Shared Life:

Aristotle on the Concept of Shared Life Sara Brill, 2020-05-21 According to the terms of Aristotle's Politics to be alive is to instantiate a form of rule. In the growth of plants the perceptual capacities and movement of animals and the impulse that motivates thinking, speaking and deliberating, Aristotle sees the working of a powerful generative force come to expression in an array of forms of life and it is in these if anywhere that one could find the resources needed for a philosophic account of the nature of life as such. Aristotle on the Concept of Shared Life explores this intertwining of power and life in Aristotle's thought and argues that Aristotle locates the foundation of human political life in the capacity to share one's most vital activities with others. A comprehensive study of the relationality which shared life reveals tells us something essential about Aristotle's approach to human political phenomena, namely that they arise as forms of intimacy whose political character can only be seen when viewed in the context of Aristotle's larger inquiries into animal life where they emerge not as categorically distinct from animal sociality but as intensifications of it. Tracing the human capacity to share life thus illuminates the interrelation between the zoological, ethical and political lenses through which Aristotle pursues his investigation of the polis. In following this connection, this volume also examines and critically evaluates the reception of Aristotle's political thought in some of the most influential concepts of contemporary critical theory.

From Shared Life to Co-Resistance in Historic Palestine Marcelo Svirsky, Ronen Ben-Arie, 2017-11-07 How do we contribute to the decolonisation of Palestine? In what ways can we divest from settler arrangements in the present day? Exploring the Zionist takeover of Palestine as a settler colonial case, this book argues that in studying the elimination of native life in Palestine, the loss of Arab Jewish shared life cannot be ignored. Muslims, Christians and Jews shared a life in Ottoman Palestine and in a different way during British rule. The attempt to eliminate native life involved the destruction of Arab society, its cultural hegemony and demographic superiority, but also the racial rejection of Arab Jewish sociabilities of shared life. Thus the settlerist process of dispossession of the Arabs was complemented with the destruction of the social and cultural infrastructure that made Arab Jewish life a historical reality. Both operations formed Israeli polity. Can this understanding contribute to present day Palestinian resistance and a politics of decolonisation? In this book, the authors address this question by exploring how the study of elimination of shared life can inform Arab Jewish co-resistance as a way of defying Israel's Zionist regime. Above and beyond opposing an unacceptable state of affairs, this book engages with past and present to discuss possible futures.

Humanity Divided Manuel Duarte de Oliveira, 2021-09-20 With exacting scholarship and fecund analysis Manuel Oliveira probes through the lens of Martin Buber 1878 1965 the theological and political ambiguities of Israel s divine election These ambiguities became especially pronounced with the emergence of Zionism Wary indeed alarmed by the tendency of some of his fellow Zionists to conflate divine chosenness with nationalism Buber sought to secure the theological significance of election by both steering Zionism from hypertrophic nationalism and by a sustained program to revalorize what he called alternately Hebrew Humanism As Oliveira demonstrates Buber viewed the idea of election teleologically espousing a universal mission of Israel which effectively calls upon Zionism to align its political and cultural project to universal objectives Thus in addressing a Zionist congress he rhetorically asked What then is this spirit of Israel of which you are speaking It is the spirit of fulfillment Fulfillment of what Fulfillment of the simple truth that man has been created for a purpose Our purpose is the upbuilding of peace And that is its spirit the spirit of Israel the people of Israel was charged to lead the way to righteousness and justice

Evil in Joint Action Hans Bernhard Schmid, 2020-07-19 Joining insights from social science and philosophy this book offers a nuanced view on the discourse of evil which has been on the rise in the West in recent years Exploring the famous Pear Theft episode in St Augustine s Confessions it looks beyond the theological implications of the event to focus instead on the secular insights that it offers when the event is placed in the context of social thought With attention to Augustine s lengthy reflections on a seemingly marginal episode the author contends that it is possible to discern the elements of a convincing account of intentional evil action the Pear Theft representing a case of joint radical improvisation that lacks collective deliberation As such a new perspective emerges on familiar and more intuitive forms of evil in joint action that involve group identification and institutional action Evil in Joint Action will appeal to scholars of sociology social theory and philosophy with interests in ethics collective action and concepts of evil

A Philosophy of Human Hope J.J. Godfrey,2012-12-06

Few reference works in philosophy have articles on hope Few also are systematic or large scale philosophical studies of hope Hope is admitted to be important in people s lives but as a topic for study hope has largely been left to psychologists and theologians For the most part philosophers treat hope en passant My aim is to outline a general theory of hope to explore its structure forms goals reasonableness and implications and to trace the implications of such a theory for atheism or theism What has been written is quite disparate Some see hope in an individualistic often existential way and some in a social and political way Hope is proposed by some as essentially atheistic and by others as incomprehensible outside of one or another kind of theism Is it possible to think consistently and at the same time comprehensively about the phenomenon of human hoping Or is it several phenomena How could there be such diverse understandings of so central a human experience On what rational basis could people differ over whether hope is linked to God What I offer here is a systematic analysis but one worked out in dialogue with Ernst Bloch Immanuel Kant and Gabriel Marcel Ernst Bloch of course was a Marxist and officially an atheist Gabriel Marcel a Christian theist and Immanuel Kant was a theist but not in a conventional way

Exploring Mormon Thought Blake T. Ostler,2006-03-01 In volume 2 of the series *Exploring Mormon Thought* The Problems of Theism and the Love of God Blake Ostler explores issues related to soteriology or the theory of salvation He argues that the commitment that God loves us and respects our dignity as persons entails that God must leave us free to choose whether to have a saving relationship with him He explores the logic of love and argues that the LDS doctrine of a war in heaven embodies the commitment that God leaves us free to choose whether to enter into relationship with God He explores the nature of inter personal prayer and the contributions of LDS beliefs to a robust prayer dialogue He offers a view consistent with LDS commitments that makes sense out of asking God to assist others to alter the natural environment and to grow in relationship with God He then turns to the concept of grace and argues that the traditional views lead to insurmountable problems He argues that though God does not owe any obligation to us to give us grace God does so out of love However because divinity arises from loving relationships he argues that God could not fail to give sufficient grace to all persons and remain a loving God

The Construction of Exodus Identity in Ancient Israel Linda M. Stargel,2018-05-22

Collective identity creates a sense of us ness in people It may be fleeting and situational or long lasting and deeply ingrained

Competition shared belief tragedy or a myriad of other factors may contribute to the formation of such group identity Even people detached from one another by space anonymity or time may find themselves in a context in which individual self concept is replaced by a collective one How is collective identity particularly the long lasting kind created and maintained Many literary and biblical studies have demonstrated that shared stories often lie at the heart of it This book examines the most repeated story of the Hebrew Bible the exodus story to see how it may have functioned to construct and reinforce an enduring collective identity in ancient Israel A tool based on the principles of the social identity approach is created and used to expose identity construction at a rhetorical level The author shows that exodus stories are characterized by recognizable language and narrative structures that invite ongoing collective identification
