Relativism, Alternate History, and the Forgetful Reader Derek Thiess, 2014-11-25 The writer of alternate history asks what if What if one historical event were different what would the world look like today In a similar way the postmodern philosopher of history suggests that history is literature or that if we read certain historical details differently we would get a distinctly different interpretation of past events While the science fiction alternate history means to illuminate the past to increase our understanding of past events however the postmodern approach to history typically suggests that such understanding is impossible To the postmodern philosopher history is like literature in that it does not offer the reader access to the past but only an interesting story Building on criticism that suggests personal psychological reasons for this obscuring the past and using a literary theory of readership this book challenges the postmodern approach to history It channels the speculative power of science fiction to read the works of postmodern philosophy of history as alternate histories themselves and to map the limits and pathology of their forgetful reading of the past

At-Home Seminary Rich O'Brien, 2025-07-15 My goal upon entering Moody's MABS program was then as it is now to know God better and to love Him more. Before completing the program I began praying to know what God had in mind for me next. While praying I realized that some if not much of the biblical knowledge I had recently gained would likely slip from my mind if I did not take steps to prevent that. I was then led to compile my written assignments into a well organized anthology. As I prayerfully worked on that project I realized that the finished product could well serve as a Christian discipleship or small group study. That led me to prayerfully consider making the project available to everyone. Now along with WestBow Press I am blessed to invite you to embark on a journey through your own At Home Seminary.

Peace and Faith Cary Nelson, Michael C. Gizzi, 2021-10-26 *PEACE AND FAITH* Christian Churches and the Israeli Palestinian Conflict composed of new essays is the first collection to bring together writers from different faith communities to discuss the Boycott Divestment and Sanctions movement's impact on one of the more fractious topics addressed by Christian denominations: the Israeli Palestinian conflict. In so doing it builds on interfaith projects under way for decades. Theology and politics intermingle in debates taking place in local churches Christian NGOs and national church meetings that define official policy. The debates revive and reframe the most basic values of Christianity and the questions church members seek to resolve. How do Christians today live to the principles Jesus articulated? How can justice be pursued in the context of competing national narratives and historical understandings? What bearing do or should centuries of Christian violence against Jews and Muslims have on contemporary theology and ethics? Is it ethical or even possible to set aside millennia of Christian anti-Semitism in judging Israel's conduct? What Christian values should be honored in pursuing Jesus's mission of reconciliation today? How may the pursuit of truth be corrupted by passionate social witness? Can advocacy cross the line into hatred? These are among the critical questions this collection poses and attempts to address.

The Routledge Handbook of Hospitality Studies Conrad Lashley, 2016-11-10 In recent years there has been a growing interest in the study of hospitality as a social phenomenon. This interest has tended to arrive from two communities. The first comprises hospitality academics interested in exploring the wider meanings of hospitality as a way of

better understanding guest and host relations and its implications for commercial settings The second comprises social scientists using hosts and guests as a metaphor for understanding the relationship between host communities and guests as people from outside the community migrants asylum seekers and illegal immigrants The Routledge Handbook of Hospitality Studies encourages both the study of hospitality as a human phenomenon and the study for hospitality as an industrial activity embracing the service of food drink and accommodation Developed from specifically commissioned original contributions from recognised authors in the field it is the most up to date and definitive resource on the subject The volume is divided into four parts the first looks at ways of seeing hospitality from an array of social science disciplines the second highlights the experiences of hospitality from different guest perspectives the third explores the need to be hospitable through various time periods and social structures and across the globe while the final section deals with the notions of sustainability and hospitality This handbook is interdisciplinary in coverage and is also international in scope through authorship and content The state of the art orientation of the book is achieved through a critical view of current debates and controversies in the field as well as future research issues and trends It is designed to be a benchmark for any future assessment of the field and its development This handbook offers the reader a comprehensive synthesis of this discipline conveying the latest thinking issues and research It will be an invaluable resource for all those with an interest in hospitality encouraging dialogue across disciplinary boundaries and areas of study Chapters Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
