Swamy,2016-09-20 Since the economic reforms of the 1990s India s economy has grown rapidly To sustain growth and foreign investment over the long run requires a well developed legal infrastructure for conducting business including cheap and reliable contract enforcement and secure property rights But it s widely acknowledged that India s legal infrastructure is in urgent need of reform plagued by problems including slow enforcement of contracts and land laws that differ from state to state How has this situation arisen and what can boost business confidence and encourage long run economic growth Tirthankar Roy and Anand V Swamy trace the beginnings of the current Indian legal system to the years of British colonial rule They show how India inherited an elaborate legal system from the British colonial administration which incorporated elements from both British Common Law and indigenous institutions In the case of property law especially as it applied to agricultural land indigenous laws and local political expediency were more influential in law making than concepts borrowed from European legal theory Conversely with commercial law there was considerable borrowing from Europe In all cases the British struggled with limited capacity to enforce their laws and an insufficient knowledge of the enormous diversity and differentiation within Indian society A disorderly body of laws not conducive to production and trade evolved over time Roy and Swamy s careful analysis not only sheds new light on the development of legal institutions in India but also offers insights for India and other emerging countries through a look at what fosters the types of institutions that are key to economic growth      Caste and Capitalism in Colonial India David West Rudner,2023-11-15 David Rudner s richly detailed ethnographic and historical analysis of a South Indian merchant banking caste provides the first comprehensive analysis of the interdependence among Indian business practice social organization and religion Exploring noncapitalist economic formations and the impact of colonial rule on indigenous commercial systems Rudner argues that caste and commerce are inextricably linked through formal and informal institutions The practices crucial to the formation and distribution of capital are also a part of this linkage Rudner challenges the widely held assumptions that all castes are organized either by marriage alliance or status hierarchy and that caste structures are incompatible with the rational conduct of business This title is part of UC Press s Voices Revived program

*Boats in a Storm* Kalyani Ramnath,2023-08-22 For more than century before World War II traders merchants financiers

and laborers steadily moved between places on the Indian Ocean trading goods supplying credit and seeking work This all changed with the war and as India Burma Ceylon and Malaya wrested independence from the British empire Set against the tumult of the postwar period *Boats in a Storm* centers on the legal struggles of migrants to retain their traditional rhythms and patterns of life illustrating how they experienced citizenship and decolonization Even as nascent citizenship regimes and divergent political trajectories of decolonization papered over migrations between South and Southeast Asia migrants continued to recount cross border histories in encounters with the law These accounts often obscured by national and international political developments unsettle the notion that static national identities and loyalties had emerged fully formed and unblemished by migrant pasts in the aftermath of empires Drawing on archival materials from India Sri Lanka Myanmar London and Singapore Kalyani Ramnath narrates how former migrants battled legal requirements to revive prewar circulations of credit capital and labor in a postwar context of rising ethno nationalisms that accused migrants of stealing jobs and hoarding land Ultimately Ramnath shows how decolonization was marked not only by shipwrecked empires and nation states assembled and ordered from the debris of imperial collapse but also by these forgotten stories of wartime displacements their unintended consequences and long afterlives

**A People's Collector in the British Raj** Brian Stoddart,2011 **The Global World of Indian Merchants, 1750-1947** Claude Markovits,2000-06-22 Claude Markovits tells the story of two groups of Hindu merchants from the towns of Shikarpur and Hyderabad in the province of Sind Basing his account on previously neglected archival sources the author charts the development of these communities from the pre colonial period through colonial conquest and up to independence describing how they came to control trading networks throughout the world While the book focuses on the trade of goods money and information from Sind to the widely dispersed locations of Kobe Panama Bukhara and Cairo it also throws light on the nature of trading diasporas from South Asia in their interaction with the global economy This is a sophisticated and accessible book written by one of the most distinguished economic historians in the field It will appeal to scholars of South Asia as well as to colonial historians and to students of religion

**Capital and Entrepreneurship in South-East Asia** Rajeswary Ampalavanar Brown,2016-07-27 This book traces the growth of capitalism in South East Asia between 1870 and 1941 a crucial element in understanding contemporary economic and political developments in the region It focuses on three questions Why was indigenous capitalism so weak in colonial South East Asia What were the institutional weaknesses in an otherwise dominant Chinese capitalist class and why did it fail to transform itself into a modern industrial elite What was the impact of western colonialism and Japanese economic penetration on South East Asia s prospects for achieving sustainable economic growth

*The Rise of Business Corporations in India, 1851-1900* Radhe Shyam Rungta,1970 **Land, Water, Language and Politics in Andhra** Brian Stoddart,2014-03-14 This book explains how access to and use of land water and language helped shape Andhra politics in India from 1850 down to the present day After independence the debate over land reform and policies on irrigation has

shaped the fortunes of various governments while the debate over the make up of the language based state has stimulated separatist movements like the one in support of Telangana The book discusses how British innovations in irrigation in coastal Andhra in the mid nineteenth century transformed the economy there from food crops to cash crops and created new markets for local entrepreneurs This stimulated increased education and social reform in the region which in turn supported new politics in search of constitutional concessions The drive for a Telugu language based province then arose in concert and those political resources were then used to determine local patterns down to independence The 1930s rise of the socialists then the communist organisations was an extension of land and water tax debates which impacted the political nature of development both before and after independence This is one of the first books on Andhra that recounts this story and is based on extensive archival research exploring the deep relationships between land water language and politics It would be of primary interest to those studying modern nationalism in India natural resource management Indian politics and economic growth     *The Madras Journal of Co-operation* ,1925
