Macroeconomic and Structural Adjustment Policies in Zimbabwe Clever Mumbengegwi, 2001-12-17 The policy relevant analysis of this volume examines nearly twenty years of Zimbabwe's macroeconomic and structural adjustment experiences since independence Part One analyses the impact on economic growth inflation employment and labour markets Part Two deals with financial liberalization and the financial turmoil and currency crisis experienced in the wake of reforms Part Three examines trade liberalization and its impact on investment and income distribution Part Four gives sectoral perspectives on the agricultural manufacturing and health sectors Becoming Zimbabwe. A History from the Pre-colonial Period to 2008 Brian Raftopoulos, Alois Mlambo, 2009-09-15 Becoming Zimbabwe is the first comprehensive history of Zimbabwe spanning the years from 850 to 2008 In 1997 the then Secretary General of the Zimbabwe Congress of Trade Unions Morgan Tsvangirai expressed the need for a more open and critical process of writing history in Zimbabwe The history of a nation in the making should not be reduced to a selective heroic tradition but should be a tolerant and continuing process of questioning and re examination Becoming Zimbabwe tracks the idea of national belonging and citizenship and explores the nature of state rule the changing contours of the political economy and the regional and international dimensions of the country's history In their Introduction Brian Raftopoulos and Alois Mlambo enlarge on these themes and Gerald Mazarire's opening chapter sets the pre colonial background Sabelo Ndlovu tracks the history up to WW11 and Alois Mlambo reviews developments in the settler economy and the emergence of nationalism leading to UDI in 1965 The politics and economics of the UDI period and the subsequent war of liberation are covered by Joesph Mtisi Munyaradzi Nyakudva and Teresa Barnes After independence in 1980 Zimbabwe enjoyed a period of buoyancy and hope James Muzondidya s chapter details the transition from buoyancy to crisis and Brian Raftopoulos concludes the book with an analysis of the decade long crisis and the global political agreement which followed Land Reform Under Structural Adjustment in **Zimbabwe** Sam Moyo, 2000 This study represents a first systematic effort to document Zimbabwe's new land uses during the years of economic crisis the role of the state in promoting them the differentiation associated with them not only between black and white farmers but also among them and the implications of all these for the political economy of the Zimbabwean land question The fact that some of the new land uses avoid redistribution of clearly under utilised large scale commercial farms suggests that the Zimbabwean land question will remain a live political issue for a long time Zimbabwe's **Economy** Kenneth Mahuni, James Zivanomoyo, Puruweti Siyakiya, Simba Mutsvangwa, 2025-02-17 This book traces the economic history of Zimbabwe from independence to the present day Through a comprehensive historical examination it highlights the short lived successes in the early years after independence and the dwindling colonial economy as well as the economic problems of the decades that followed The authors identify crucial flaws in the country's economic policies and highlight several dilemmas in the implementation of policies that exacerbated the country's deep seated structural problems

The book provides deep insights into the economic and social realities of post colonial states in Africa and offers important lessons for other African countries Macroeconomic Policy Reforms and Agriculture Romeo M. Bautista, 2002-01-01 This report investigates the income and equity effects of macroeconomic policy reforms in Zimbabwe emphasizing linkages between macroeconomic policies and agricultural performance and agriculture s influence on aggregate income and its distribution Analyses focus on reform of the foreign trade regime public expenditure and tax policy along with the potential benefits of combining these structural changes with various land reform scenarios. The study uses a CGE model that provides a policy simulation laboratory in which exogenous policy changes are analyzed for their economywide income and equity effects The report highlights the need for policy complementarities in Zimbabwe that can contribute to equitable growth It should be of interest not only to those concerned with recent economic developments in Zimbabwe but also to those concerned with the broader issues of macroeconomic reform and its ultimate effects *Environmental Impacts of* Macroeconomic and Sectoral Policies Mohan Munasinghe, International Society for Ecological Economics, 1996-01-01 The importance of violence as a contributory factor to urban poverty in Jamaica has gone largely unresearched This paper outlines the results of a study undertaken by the World Bank and the government of Jamaica to focus on the issue The study uses a participatory urban appraisal methodology in five poor urban areas mainly in Kingston to identify and understand local community perceptions of four different aspects of violence its causes its interrelationship with poverty its impact on employment economic and social infrastructure and local social institutions and ways in which government communities households and individuals can work to reduce it Neoliberalism, Civil Society and Security in Africa P. Carmody, 2007-10-17 Free market policies have been in operation across Africa for the past 25 years yet they have failed to reverse deepening poverty This book explores with case studies why such policies continue to be implemented and the ways in which they have been reinvented by socialization depoliticization regionalization and securitization Africa's **Development Impasse** Doctor Stefan Andreasson, 2013-07-04 Orthodox strategies for socio economic development have failed spectacularly in Southern Africa Neither the developmental state nor neoliberal reform seems able to provide a solution to Africa s problems In Africa s Development Impasse Stefan Andreasson analyses this failure and explores the potential for post development alternatives Examining the post independence trajectories of Botswana Zimbabwe and South Africa the book shows three different examples of this failure to overcome a debilitating colonial legacy Andreasson then argues that it is now time to resuscitate post development theory s challenge to conventional development In doing this he claims we face the enormous challenge of translating post development into actual politics for a socially and politically sustainable future and using it as a dialogue about what the aims and aspirations of post colonial societies might become This important fusion of theory with empirical case studies will be essential reading for students of development politics and Africa Macroeconomic Structure and Policy in Zimbabwe Ibrahim Elbadawi, Klaus Schmidt-Hebbel, 1991 A
