From Under Iron Eyelids Thomas K. Tate,2005-05-11 Contrary to popular belief the Minie ball was not used by either side during America s Civil War Instead infantry soldiers fired the Harpers Ferry bullet a hollow based cylindro conical bullet designed by acting master armorer James Henry Burton His reward was to be driven from his position by partisan politics and into the lap of

Great Britain where he helped to establish the Royal Small Arms Factory at Enfield Based heavily on Burton's own papers this book explains the problems and solutions to the armory production of small arms A complete inventory of machine tools used to manufacture the Springfield rifled musket is listed in an appendix along with details and diagrams of three patents awarded to Burton Sitting Bull, Crazy Horse, Gold And Guns French L. McGuire, 2001 On the afternoon of May 10 1861 Army Captain Nathaniel Lyon marched out of the St Louis Arsenal at the head of 7 000 Union Regulars and Volunteers to capture an encampment of nearly 700 reputed Confederate sympathizers at Camp Jackson on the western outskirts of St Louis It probably did not occur to him that he was embarking on a mission that would forever enshrine his name and that of the Arsenal in the annals of Civil War history In words and images St Louis Arsenal Armory of the West relates in detail the story of the Arsenal from its founding in 1827 through its transition to cavalry post in 1872 then traces its new life and changing fortunes as the installation adapted its mission to meet the ever changing needs of the federal government Such personalities as William Beaumont Ulysses S Grant William Sherman Robert E Lee Nathaniel Lyon Daniel Frost and many others who would claim a place in American military history once served at or had dealings with the St Louis Arsenal **Gunsmoke and Saddle Leather** Charles G. Garavaglia, Charles G. Worman, 1997 This is the second volume of a two part encyclopedic reference to firearms in the 19th century American West offering both technical information and historical narrative Covering the period from the close of the Civil War to the modern period it draws on advertisements from newspapers catalogues and other primary sources to discuss the military and civilian firearms used in the settling of the West including rifles shotguns and handguns as well as the guns used by the Native Americans Illustrated with some 500 photographs of the weapons and of the people who used them Annotation copyrighted by Book News Inc Portland OR Firearms of the American West, 1803-1865 Louis A. Garavaglia, Charles G. Worman, 1998 In 1803 Lewis and Clark set out on their epic expedition across the American wilderness west of the Mississippi armed with the typical weapon of their day the single shot muzzle loading rifle By 1865 a variety of breech loading and repeating arms had been invented there were both easier to use and more accurate This encyclopaedic study part one of a two part book traces the development and uses of firearms on the frontier during that period drawing on primary sources such as correspondence and diaries newspaper accounts government reports and patent materials Then as now most of the advances in weaponry were made in response to the military's needs becoming available somewhat later to civilians and then to Indians The authors thoroughly cover the refinements and adaptations of weapons for employ by these three groups and by explorers and trappers describing in detail each gun its modifications operations and uses In many ways the history of firearms on the frontier parallels the history of
