White-Jacket Herman Melville, 1892 **Street Songs** Daniel Karlin, 2018-11-22 This book based on the Clarendon Lectures for 2016 is about the use made by poets and novelists of street songs and cries Karlin begins with the London street vendor's cry of Cherry ripe as it occurs in poems from the sixteenth to the twentieth century the Cries of London and Paris exemplify the fascination of this urban art to writers of every period Focusing on nineteenth and early twentieth century writers the book traces the theme in works by William Wordsworth Elizabeth Barrett Browning Robert Browning Walt Whitman George Gissing James Joyce Virginia Woolf and Marcel Proust As well as street cries these writers incorporate ballads folk songs religious and political songs and songs of their own invention into crucial scenes and the singers themselves range from a one legged beggar in Dublin to a famous painter in fifteenth century Florence The book concludes with the beautiful and unlikely song of a knife grinder's wheel Throughout the book Karlin emphasizes the rich complexity of his subject The street singer may be figured as an urban Orpheus enchanting the crowd and possessed of magical powers of healing and redemption but the barbaric din of the modern city is never far away and the poet who identifies with Orpheus may also dread his fate And the fugitive transient nature of song offers writers a challenge to their more structured art Overheard in fragments teasing ungraspable the street song may be captured by a literary work but is never finally tamed

Fools and Visionaries Mick Smith, 2009-08-06 When William Henry O'Donnor Democratic governor from Pennsylvania wins the Democratic party nomination for president of the United States in the summer of 2008 and then the presidency in that fall's general elections he became the first from his party to wrest control of the White House from the Republicans since the end of the last century. Given the bitterness of losing the elections in 2000 to the Republican candidate Benjamin Croft the left wing of the Democratic party was ecstatic over the win and saw it as their opportunity to fundamentally change the direction the country had taken after September 11, 2001 when in their minds the Republican presidency of Benjamin Croft had instituted repressive measures in an attempt to protect the country from another attack by elements of radical Islam. At long last they were in a position to remove all American combat forces from the Middle East who they viewed as occupation troops in an illegal war, remove all barriers to immigration and to institute political measures to ensure the predominance of the left-leaning Democratic party for generations to come. As the political drama unfolds after the inauguration of President William Henry O'Donnor on January 20, 2009, Dr. Ross Shepard, former Navy SEAL team leader and current professor of political science at Clemson University in Clemson, South Carolina, is preparing his students for final spring exams when he receives a call from an old friend in his military past. Still at the Pentagon and part of Homeland Security, Commander Frank Reddings alerts Dr. Ross Shepard of Internet chatter: the National Security Administration has been picking up for the last few months which leads it to believe involves a divergence of strategy by Al Qaeda. It appears Al Qaeda is attempting to move away from hard targets like New York and Washington, D.C. toward softer targets in the Southeast. CDR Reddings wants Dr. Ross Shepard to organize and maintain a Southeastern Threat Assessment Group (STAG) to prepare to fend off any attempts by Al Qaeda to attack the southeastern section of the country. With some misgivings, Dr. Ross Shepard agrees to do so and is quickly swept up in a web of intrigue involving shaheed suicide bombers, nuclear politics, and love.

A New Companion to Herman Melville Wyn Kelley, Christopher Ohge, 2022-08-16 Discover a fascinating new set of perspectives on the life and work of Herman Melville. *A New Companion to Herman Melville* delivers an insightful examination of Melville for the twenty-first century. Building on the success of the first Blackwell Companion to Herman Melville and offering a variety of tools for reading, writing, and teaching Melville and other authors, this New Companion offers critical, technological, and aesthetic practices that can be employed to read Melville in exciting and revelatory ways. Editors Wyn Kelley and Christopher Ohge create a framework that reflects a pluralistic model for humanities teaching and research. In doing so, the contributing authors highlight the ways in which Melville himself was concerned with the utility of tools within fluid circuits of meaning and how those ideas are embodied, enacted, and mediated. In addition to considering critical theories of race, gender, sexuality, religion, transatlantic and hemispheric studies, digital humanities, book history, neurodiversity, and new biography and reception studies, this book offers a thorough introduction to the life of Melville as well as the twentieth and twenty-first century revivals of his work. Comprehensive explorations of Melville's works including *Moby-Dick*, *Pierre*, *Piazza Tales*, and

Israel Potter as well as his poems and poetic masterpiece Clarel Practical discussions of material books print culture and digital technologies as applied to Melville In depth examinations of Melville s treatment of the natural world Two symposium sections with concise reflections on art and adaptation and on teaching and public engagement A New Companion to Herman Melville provides essential reading for scholars and students ranging from undergraduate and graduate students to more advanced scholars and specialists in the field
