Flash MX Studio Connor McDonald, Jon Steer, Jerome Turner, Abe White, Gerald YardFace, Matthew Baldwin, Steve Webster, David Tudury, 2013-11-11 Flash MX Studio takes your raw Flash talent and multiplies its potency by focusing it on real world web design situations In the heady days of the late 1990s designers were trying their hand at anything and everything they could lay their hands on Now the marketplace is seriously focused and serious Flash designers have to know exactly what they're doing and why These days it's all about functionality over experimentation justification over style It's all about maturity The design must fit the job specs and this book shows the reader how to fulfill these requirements and more This book examines all the avenues open to professional or aspiring professional Flash MX designers It takes a look at advanced uses of the new MX features such as components and the Drawing API and gives guidance on building whole new structures for animation Dynamic Content PHP ColdFusion MX XML video audio and audiovisual formats Never before has so much power been so accessible to the web designer This book is designed to put that power in your hands Flash MX Studio has been broken into four sections to address the most common needs for the Flash designer First off Jamie McDonald provides five chapters on site presentation and the principles of web design These opening chapters take a look at how to create slick professional level sites involving Flash MX's new drawing and motion capabilities and interactive techniques The second section concentrates on ActionScript Flash's resident coding environment is crucial to master and taps into Flash's great strength intuitive and interactive applications Keith Peters and Todd Yard have buddied up on this section and examine some of the most advanced ActionScript techniques around Be warned this section is not for the faint hearted Section three takes a look at Flash MX's greatly improved visual audio and audiovisual capabilities Its three chapters written by Jez Turner and Alex White concentrate on building a single site aimed at displaying rich media content The final section is devoted to expounding a few myths about dynamic content using Flash Its four chapters talk about general practice before focusing in on specific areas including introductions to PHP and XML together with a look at Macromedia's brand new ColdFusion MX

Macromedia Flash MX Professional 2004 Application Development Jeanette Stallons, 2004 Author Jeanette Stallons has spent a lot of

time thinking about application development with Flash MX so that you don't have to. Instead you can get right down to doing. Drawing on the wealth of information Jeanette has developed as technical lead for Macromedia's Authorized Training curriculum, this volume offers a series of step-by-step tutorials that will have you using all of Flash MX 2004's new features in the process of developing a dynamic real-world Flash application. Along the way you'll learn about using ActionScript 2.0, the Flash UI component framework and dynamic data screens, MovieClip objects and more. In the end you'll come away with a solid grounding in Flash theory and technique that will propel your own projects to stunning results. The accompanying DVD includes all of the project files required to complete the book's exercises as well as a trial version of Flash MX 2004.

Macromedia Flash MX 2004 Game Design Demystified Jobe Makar, Ben Winiarczyk, 2004. Flash MX 2004 Game Design Demystified. Your comprehensive guide to creating games using Flash MX 2004. It will take you through the process of creating a game in Flash MX 2004. The first several chapters introduce general processes for creating games while the second section looks at the important concepts for creating realistic games. Such concepts include math, physics, collision detection and collision reaction. A third section delves into more creative concepts: tile-based worlds, 3D visualization, artificial intelligence, using graphics and using sound. Later chapters provide an introduction to multiplayer games, creating a high score list for games and a selection of games for which the authors share the development process, including code. The accompanying CD will provide the code for each function discussed in the book as well as working versions of the games.

Macromedia Flash MX Application Design and Development Jessica Spiegel, 2002. Spiegel gets right down to business with instructing how to create three of the most sought-after Flash applications: 1. Full-featured Flash e-commerce site, 2. multiplayer game and 3. online community with forum, real-time private messaging and search capabilities. **Flash**

Journalism Mindy McAdams, 2012-09-10. Learn how to create a complete journalistic Web-based package that looks great, engages your audience, provides information and conveys its story using Flash. **Flash Application Design Solutions**

Nick Cheung, Craig Bryant, 2006-11-22. Flash Application Design Solutions shows you how to harness the power of ActionScript 2.0 and make the most of the improved design tools of Flash 8 to create usable, intuitive Flash interfaces. In this book you'll find a number of concrete Flash usability solutions that use elements such as navigation menus, data filtering, forms, content loaders, Flash liquid layouts, help tips and many other features. You'll learn how each of these solutions actually improves on what is possible with HTML and JavaScript. In each case you'll see how users interact with the website feature and how it gives users the most intuitive, enjoyable experience possible while using your application. You'll get a step-by-step analysis of how to program and build each solution and how to make it scalable, maintainable and reusable. The book concludes with a case study that showcases the solutions developed in the previous chapters all working together in a single application. This example puts all the pieces together and highlights just how, with some thought and consideration, Flash can improve usability on the Web. This book is essential reading for all Flash designers and developers from beginners seeking

valid solutions to veteran Flashers looking for a fresh perspective on application design interaction and reusability
