on the ocean liner that took him and other refugees to Shanghai he was embarrassed and confounded when Egyptian Jews offered worn clothing to the Jewish passengers he resented the edicts against Jewish passengers disembarking in any ports on the way and he was unprepared for the poverty and cultural dislocation of the great city of Shanghai But being self reliant energetic and clever Heppner found niches for his skills that enabled him to survive in a precarious fashion in Shanghai s ghetto In 1945 after the liberation of China Heppner found a responsible position with the American forces in Nanjing He and his wife a fellow refugee he had met and married in Shanghai arrived in the United States in 1947 with only eleven dollars but boundless hope and energy This inspiring memoir is a story of survival The unique and traumatic experiences of tens of thousands of Jews who managed to escape for the temporary haven of Shanghai are described with objectivity and clarity Leonard H D Gordon Shofar The author describes in detail the sights and sounds of his adopted environment the mingling of Jews and many nationalities the choking stench and the humidity the decadent exotic underworld of criminals and beggars the terror of air raids and Japanese guards the rampant poverty and disease The general tone however is positive even inspiring and behind all the experiences lurks a sense of adventure and simple good luck Association of Jewish Libraries Newsletter A fascinating and moving memoir that begins with Heppner s childhood in Nazi Germany and moves briskly from one compelling scene to the next Forward Ernest G Heppner s Shanghai Refuge fills in the fragments of this little known Jewish community His story is an odd mixture of defiance courage endurance and survival His experience is fascinating Michael Berenbaum Director U S Holocaust Research Institute An important addition to the historical record of World War II an autobiography of a remarkable man s formative years and a testimony to the power of community and human perseverance Indianapolis Star Heppner s descriptions ring true and carry conviction especially when he recalls in evocative detail his day to day experiences in Nazi Germany Similarly his recollection of Shanghai with its small telling details of privations indignities anxieties and horrors make maximum impact from the rat in the bakery that he lifted up by its tail to the carnage following an American air raid Bernard

Fogel, 2014-09-19 After centuries of virtual isolation during which time international sea travel was forbidden outside of Japan's immediate fishing shores Japanese shogunal authorities in 1862 made the unprecedented decision to launch an official delegation to China by sea. Concerned by the fast changing global environment they had witnessed the ever increasing number of incursions into Asia by European powers not the least of which was Commodore Perry's arrival in Japan in 1853-54 and the forced opening of a handful of Japanese ports at the end of the decade. The Japanese reasoned that it was only a matter of time before they too encountered the same unfortunate fate as China; their hope was to learn from the Chinese experience and to keep foreign powers at bay. They dispatched the *Senzaimaru* to Shanghai with the purpose of investigating contemporary conditions of trade and diplomacy in the international city. Japanese from varied domains as well as shogunal officials, Nagasaki merchants and an assortment of deck hands made the voyage along with a British crew spending a total of ten weeks observing and interacting with the Chinese and with a handful of Westerners. Roughly a dozen Japanese narratives of the voyage were produced at the time recounting personal impressions and experiences in Shanghai. The Japanese emissaries had the distinct advantage of being able to communicate with their Chinese hosts by means of the brush conversation written exchanges in literary Chinese. For their part the Chinese authorities also created a paper trail of reports and memorials concerning the Japanese visitors which worked its way up and down the bureaucratic chain of command. This was the first official meeting of Chinese and Japanese in several centuries. Although the Chinese authorities agreed to few of the Japanese requests for trade relations and a consulate nine years later China and Japan would sign the first bilateral treaty of amity in their history, a completely equal treaty. East Asia and the diplomatic and trade relations between the region's two major players in the modern era would never be the same.

One Industry, Two Chinas Lynda S. Bell, 1999-09-01 This book reopens and restructures the grand debate on the nature of economic development in China prior to the Communist revolution. It rejects the debate's old contours in which quantitative data were used to argue that the trajectory of Chinese development was either positive or negative. Instead the author combines quantitative analysis with a detailed study of local politics, culture and gender to explain the shaping of the modern Chinese economy. Focusing on silk production in Wuxi county in the Yangzi Delta the author argues that local elites used social dominance to build a silk industry continuum, one industry fusing modern factory production with older patterns of peasant family farming. The resulting social configuration was two Chinas: one populated by wealthy urban elites transformed into a new silk industry bourgeoisie and the other by peasant families whose women became the workforce for cocoon production. The author describes the roles of merchant guilds and other elite organizations established to protect the silk industry from outside competition and excessive taxation, the methods and styles of elite networking and investment in building modern silk filatures and the roles of women elite women in sericulture reform and peasant women in silkworm raising. She also reveals the cooperation between silk industry elites and Nationalist government officials in the 1920s and 1930s which resulted in

an industry that was virtually state directed and designed to pass downward to the peasants the costs of building more competitive silk filatures This discovery challenges the prevailing tendency to think in terms of radical ruptures between Nationalist and Communist rule
