Shapers of Our Age John Graham, 2009-04-10 Marconi didn't invent radio Westinghouse didn't invent alternating current Talbot didn't invent photography and Edward Jenner didn't invent vaccination Innovators and inventors are wonderful thinkers but they are often poor communicators and business people Thus even if the change that they brought about altered or enhanced society oftentimes they were forgotten they did not receive public recognition or some other person took their credit Sometimes the true innovators are not recognized for hundreds of years and perhaps never This book tells the story of a number of these people in a way that illustrates their lives as well as their achievements It is meant to be entertaining and somewhat illuminating about the times in which these people lived These tales are not definitive reference biographies of the personalities involved They are tales of people with the same name in whose lives most of the events were identical to those of the personality

Umayyad Legacies Antoine Borrut, Paul M. Cobb, 2010-06-14 The Umayyads the first dynasty of Islam ruled over a vast empire from their central province of Syria providing a line of caliphs from 661 to 750 Another branch later ruled in al Andalus Islamic Spain from 756 to 1031 ruling first as emirs and then as caliphs themselves This book is the first to bring together studies of this far flung family and treat it not as two unrelated caliphates but as a single enterprise Yet for all that historians have made note of Umayyad accomplishments in the Near East and al Andalus Umayyad legacies what later generations made of these caliphs and their achievements are poorly understood Building on new interest in the study of memory and Islamic historiography and including interdisciplinary perspectives from Arabic literature art and archaeology this book highlights Umayyad achievements and the shaping of our knowledge of the Umayyad past *Demiurge* J.C.
