Sheathing The Sword The Demilitarisation:

Sheathing the Sword Meirion Harries, Susie Harries, 1989 **'Crimes against Peace' and International Law** Kirsten Sellars, 2013-02-28 In 1946 the judges at the International Military Tribunal at Nuremberg declared crimes against peace the planning initiation or waging of aggressive wars to be the supreme international crime At the time the prosecuting powers heralded the charge as being a legal milestone but it later proved to be an anomaly arising from the unique circumstances of the post war period This study traces the idea of criminalising aggression from its origins after the First World War through its high water mark at the post war tribunals at Nuremberg and Tokyo to its abandonment during the Cold War Today a similar charge the crime of aggression is being mooted at the International Criminal Court so the ideas and debates that shaped the original charge of crimes against peace assume new significance and offer valuable insights to lawyers policy makers and scholars engaged in international law and international relations [Air University Library Index to Military Periodicals](#), 1988 **Japanese Defence** Syed Javed Maswood, 1990 This book focuses on the defence policy of the Nakasone administration and attempts to provide an explanation for the policy measures which its administration implemented or initiated It suggests that the widening disparity between economic interests and political power forced Japan to review the traditional bases for defence policy making and prompted the search for a balance that would allow the country a more active role in the international sphere The book is organized around the central theme that Nakasone's defence policy can be understood as an attempt to rehabilitate Japan as a normal state and end the state of affairs that had relegated it to a unique and low position *International Criminal Procedure* Göran Sluiter, Håkan Friman, Suzannah Linton, Sergey Vasiliev, Salvatore Zappalà, 2013-03-21 *International Criminal Procedure Principles and Rules* is a comprehensive study of international criminal proceedings written by over forty leading experts in the field The book offers a systematic overview and detailed comparison of the standards governing the conduct of proceedings in all major international and internationalized criminal courts from the Nuremberg and Tokyo Tribunals to the recently established Cambodian Extraordinary Chambers and the Special Tribunal for Lebanon Based on a major research project the study covers all procedural phases from the initiation of investigation to the appeals process It pays special attention to the crosscutting themes which shape the contemporary discourse on international criminal justice including the law of evidence the defence issues the procedural role of victims and negotiated dismissal of international crime cases The book not only takes stock of the procedural legacy of the UN ad hoc Tribunals for the former Yugoslavia and Rwanda and the International Criminal Court but also reflects on the future directions of international criminal procedure Investigating the tribunals procedural law and practice through the prism of human rights law domestic legal traditions and tribunals special objectives the expert group puts forth proposals on how the challenges facing international criminal jurisdictions can best be met *International Criminal Procedure* will be an indispensable work for practitioners involved in the adjudication of serious crimes on both national and

international level as well as international law students and academics **Democracy and Peace Making** Philip Towle, 2004-01-14 Democracy and Peace Making is an invaluable and up to date account of the process of peace making which draws on the most recent historical thinking It surveys the post war peace settlements of the nineteenth and twentieth centuries including the Vienna congress of 1815 the Treaty of Versailles the peace settlements of the Second World War peace talks after the Korean War the Paris Peace Accords of 1973 Transcultural Justice at the Tokyo Tribunal , 2018-03-06 While the International Military Tribunal at Nuremberg has been at the centre of scholarly attention the Tokyo Tribunal has for decades been largely neglected This is surprising insofar as this tribunal was a well organized Allied endeavour and prefigured the international courts and tribunals of our day Eleven national teams were sent to Tokyo between 1946 and 1948 to bring about justice in the aftermath of the Pacific War This volume offers an innovative approach to the Tokyo Tribunal as an arena of transcultural engagement It contextualizes legal agents as products of transnational forces constituted through dialogues about legal concepts and processes of faction making The endeavour was challenged by different national policies divergent legal traditions and varying cultural perceptions of the task ahead Contributors are Milinda Banerjee Anja Bihler Neil Boister David M Crowe Kerstin von Lingen Narrelle Morris Hitoshi Nagai Valentyna Polunina Ann Sophie Schoepfel Lisette Schouten James Burnham Sedgwick Yuki Takatori and Urs Matthias Zachmann

Japanese Diplomacy in the 1950s Makoto Iokibe, Caroline Rose, Junko Tomaru, John Weste, 2008-02-19 This book provides a detailed examination of Japan s diplomatic relations in the 1950s an important decade in international affairs when new structures and systems emerged and when Japan established patterns in its international relationships which continue today It examines the process of Japan s attempts to rehabilitate itself and reintegrate into a changing world and the degree of success to which Japan achieved its goals in the political economic and security spheres The book is divided into three parts each containing three chapters Part I looks at Japan in the eyes of the Anglo American powers Part II at Japanese efforts to gain membership of newly forming regional and international organizations and Part III considers the role of domestic factors in Japanese foreign policy making Important issues are considered including Japanese rearmament and the struggle to gain entry into the United Nations In contrast to much of the academic literature on post war Japanese diplomacy generally presenting Japan as a passive actor of little relevance or importance this book shows that Japan did not simply sit passively by but formed and attempted to instigate its own visions into the evolving regional and global structures It also

shows that whilst Japan did not always figure as highly as its politicians and policy makers may have liked in the foreign policy considerations of other nation states many countries and organizations did attach a great deal of importance to rebuilding relations with Japan throughout this period of re adjustment and transformation **Reading Penguin** George Donaldson, William Wootten, 2013-07-26 Founded by Allen Lane in 1935 Penguin Books soon became the most read publisher in the United Kingdom and was synonymous with the British paperback Making high quality reading cheaply available to millions Penguin helped democratise reading In so doing Penguin played an important part in the cultural and intellectual life of the English speaking world For this book which has its origins in the successful international conference held at Bristol University in 2010 to mark 75 years of Penguin Books recognised scholars from different fields examine various aspects of Penguin s significance and achievement David Cannadine and Simon Eliot offer wide historical perspectives of Penguin s place and impact Other scholars including Alistair McCleery Kimberley Reynolds Andrew Sanders Claire Squires Susie Harries Andrew Nash Tom Boll and William John Lyons examine more particularised subjects These range from the breaking of the Lady Chatterley ban to the visions of the future contained in Puffin Books from Penguin Classics to the scholarly and commercial interests in publishers anniversaries from the art and architectural histories of Nikolaus Pevsner to the art and design of Penguin covers and from the translation of poetry to the transcription of the Dead Sea Scrolls Together the essays depict much of what it was that made Penguin the most important British publishing house of the twentieth century
