History in the Making Estelita Vaz,Cristina Joanaz de Melo,Lígia M. Costa Pinto,2016-10-13 This book is the product of the 2nd World Conference on Environmental History held in Guimar es Portugal in 2014 It gathers works by authors from the five continents addressing concerns raised by past events so as to provide information to help manage the present and the future It reveals how our cultural background and examples of past territorial intervention can help to combat political and cultural limitations through the common language of environmental benefits without disguising harmful past human interventions Considering that political ideologies such as socialism and capitalism as well as religion fail to offer global paradigms for common ground an environmentally positive discourse instead of an ecological determinism might serve as an umbrella common language to overcome blocking factors real or invented and avoid repeating ecological loss Therefore agency environmental speech and historical research are urgently needed in order to sustain environmental paradigms and overcome political cultural an economic interests in the public arena This book intertwines reflections on our bonds with landscapes processes of natural and scientific transfer across the globe the changing of ecosystems the way in which scientific knowledge has historically both accelerated destruction and allowed a better distribution of vital resources or as it in today s world can offer alternatives that avoid harming those same vital natural resources water soil and air In addition it shows the relevance of cultural factors both in the taming of nature in favor of human comfort and in the role of the environment matters in the forging of cultural identities which cannot be detached from technical intervention in the world In short the book firstly studies the past approaching it as a data set of how the environment has shaped culture secondly seeks to understand the present and thirdly assesses future perspectives what to keep what to change and what to dream anew considering that conventional solutions have not sufficed to protect life on our planet Natural Products in the New Millennium: Prospects and Industrial Application Amélia Pilar Rauter,Fernando Brito Palma,Jorge Justino,Maria Eduarda Araújo,Susana Pina dos Santos,2013-06-29 This book deals with a variety of aspects of natural product research It includes review articles and revised original contributions involving analysis isolation and structure elucidation synthesis and bioactivity of terrestrial and marine natural products Plant cell biotechnology for the production of secondary metabolites is discussed This volume provides also outstanding information about the industrial application of natural products for medicinal purposes The broad interdisciplinary approach found in this book which comprises 50 papers makes it interesting to the scientists whose work is in any way related to the research or use of natural products *Gardening on the Edge* Peter Clough,Philip McMillan Browse,2004 The subject of this book is gardening The publishers have provided no further information on this title **Letters on West Africa and the Slave Trade. Paul Erdmann Iserts Journey to Guinea and**

the Carribean Islands in Columbis (178 Axelrod Winsnes,2007-10-15 Paul E Isert a Dane arrived in Ghana then the Gold Coast in 1783 taking advantage of an opening in the slave trade between Guinea and the West Indies He was appointed as chief surgeon to the Danish establishments on the Guinea Coast In 1786 he sailed to the West Indies with a cargo of slaves who revolted His experiences in Ghana and the West Indies resolved him to end the trans Atlantic slave abuse This book is written in the form of letters to his father An elusive character it is clear that he nonetheless had an unreservedly positive attitude towards Africa and its indigenous peoples and an equally negative attitude towards the Europeans on the Guinea coast An admirer of Rousseau s philosophy he was concerned about the corrupting influence of the European civilisation on the Blacks His writing attempts at objectivity seeking to find the common humanity He claims that the Black was at least equal to that of the European which was not shared by his Danish predecessors This is the first English language edition of his original Danish letters previously published in German Dutch French and Swedish
