Sartori, 1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers As early as the 12th century women troubadours in the south of France were writing poems French women continued writing through the ages their number increasing as education became more available to women of all classes And yet of the great number of works by women writers who preceded the current feminist movement very few have survived A few writers such as Marie de France George Sand and Simone de Beauvoir became part of the canon But critics mostly male had judged the works of only a few

women writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not been admitted into the canon This reference book provides extensive information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer s awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers

French Women Writers Eva Martin Sartori, Dorothy Wynne Zimmerman, 1994-01-01 Marie de France Mme De S vign and Mme De Lafayette achieved international reputations during periods when women in other European countries were able to write only letters translations religious tracts and miscellaneous fragments There were obstacles but French women writers were more or less sustained and empowered by the French culture Often unconventional in their personal lives and occupied with careers besides writing as educators painters actresses preachers salon hostesses labor organizers these women did not wait for Simone de Beauvoir to tell them to make existential choices and have projects in the world French Women Writers describes the lives and careers of fifty two literary figures from the twelfth century to the late twentieth All the contributors are recognized authorities Some of their subjects like Colette and George Sand are celebrated and others are just now gaining critical notice From Christine de Pizan and Marguerite de Navarre to Rachilde and H l_ne Cixous from Louise Labe to Marguerite Duras these women speak through the centuries to issues of gender sexuality and language French Women Writers now becomes widely available in this Bison Book edition Madame Du Deffand and Her World Benedetta Craveri, 1994 This biography of Madame du Deffand describes the life of this highly intelligent libertine and the role she played in the social and cultural life of 18th century France Quoting extensively from her subject s correspondence Craveri attempts to relive the world of the philosophes of the Enlightenment centred around Voltaire and d Alembert and unravels a complex world of extreme intelligence taste and sensibility revealing a new view of reality full of foreboding for the future **The Portraits of Madame de Pompadour** Elise Goodman, 2000-01-01 An immensely eloquent tour de force demonstrating the complex and often contradictory position of women in both intellectual and visual culture Goodman examines Pompadour as an icon of court culture who simultaneously represents sexuality and the life of the mind The

paintings are the visual record of a remarkable and self-conscious fashioning of femininity Dymna Callaghan author of *Feminist Companion to Shakespeare* Elise Goodman's stimulating and richly illustrated study recovers the visual record of women's place in the French Enlightenment She traces a trend engineered as much by the women themselves as by the artists who painted them in which learning joins beauty to create a new iconography of female portraiture Susan S Lanser author of *Fictions of Authority: Women Writers and Narrative Voice*

[The Man Who Flattened the Earth](#) Mary Terrall, 2006-05-05 Self-styled adventurer, literary wit, philosopher, and statesman of science Pierre Louis Moreau de Maupertuis (1698-1759) stood at the center of Enlightenment science and culture Offering an elegant and accessible portrait of this remarkable man Mary Terrall uses the story of Maupertuis's life, self-fashioning, and scientific works to explore what it meant to do science and to be a man of science in eighteenth-century Europe Beginning his scientific career as a mathematician in Paris, Maupertuis entered the public eye with a much-discussed expedition to Lapland which confirmed Newton's calculation that the earth was flattened at the poles He also made significant and often intentionally controversial contributions to physics, life science, navigation, astronomy, and metaphysics Called to Berlin by Frederick the Great, Maupertuis moved to Prussia to preside over the Academy of Sciences there Equally at home in salons, cafés, scientific academies, and royal courts, Maupertuis used his social connections and his printed works to enhance a carefully constructed reputation as both a man of letters and a man of science His social and institutional affiliations in turn affected how Maupertuis formulated his ideas, how he presented them to his contemporaries, and the reactions they provoked Terrall not only illuminates the life and work of a colorful and important Enlightenment figure but also uses his story to delve into many wider issues, including the development of scientific institutions, the impact of print culture on science, and the interactions of science and government Smart and highly readable, *Maupertuis* will appeal to anyone interested in eighteenth-century science and culture Terrall's work is scholarship in the best sense Her explanations of arcane 18th-century French physics, mathematics, astronomy, and biology are among the most lucid available in any language Virginia Dawson, *American Historical Review*, Winner of the 2003 Pfizer Award from the History of Science Society

Human Nature and the French Revolution Xavier Martin, 2003-12 What view of man did the French Revolutionaries hold? Anyone who purports to be interested in the Rights of Man could be expected to see this question as crucial, and yet surprisingly it is rarely raised Through his work as a legal historian, Xavier Martin came to realize that there is no unified view of man, and that alongside the official revolutionary discourse, very divergent views can be traced in a variety of sources, from the Enlightenment to the Napoleonic Code Michelet's phrase, "Know men in order to act upon them," sums up the problem that Martin's study constantly seeks to elucidate and illustrate: it reveals the prevailing tendency to see men as passive, giving legislators and medical people alike free rein to manipulate them at will His analysis impels the reader to reevaluate the Enlightenment concept of humanism By drawing on a variety of sources, the author shows how the anthropology of Enlightenment and

revolutionary France often conflicts with concurrent discourses Effets du féminin - Variations narratives francophones BOUSTANI Carmen,2003-10-01 L auteur tudie l expression verbale et non verbale faisant du féminin un enjeu critique qui pense en différences et non en hiérarchie L écriture devient le lieu privilégié où l'histoire gender et genre convergent Les femmes écrivent lisent et s'inventent En voleuses de langues elles font un travail sur le langage sur les caractéristiques courantes de l'oralité et sur les métaphores La parole jaillit la fois ferme et hésitante dans un grain de voix qui est la fois sensé et personnel L écriture est proche de la voix Les femmes transgressent ainsi l'injonction sociale sois belle et tais toi Elles se font entendre inauguralement The Invisible Code William M. Extravagant Narratives Elizabeth Jane MacArthur,2014-07-14 Challenging the view of epistolary narrative as a faulty precursor to the nineteenth century realist novel Elizabeth MacArthur argues that the openness and flexibility that characterize correspondences both real and fictional reflect the preoccupations of the late seventeenth and eighteenth centuries Her readings of the Lettres portugaises Mme du Deffand's correspondence with Horace Walpole and Rousseau's La Nouvelle Héloïse propose an alternative to closure oriented theories of narrative as they uncover an interplay between two forces a tendency towards closure and meaning metaphor and a tendency towards openness and desire metonymy While such an interplay structures all narrative the epistolary form differs from the third or first person in the extent to which metonymy predominates The author shows how critics and editors of correspondences have attempted to control their metonymy channeling epistolary energy into univocal meaning By juxtaposing real and fictional epistolary works MacArthur reveals the similarities between the two particularly their extravagance ambiguity openness and forward moving energy Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Gender and Voice in the French Novel, 1730-1782 Aurora Wolfgang,2017-03-02 Analyzing four best selling novels by both women and men written in the feminine voice this book traces how the creation of women centered salons and the emergence of a feminine poetic style engendered a new type of literature in eighteenth century France The author argues that writing in a female voice allowed writers of both sexes to break with classical notions of literature and style so that they could create a modern sensibility that appealed to a larger reading public and gave them scope to innovate with style and form Wolfgang brings to light how the female voice in

literature came to embody the language of sociability but also allowed writers to explore the domain of inter subjectivity while creating new bonds between writers and the reading public Through examination of Marivaux s *La Vie de Marianne* Graffigny s *Lettres d'une Pruvienne* Riccoboni s *Lettres de Mistriss Fanni Butlerd* and Laclos s *Les Liaisons dangereuses* she shows that in France this modern feminine sensibility turned the least prestigious of literary genres the novel into the most compelling and innovative literary form of the eighteenth century Emphasizing how the narratives analyzed here refashioned the French literary world through their linguistic innovation and expression of new forms of subjectivity this study claims an important role for feminine voice narratives in shaping the field of eighteenth century literature

[The Blind in French Society from the Middle Ages to the Century of Louis Braille](#) Zina Weygand, 2009-08-07 The integration of the blind into society has always meant taking on prejudices and inaccurate representations Weygand s highly accessible anthropological and cultural history introduces us to both real and imaginary figures from the past uncovering French attitudes towards the blind from the Middle Ages through the first half of the nineteenth century Much of the book however centers on the eighteenth century the enlightened age of Diderot s emblematic blind man and of the Institute for Blind Youth in Paris founded by Valentin Ha y the great benefactor of blind people Weygand paints a moving picture of the blind admitted to the institutions created for them and of the conditions under which they lived from the officially sanctioned beggars of the medieval *Quinze Vingts* to the cloth makers of the Institute for Blind Workers She has also uncovered their fictional counterparts in an impressive array of poems plays and novels The book concludes with Braille whose invention of writing with raised dots gave blind people around the world definitive access to silent reading and to written communication
