Sanctified Landscape David Schuyler, 2012-04-06 The Hudson River Valley was the first iconic American landscape Beginning as early as the 1820s artists and writers found new ways of thinking about the human relationship with the natural world along the Hudson Here amid the most dramatic river and mountain scenery in the eastern United States Washington Irving and James Fenimore Cooper created a distinctly American literature grounded in folklore and history that contributed to the emergence of a sense of place in the valley Painters led by Thomas Cole founded the Hudson River School widely recognized as the first truly national style of art As the century advanced and as landscape and history became increasingly intertwined in the national consciousness an aesthetic identity took shape in the region through literature art memory and folklore even gardens and domestic architecture In *Sanctified Landscape* David Schuyler recounts this story of America s idealization of the Hudson Valley during the nineteenth and early twentieth centuries Schuyler s story unfolds during a time of great change in American history At the very moment when artists and writers were exploring the aesthetic potential of the Hudson Valley the transportation revolution and the rise of industrial capitalism were transforming the region The first generation of American tourists traveled from New York City to Cozzens Hotel and the Catskill Mountain House in search of the picturesque Those who could afford to live some distance from jobs in the city built suburban homes or country estates Given these momentous changes it is not surprising that historic preservation emerged in the Hudson Valley the first building in the United States preserved for its historic significance is Washington s Headquarters in Newburgh Schuyler also finds the seeds of the modern environmental movement in the transformation of the Hudson Valley landscape Richly illustrated and compellingly written *Sanctified Landscape* makes for rewarding reading Schuyler expertly ties local history to national developments revealing why the Hudson River Valley was so important to nineteenth century Americans and why it is still beloved today

Reconciling Nature Robert M. Myers, 2019-11-01 Reveals how classic American novels embodied the tensions embedded in American views of the natural world from the Centennial until the end of the Second World War *Reconciling Nature* maps the complex views of the environment that are evident in celebrated American novels written between the Centennial Celebration of 1876 and the end of the Second World War During this period which includes the Progressive era and the New Deal Americans held three contradictory views of the natural world a recognition of nature's vulnerability to the changes brought by industrialism a fear of the power of nature to destroy human civilization and a desire to make nature useful Robert M Myers argues they reconciled these conflicting views through nature nostalgia policing of wilderness areas and through strategies of control borrowed from the social sciences Myers combines environmental history with original readings of eight novels producing fresh perspectives on Mark Twain's *Adventures of Huckleberry Finn* Stephen Crane's *Maggie* Kate Chopin's *The Awakening* Upton Sinclair's *The Jungle* Mary Austin's *The Ford* Theodore Dreiser's *An American Tragedy* Zora Neale Hurston's *Their Eyes Were Watching God* and William Faulkner's *Go Down Moses* While previous ecocritical works have focused on proto environmentalism in classic works of literature *Reconciling Nature* explores the ambivalence within these texts demonstrating how they reproduce views of nature as threatened threatening and useful The epilogue examines the environmental ideologies associated with the development and deployment of the first atomic bomb *Reconciling Nature* is an important contribution to ecocriticism American literary studies American studies and environmental history The book has incredible breadth and scope In each chapter Myers incorporates an impressive amount of historical context that always breathes new life into texts that have been discussed at length by other scholars Lloyd Willis author of *Environmental Evasion The Literary Critical and Cultural Politics of Nature's Nation*

houses and apartments these meditative personal essays explore the importance of our connection with the natural world history and memory The Suburban Wild follows the seasons from one spring to the next celebrating the natural miracles we frequently miss and revealing a territory less tamed than we might imagine These essays offer the sights and sounds found on the outskirts of cities just perceptible amid the clutter and din of crowded streets and sidewalks From the constant humming of cicadas on summer evenings and the seasonal migrations of ducks to the myriad hues in a green heron s feathers Peter Friederici reveals a complex place in which wild geese and morning commuters share the same habitat The essays honor our lost creatures and places emphasizing the importance of history memory and consciousness The author describes the varying shades and textures of a clay bluff near his childhood home relating the gradual erosion and recession of this Ice Age old landform A description of spirogyra algae blooms on Lake Michigan merges with a discussion of the lake s once abundant native mussels and the imported zebra mussels that are threatening their existence From recorded memories Friederici re creates the sight of the now extinct passenger pigeon Though awareness of the destruction of the landscape and its creatures is never far from the wonders presented here The Suburban Wild connects the tracks of wildlife and traces of our changing landscape with our own path through the world The book explores how history whether natural or cultural collective or personal shapes a landscape and how human memory shapes that history At heart it seeks to forge a link between the world outside our windows and the one inside
