Chronicle ,1908 The Rowley Poems Thomas Chatterton,2019-11-29 Thomas Chatterton's *The Rowley Poems* is a masterful collection that showcases the author's pioneering use of medieval English poetic forms and themes. Written in the late 18th century, these poems are attributed to the fictional 15th-century monk Thomas Rowley, blending authentic archival language with Chatterton's own innovative style. The literary context of the work is steeped in the Romantic movement that sought to revive and celebrate the past, reflecting a yearning for authenticity amidst an era marked by burgeoning modernity. Chatterton's remarkable invention of Rowley's voice creates a tapestry of historical and imaginative elements that challenge the boundaries of authorship and authenticity in literature. Chatterton, known as a precocious literary talent, was born in 1752 in Bristol, England. His early exposure to literature and history, coupled with his experiences as a poor struggling poet, deeply informed his creative output. Chatterton's desire to reconcile his own contemporary struggles with a nostalgic past is palpable in these poems, positioning him as a significant figure in both the Romantic tradition and the evolution of English poetry. Recommended for scholars and enthusiasts of both Romantic poetry and literary forgeries, *The Rowley Poems* invites readers to explore the intricate interplay of history and imagination. This collection not only dazzles with its linguistic beauty but also provokes contemplation on the nature of originality and the role of the artist within a historical framework.

Decadent Romanticism: 1780-1914 Kostas Boyiopoulos, Mark Sandy, 2016-04-08 For Decadent authors, Romanticism was a source of powerful imaginative revisionism, perversion, transition, and partial negation. But for all these strong Decadent reactions against the period, the cultural phenomenon of Decadence shared with Romanticism a mutual distrust of the philosophy of utilitarianism and the aesthetics of neo-Classicism. Reflecting on the interstices between Romantic and Decadent literature, Decadent Romanticism reassesses the diverse and creative reactions of Decadent authors to Romanticism between 1780 and 1914 while also remaining alert to the prescience of the Romantic imagination to envisage its own distorted, darker, perverted other self. Creative pairings include William Blake and his Decadent critics, the recurring figure of the sphinx in the work of Thomas De Quincey and Decadent writers, and Percy Shelley with both Mathilde Blind and Swinburne. Not surprisingly, John Keats's works are a particular focus in essays that explore Keats's literary and visual legacies and his resonance for writers who considered him an icon of art for art's sake. Crucial to this critical reassessment are the shared obsessions of Romanticism and Decadence with subjectivity, isolation, addiction, fragmentation, representation, romance, and voyeurism, as well as a poetics of desire and anxieties over the purpose of aestheticism. **Salé Anderson**
