Peschak,2014-02-27 At once feared and revered sharks have captivated people since our earliest human encounters Children and adults alike stand awed before aquarium shark tanks fascinated by the giant teeth and unnerving eyes And no swim in the ocean is undertaken without a slight shiver of anxiety about the very real and very cinematic dangers of shark bites But our interactions with sharks are not entirely one sided the threats we pose to sharks through fisheries organized hunts and gill nets on coastlines are more deadly and far reaching than any bite In Sharks and People acclaimed wildlife photographer Thomas Peschak

presents stunning photographs that capture the relationship between people and sharks around the globe A contributing photographer to National Geographic Peschak is best known for his unusual photographs of sharks his iconic image of a great white shark following a researcher in a small yellow kayak is one of the most recognizable shark photographs in the world The other images gathered here are no less riveting bringing us as close as possible to sharks in the wild Alongside the photographs Sharks and People tells the compelling story of the natural history of sharks Sharks have roamed the oceans for more than four hundred million years and in this time they have never stopped adapting to the ever changing world their unique cartilage skeletons and array of super senses mark them as one of the most evolved groups of animals Scientists have recently discovered that sharks play an important role in balancing the ocean including maintaining the health of coral reefs Yet tens of millions of sharks are killed every year just to fill the demand for shark fin soup alone Today more than sixty species of sharks including hammerhead mako and oceanic white tip sharks are listed as vulnerable or in danger of extinction The need to understand the significant part sharks play in the oceanic ecosystem has never been so urgent and Peschak s photographs bear witness to the thrilling strength and unique attraction of sharks They are certain to enthrall and inspire

The Lost Journalism of Ring Lardner Ring Lardner,2017 Ring Lardner s influence on American letters is arguably greater than that of any other American writer in the early part of the twentieth century Lauded by critics and the public for his groundbreaking short stories Lardner was also the country s best known journalist in the 1920s and early 1930s when his voice was all but inescapable in American newspapers and magazines Lardner s trenchant observant sly and cynical writing style along with a deep understanding of human foibles made his articles wonderfully readable and his words resonate to this day Ron Rapoport has gathered the best of Lardner s journalism from his earliest days at the South Bend Times through his years at the Chicago Tribune and his weekly column for the Bell Syndicate which appeared in 150 newspapers and reached eight million readers In these columns Lardner not only covered the great sporting events of the era from Jack Dempsey s fights to the World Series and even an America s Cup he also wrote about politics war and Prohibition as well as parodies poems and penetrating observations on American life The Lost Journalism of Ring Lardner reintroduces this journalistic giant and his work and shows Lardner to be the rarest of writers a spot on chronicler of his time and place who remains

contemporary to subsequent generations American Photo ,1997-11 XY-Girls and More Stories Derwin
