Rao, 1998-06-25 The three dominant forces shaping societies and economies around the world are globalization privatization and liberalization Because these processes are interrelated they must be addressed collectively The contributors to the volume show that globalization privatization and liberalization are multidimensional phenomena that impact not only the economic considerations of governments but also sociocultural and environmental aspects of societies The three phenomena also affect these units of analysis which Rao and his colleagues identify as regional country industrial and organizational The result is a cogent discussion of these powerful global forces for the academic community professionals in economic development banking finance international investment and global commerce After treating the conceptual issues of meaning definition and differing interpretations and perspectives the volume examines the historical experience with regional economic integration The flow of foreign direct investment a major consequence of globalization privatization and liberalization of economies is considered next This leads to a study of the challenges created for management at the microlevel in organizations such as the intensification of competitiveness and the increased importance of technology and technology management In their examination of country specific issues the contributors show how widely experiences vary with regard to the way in which the three major processes

are implemented and how the policies behind them are adopted Finally in their discussion of sectoral and industry specific issues the contributors note that great variations on how different industrial sectors and industries will approach and recreate themselves under the power of the three great processes      **Rural Education (1991)** Deyoung Alan, 2017-09-29 Originally published in 1991 essays discuss and analyse rural schooling in its historical social and political contexts as well as its educational mission Collections covering rural education in the United States are relatively rare particularly texts that focus on available research literature in context and many existing texts are written by educators outside of the University This book covers historical and social factors rural education in the field and the future of American Schooling The chapters comprise not only an airing of issues concerns and findings but also a guide to scholarship in the areas covered Included is a resource guide to information specific to rural education and rural special education      Canadian Books in Print ,2000

Thinking About Schools Aimee Howley, Craig Howley, 2012-11-12 As its title implies this book has a deceptively simple mission to prepare would be school leaders to draw upon a variety of theoretical perspectives when thinking about schools and schooling It shows how theories can function as cognitive tools to be mastered carefully stored in one s intellectual toolbox and used to interpret and resolve real world problems Beneath this goal lies the belief that the most effective leaders are those who are able to construct their own well grounded interpretations of events and their own responses to those events Key features of this exciting new text include the following Focus on Alternative Theories The functionalist theoretical views that have dominated administrator preparation programs for the last half century are reviewed early in the book and are shown to be inadequate to the task of understanding and coping with the complex realities of modern day schooling The remainder of the book presents alternative views of schooling that taken together can be thought of as a theoretical repertoire from which to construct interpretations and solutions to everyday real world problems Focus on Diversity Diversity is examined from a variety of viewpoints Chapter 6 looks at the cultural bases of leadership Chapter 7 at comparative and international contexts and Chapter 8 at gender and sexual orientation Illustrative Cases Each chapter contains a case with an embedded dilemma similar to those that real world administrators confront While illustrating the particular theoretical view presented in the chapter these cases are sufficiently complex that they lend themselves to interpretation by any of the other theories considered in the book This book is appropriate for graduate level courses with titles such as Organizational Theory Theory of School Leadership or Introduction to Educational Administration It might also be used as one of several texts in advanced courses on leadership theory
