**Karl Rahner's Writings on Literature, Music and the Visual Arts** ,2021-08-26 This book is made up of a collection of texts unavailable in one volume until now including six previously untranslated essays from a major theologian of the twentieth century Rahner's numerous writings focused on the revelation of God as mystery in the world and on the human being who has an essential openness towards the transcendent His articles reveal an empathy and a depth of insight into the relationship between theology faith and the arts which are remarkable and may take the reader by surprise More recently Rahner's contribution to the growing field of theology and the arts has been recognised by leading theologians on this subject He asserts that theology must integrate the verbal and non verbal arts as they are authentic means of human self expression of religious experience and of God's self communication and therefore they are essential sources of theology Rahner argues that theology understood as a person's reflexive self expression about him or herself in the light of divine revelation cannot be regarded as complete until the arts become an intrinsic moment of theology itself Studies in

Inhaltsangabe Zusammenfassung Sprache das wichtigste Kommunikationsmittel des Menschen vermag ihre Kraft nirgendwo so stark zum Ausdruck zu bringen wie es in der Sprache der Politik geschieht Die Politik ist das Gebiet auf dem man die Facetten und Feinheiten der Sprache um so besser zu schätzen weiß je größer das Publikum ist da angesprochen wird und je mehr davon der politische Erfolg abhängig ist Das Parlament ist die Hauptbühne auf der mit Worten gefochten wird und politische Erfolge erkämpft werden Die Arbeit setzt sich mit 76 Abgeordnetenreden die während der Zweiten und Dritten Lesung der Schwangerschaftsabbruchsdebatte 1992 im Bundestag gehalten wurden auseinander Hauptakteure sind Parlamentarier der CDU CSU Fraktion und der SPD als Befürworter zweier gegensätzlicher Gesetzentwürfe des 218 anhand dessen Reden die Beziehungen zwischen der Ideologie Sprache und Politik erläutert werden In jeder einzelnen Rede wird unter Anwendung der lexikalisch semantischen Methode der konnotative emotive Aspekt der Wörter bis ins Detail positiv und negativ konnotierte Begriffe analysiert Darauf folgt die rhetorische Analyse der Reden unter folgenden Gesichtspunkten Analyse der Tropen Vergleich Metapher Metonymie Hyperbel und anderer rhetorischer Mittel Euphemismus Neologismus rhetorische Frage Anspielung sowie bildhafte Phraseologismen Bei jedem dieser Mittel wird ihre Funktion in der Rede er

ertert Schlüßelwörter der Debatte wie Würde des Menschen, Tötung des Lebens des ungeborenen Kindes, Unantastbarkeit des menschlichen Lebens, Gewissensfreiheit, Selbstbestimmungsrecht der Frau usw. sowie die spezifische Wahl der rhetorischen Mittel werden unter dem parteispezifischen Aspekt ausgewertet und mit der Programmatik der beiden führenden deutschen Parteien verglichen. Die Arbeit bringt einen Beweis dafür, daß Sprache ein Mittel ist, das den Parteivertretern die Möglichkeit bietet, die Welt der Bürger sprachlich so zu gestalten, wie man es für seinen politischen Erfolg vonnöten hat. Die Sprachen der Parteien variieren je nach ideologischem Hintergrund, so daß man jeweils vom ideologischen Jargon der CDU/CSU und der Ideologiesprache der SPD sprechen kann. Ein Zeichen dafür, daß in der pluralen Demokratie der Kampf um Wörter zum Hauptmittel der öffentlichen Politik wird.

 2. Sprache und *Production and Comprehension of Utterances* (RLE Linguistics B: Grammar) I.M. Schlesinger, 2014-01-10

In this volume the author reviews the results of research on language performance and proposes a model of production and comprehension. Although recent developments in linguistics are taken into account, consideration of other requirements of a performance model leads to the conclusion that the grammar the speaker has in mind differs from the grammar as currently conceived of by most linguists. The author is also critical of recent computer simulations of language performance on the basis that they fall short of describing what goes on in human production and comprehension. The author therefore proposes that the basic issues must be rethought and new theoretical foundations reformulated in order to arrive at a viable theory of language functioning. In developing the framework of the model presented in this book, requirements of flexibility in the performance mechanisms, the probabilistic nature of comprehension processes and the interleaving of linguistic rules with context and knowledge of the world are emphasized.

*Language and Its Functions* Pieter Adrianus Verburg, 1998-01-01

When Pieter Verburg 1905-1989 published *Taal en Functionaliteit* in 1952, the work was received with admiration by linguistic scholars, though the number of those who could read the Dutch text for themselves remained limited. The title alludes to the theories of linguistic function set out in 1936 by Karl Bühler, but Verburg regards the three functions of discourse focussing respectively on the speaker, the person addressed and the matter discussed as no more than sub-functions of the human function of speech. His central concern is to explore the relationships between thought and language and language and reality, and the work sets out to provide a historical analysis of views on these relationships in the period 1100 to 1800. The great strength of the work lies in the way in which the views of language are related to contemporaneous moves in philosophy and science, contrasting essentially the mediaeval acceptance of authority, the beginnings of induction in the Renaissance, the dependence of early rationalism on calculation based on axiomatic truths and the further development of independent observation. All these trends are reflected in the way men thought about language as well as in the way they used it. Much has been written on the history of linguistics since this book was written, but it still offers a unique view of the development of thinking about language.

**Biographical Dictionary of Twentieth-Century Philosophers** Stuart Brown, Diane Collinson, Robert Wilkinson, 2012-09-10  
 This Biographical Dictionary provides detailed accounts of the lives, works, influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth century. This unique volume covers the lives and careers of thinkers from all areas of philosophy, from analytic philosophy to Zen and from formal logic to aesthetics. All the major figures of philosophy, such as Nietzsche, Wittgenstein and Russell, are examined and analysed. The scope of the work is not merely restricted to the major figures in western philosophy, but also covers in depth a significant number of thinkers from the near and far east and from the non-European, Hispanic language communities. The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy, such as the Vienna Circle, or currents of thought, such as vitalism. These allow the reader to set the individual biographies in the context of the philosophical history of the period. With entries written by over 100 leading philosophy scholars, the Biographical Dictionary is the most comprehensive survey of twentieth-century thinkers to date.  
 Structure: The book is structured alphabetically by philosopher. Each entry is identically structured for ease of access and covers nationality, dates and places of birth and death, philosophical style or school, areas of interest, higher education, significant influences, main appointments, main publications, secondary literature, account of intellectual development and main ideas, critical reception and impact. At the end of the book, a glossary gives accounts of the schools, movements and traditions to which these philosophers belonged, and thorough indexes enable the reader to access the information in several ways: by nationality, by major areas of contribution to philosophy, e.g. aesthetics, by major influences on the thinker concerned, e.g. Plato, Kant, Wittgenstein.

 The appearance of Uriel Weinreich's *Languages in Contact: Findings and Problems* in 1953 marked a milestone in the study of multilingualism and language contact. Yet until now few linguists have been aware that its main themes were first laid out in Weinreich's Columbia University doctoral dissertation of 1951, *Research Problems in Bilingualism with Special Reference to Switzerland*. Based on the author's fieldwork, it contains a detailed report on language contact in Switzerland in the first half of the 20th century, especially along

the French German linguistic border and between German and Romansh in the canton of Grisons Graubünden The present edition reproduces Weinreich's original text in full with only minor alterations and corrections as well as the author's fieldwork photographs and many of his hand drawn diagrams A new foreword reviews Weinreich's life and legacy as well as developments in contact linguistics and the Swiss linguistic situation over the past 60 years With selected comments on noteworthy points and references to more recent literature this volume will be of interest not only to those working on the languages of Switzerland or specialists in language contact but all scholars today whose work builds on the broad and lasting foundations laid over half a century ago by Uriel Weinreich     *Fachsprachliche Dimensionen* Els Oksaar, 1988     **Von der Kultur der Aggression hin zur Feindesliebe** Mahuwèna Martin Dieudonné Djègbatè, 2022 Wir leben in einer Welt in der ein aus Angst weitverbreitetes negatives Menschenbild das Zusammenleben erschwert und immer neu die Friedensfähigkeit des Menschen und somit auch die Erfüllbarkeit des christlichen Gebotes der Feindesliebe in Frage stellt Martin Djègbat untersucht in der vorliegenden Forschungsarbeit die Mechanismen und die Ursachen der Verbreitung dieses Menschenbildes in den traditionellen und modernen Volksliedern im Süden Benins und legt einen besonderen Wert auf zivilgesellschaftlichen und politischen Mentalitätswechsel durch Selbstkritik Angstbewindung Dialog und Versöhnung
