**Shared Beginnings, Divergent Lives** John H. LAUB, Robert J. Sampson, 2009-06-30 This book analyzes newly collected data on crime and social development up to age 70 for 500 men who were remanded to reform school in the 1940s Born in Boston in the late 1920s and early 1930s these men were the subjects of the classic study Unraveling Juvenile Delinquency by Sheldon and Eleanor Glueck 1950 Updating their lives at the close of the twentieth century and connecting their adult experiences to childhood this book is arguably the longest longitudinal study of age crime and the life course to date John Laub and Robert Sampson's long term data combined with in depth interviews defy the conventional wisdom that links individual traits such as poor verbal skills limited self control and difficult temperament to long term trajectories of offending The authors reject the idea of categorizing offenders to reveal etiologies of offending rather they connect variability in behavior to social context They find that men who desisted from crime were rooted in structural routines and had strong social ties to family and community By uniting life history narratives with rigorous data analysis the authors shed new light on long term trajectories of crime and current policies of crime control Table of Contents Acknowledgments 1 Diverging Pathways of Troubled Boys 2 Persistence or Desistance 3 Explaining the Life Course of Crime 4 Finding the Men 5 Long Term Trajectories of Crime 6 Why Some Offenders Stop 7 Why Some Offenders Persist 8 Zigzag Criminal Careers 9 Modeling Change in Crime 10 Rethinking Lives in and out of Crime Notes References Index The accounts of individuals are guite riveting and the book can be recommended strongly purely for the stories provided about diverse lives However the book is much much more than that in terms of the serious challenge that the authors findings and ideas present to some of the leading contemporary theories of both crime and development A highly original and scholarly contribution of the highest quality Sir Michael Rutter Institute of Psychiatry King s College London ttitleShared Beginnings Divergent Lives is an extraordinary work which shows the deep insights gained by studying the whole life course beginning in childhood and ending in later life With access to a rare data archive the authors provide compelling evidence on the remarkably varied adult lives of teenage delinquents who grew up in low income areas of Boston born 1925 1935 The story behind these varied life paths and their consequences inspires fresh thinking about crime over the life course through models of life trajectories and vivid narratives that reveal the complexity of lives Glen H Elder Jr University of North Carolina at Chapel Hill This book redraws the landscape of developmental criminology that Laub and Sampson already have done so much to define setting new standards and benchmarks along the way The authors both provide new evidence for earlier conclusions and challenge prevailing assumptions and assertions thereby reshaping the criminological research agenda for years to come John Hagan Northwestern University Young Adult Offenders Friedrich Lösel, A. E. Bottoms, David P. Farrington, 2012 This book brings together leading authorities in the field to analyse theoretical empirical and policy issues relating to this neglected group of people exploring different approaches to both crime prevention and offender treatment Confirmation Hearings

Cullen, John Paul Wright, Kristie R. Blevins, 2008-12-01 Criminology is in a period of much theoretical ferment Older theories have been revitalized and newer theories have been set forth The very richness of our thinking about crime however leads to questions about the relative merits of these competing paradigms Accordingly in this volume advocates of prominent theories are asked to take stock of their perspectives Their challenge is to assess the empirical status of their theory and to map out future directions for theoretical development The volume begins with an assessment of three perspectives that have long been at the core of criminology social learning theory control theory and strain theory Drawing on these traditions two major contemporary macro level theories of crime have emerged and are here reviewed institutional anomie theory and collective efficacy theory Critical criminology has yielded diverse contributions discussed in essays on feminist theories radical criminology peacemaking criminology and the effects of racial segregation. The volume includes chapters examining Moffitt's insights on life course persistent adolescent limited anti social behavior and Sampson and Laub's life course theory of crime In addition David Farrington provides a comprehensive assessment of the adequacy of the leading developmental and life course theories of crime Finally Taking Stock presents essays that review the status of perspectives that have direct implications for the use of criminological knowledge to control crime Taken together these chapters provide a comprehensive update of the field's leading theories of crime The volume will be of interest to criminological scholars and will be ideal for

The Chosen Ones Nikki Jones, 2018-05-25 In The Chosen Ones sociologist and feminist scholar Nikki Jones shares the compelling story of a group of Black men living in San Francisco s historically Black neighborhood the Fillmore Against all odds these men work to atone for past crimes by reaching out to other Black men young and old with the hope of guiding them toward a better life Yet despite their genuine efforts they struggle to find a new place in their old neighborhood With a poignant yet hopeful voice Jones illustrates how neighborhood politics everyday interactions with the police and conservative Black gender ideologies shape the men s ability to make good and forgive themselves and how the double edged sword of community shapes the work of redemption

High and Low Corruption Harry Adams, 2023-12-19 High and Low Corruption Children Capabilities and Crime provides a systematic theory of corruption and analyzes high corruption in terms of political corruption and high end white collar crime and low corruption in terms of juvenile delinquency and street crime It shows how delinquents and street criminals often suffer from arrested development of their basic human capabilities. In turn Harry Adams argues that their maldevelopment often emerges neither merely through their own fault when they were children nor through the fault of biological caregivers who were guilty of parental child neglect Beyond this Adams argues that the maldevelopment of at risk youth commonly emerges through a kind of political child neglect when corrupt public officials fail to provide adequate protection or back up support for their development In these ways the author shows how the former type of high corruption or suite crime can significantly contribute to the latter type of corruption and street crime By applying a set of moral constitutional and criminological principles from Derek Parfit Ronald Dworkin and Jeffrey Reiman respectively Adams also provides a systematic account of why and how both these types of corruption should be curbed Prisons, Punishment, and the Family Rachel Condry, Peter Scharff Smith, 2018 Every year millions of families are affected by the imprisonment of a family member Children of imprisoned parents alone can be counted in millions in the USA and in Europe It is a bewildering fact that while we have had prisons for centuries and the deprivation of liberty has been a central pillar in the Western mode of punishment since the early nineteenth century we have only relatively recently embarked upon a serious discussion of the severe effects of imprisonment for the families and relatives of offenders and the implications this has for society This book draws together some of the excellent research that addresses the impact of criminal justice and incarceration in particular

upon the families of offenders It assembles examples of recent and ongoing studies from eight different countries in order to not only learn about the secondary effects and collateral consequences of imprisonment but also to understand what the experiences and lived realities of prisoners families means for the sociology of punishment and our broader understanding of criminal justice systems While punishment and society scholarship has gained significant ground in recent years it has often remained silent on the ways in which the families of prisoners are affected by our practices of punishment This book provides evidence of the importance of including families within this scholarship and explores themes of legitimacy citizenship human rights marginalization exclusion and inequality A History of the Assessment of Sex Offenders D. Richard Laws, 2020-02-14 There are many varieties of procedures to assess criminal and sex offenders that have emerged throughout the 19th and 20th centuries This book is an attempt to bridge that gap to provide some historical background of sex offender assessment from Qualitative Research in Criminology Jody Miller, Wilson R. Beaver, 2014 A Fully Updated Second Edition of a Groundbreaking Text The only textbook of its kind Criminological Theory A Life Course Approach Second Edition includes original chapters written by an interdisciplinary group of scholars and experts The unique collection of contributors comes from the fields of psychology social work epidemiology criminology psychiatry and sociology Unlike other criminology textbooks which focus exclusively on environmental and social correlates to criminal behavior Criminological Theory uses a multi disciplinary approach that synthesizes multiple factors and presents a more comprehensive picture of life course antisocial behavior Rather than concentrating exclusively on adolescence and adulthood Criminological Theory examines the development of offending behaviors from birth through death Each chapter incorporates a glossary of key terms to facilitate comprehension of topics and disciplines that might be unfamiliar to criminologists. The revised and updated second edition includes critical overviews of current research and presents avenues for future research as well as empirical chapters featuring quantitative analyses and more traditional overview pieces Innovative and groundbreaking Criminological Theory A Life Course Approach Second Edition is an essential text for students of criminology criminal justice and sociology The

Routledge International Handbook of Life-Course Criminology Arjan Blokland, Victor van der Geest, 2017-03-16 Since its introduction in the latter half of the 1980s the meticulous study of distinct criminal career dimensions like onset frequency and crime mix has yielded a wealth of information on the way crime develops over the life span Policymakers in turn have used this information in their efforts to tailor criminal justice interventions to be both effective and efficient Life course criminology studies the ways in which the criminal career is embedded in the totality of the individual life course and seeks to clarify the causal mechanisms governing this process The Routledge International Handbook of Life Course Criminology provides an authoritative collection of international theoretical and empirical research into the way that criminal behavior develops over the life span which causal mechanisms are involved in shaping this development and to what degree criminal justice interventions are successful in redirecting offenders criminal trajectories Drawing upon qualitative and quantitative research this handbook covers theory describes and compares criminal career patterns across different countries tests current explanations of criminal development and using cutting edge methods assesses the intended and unintended effects of formal interventions This book is the first of its kind to offer a comprehensive overview of state of the art developments in criminal career and life course research providing unique perspectives and exclusive local knowledge from over 50 international scholars This book is an ideal companion for teachers and researchers engaged in the field of developmental and life course criminology
