Sheba who is celebrated by at least three of the world s great religions Judaism Christianity and Islam **Sovereign Joy** Miguel A. Valerio, 2022-07-07 An exploration of how Afro Mexicans affirmed their culture subjectivities and colonial condition through festive culture and performance *Women Writers* Paula Johanson, 2016-12-15 Although writing was long

considered suitable only for men there were some brave and clever women who defied the limitations cast upon their gender Divided by chronological eras this fascinating collection of biographies will enlighten readers about the women who have crafted the written word to record their surroundings their imaginations and their experiences Also included are chapter notes a glossary a further reading section containing books and websites and an index **Archaeology's Visual Culture**

Roger Balm, 2015-12-14 Archaeology s Visual Culture explores archaeology through the lens of visual culture theory The insistent visuality of archaeology is a key stimulus for the imaginative and creative interpretation of our encounters with the past Balm investigates the nature of this projection of the visual revealing an embedded subjectivity in the imagery of archaeology and acknowledging the multiplicity of meanings that cohere around artifacts archaeological sites and museum displays Using a wide range of case studies the book highlights how archaeologists can view objects and the consequences that ensue from these ways of seeing Throughout the book Balm considers the potential for documentary images and visual material held in archives to perform cultural work within and between groups of specialists With primary sources ranging from the mid nineteenth to the early twenty first century this volume also maps the intellectual and social connections between archaeologists and their peers Geographical settings include Britain Cyprus Mesoamerica the Middle East and the United States and the sites of visual encounter are no less diverse ranging from excavation reports in salvage archaeology to instrumentally derived data sets and remote sensing imagery By forensically examining selected visual records from published accounts and archival sources enduring tropes of representation become apparent that transcend issues of style

and reflect fundamental visual sensibilities within the discipline of archaeology      *The Ancient World* Sarolta Anna Takacs, Eric H. Cline, 2015-07-17 Designed to meet the curriculum needs of students from grades 7-12 this five volume encyclopedia explores the history and civilizations of the ancient world from prehistory to approximately 1000 CE. Organized alphabetically within geographical volumes on Africa, Europe, the Americas, Southwest Asia, and Asia and the Pacific, entries cover the social, political, scientific, and technological, economic, and cultural events and developments that shaped the ancient world in all areas of the globe. Each volume explores significant civilizations, personalities, cultural and social developments, and scientific achievements in its geographical area. **Pataphysica 4** Faustroll, 2007-02 *Pataphysica 4* presents the strange conclusion to Alfred Jarry's 1907 Symbolist novel *The She-Dragon*. Part 1, having appeared in *Pataphysica 2* (iUniverse, 2004), it also holds the central pivotal chapter of the novel which describes a battle that while entirely modern reads like ancient myth, conjuring such texts as the *Bhagavad Gita* and Homer's *Iliad*. Annotations highlight Jarry's alchemical symbolism among other things, alchemy being the ancient art and science studied in secret by such modern scientist-philosophers as Gottfried Leibniz and Isaac Newton. *Pataphysics* is the science of imaginary solutions, and for Jarry, although there is no other imagination than the scientific, modern science has simply failed to keep up with the scientific imagination. Rounding out this otherwise rectangular issue are the works of several returning authors as well as some new ones. They provide additional musings on such themes as Jarry's alchemical cosmological play *The Pope's Mustardmaker*, an amorous veteran of an internal war microcosm and macrocosm, a fugitive writer apparently obsessed with conspiracy theories and baseball, a peculiar Grimoire on a new set of Glorious Mysteries, and a terrifying invocation of the Thelemic Law of Rabelais. Jarry's literary master as adapted by Crowley. Strap on suitable eye protection and enjoy.

**Hidden History** Brian Haughton, 2007-01-15 An archaeologist explores history's most fascinating enigmas from the ancient Druids to the mysteries of the Mayan calendar and the lost city of Atlantis. Across thousands of years of history, so-called lost civilizations still speak to us through their artifacts and architecture. In *Hidden History*, archaeologist Brian Haughton fills the gap between archaeology and alternative history using the latest available data and a common sense, open-minded approach. Divided into three sections, this expertly researched volume shares the secrets of Mysterious Places, Unexplained Artifacts, and Enigmatic People. Haughton introduces readers to the greatest mysteries of the ancient world from the labyrinthine palace of Knossos on Crete to the pyramids of Egypt, the remote jungle temples of Peru, and the megalithic mystery of Stonehenge. But he also goes further to explore historical puzzles like the Coso Artifact, the possibility of ancient flight, and the Voynich Manuscript, as well as mysterious peoples from the Magi and the Druids to the Knights Templar and the Green Children. With more than 50 photographs and illustrations, this is the ideal reference work for those interested in the archaeology of these great enigmas.
