Maerlande Chronicles:

The Maerlande Chronicles Elisabeth Vonarburg, 1992 A future society where women far outnumber men has abandoned the models of patriarchy and matriarchy and established new gender roles But Lisbei a young thinker whose gift is exploring the past confronts the new establishment in order to force changes of her own The Maerlande Chronicles is a sequel to the critically acclaimed novel *The Silent City* Canadian Science Fiction, Fantasy, and Horror Amy J. Ransom, Dominick Grace, 2019-05-27 Canadian Science Fiction Fantasy and Horror Bridging the Solitudes exposes the limitations of the solitudes concept so often applied uncritically to the Canadian experience This volume examines Canadian and Québécois literature of the fantastic across its genres such as science fiction fantasy horror indigenous futurism and others and considers how its interrogation of colonialism nationalism race and gender works to bridge multiple solitudes Utilizing a transnational lens this volume reveals how the fantastic is ready made for exploring in non literal terms the complex and problematic nature of intercultural engagement *Where the Wild Books Are* Jim Dwyer, 2010-04-01 As interest in environmental issues grows many writers of fiction have embraced themes that explore the connections between humans and the natural world Ecologically themed fiction ranges from profound philosophical meditations to action packed entertainments *Where the Wild Books Are* offers an overview of nearly 2 000 works of nature oriented fiction The author includes a discussion of the precursors and history of the genre and of its expansion since the 1970s He also considers its forms and themes as well as the subgenres into which it has evolved such as speculative fiction ecodefense animal stories mysteries ecofeminist novels cautionary tales and others A brief summary and critical commentary of each title is included Dwyer's scope is broad and covers fiction by Native American writers as well as ecofiction from writers around the world Far more than a mere listing of books *Where the Wild Books Are* is a lively introduction to a vast universe of engaging provocative writing It can be used to develop book collections or curricula It also serves as an introduction to one of the most fertile areas of contemporary fiction presenting books that will offer enjoyable reading and new insights into the vexing environmental questions of our time *Dark Horizons* Tom Moylan, Raffaella Baccolini, 2013-12-02 First published in 2003 With essays by an international and interdisciplinary group of scholars *Dark Horizons* focuses on the development of critical dystopia in science fiction at the end of the twentieth century In these narratives of places more terrible than even the reality produced by the neo conservative backlash of the 1980s and the neoliberal hegemony of the 1990s utopian horizons stubbornly anticipate a different and more just world The top notch team of contributors explores this development in a variety of ways by looking at questions of form politics the politics of form and the form of politics In a broader context the essays connect their textual and theoretical analyses with historical developments such as September 11th the rise and downturn of the global economy and the growth of anti capitalist movements Futurescapes Ralph Pordzik, 2009 This book testifies to the growing interest in the many spaces of utopia It intends to map out on utopian and science fiction discourses

some of the new and revisionist models of spatial analysis applied in Literary and Cultural Studies in recent years The aim of the volume is to side step the established generic binary of utopia and dystopia or science fiction and thus to open the analysis of utopian literature to new lines of inquiry The essays collected here propose to think of utopias not so much as fictional texts about future change and transformation but as vital elements in a cultural process through which social spatial and subjective identities are formed Utopias can thus be read as textual systems implying a distinct spatial and temporal dimension as spatial practices that tend to naturalize a cultural and social construction that of the good life the radically improved welfare state the Christian paradise the counter society etc and make that representation operational by interpellating their readers in some determinate relation to their givenness as sites of political and individual improvement This volume is of interest for all scholars and students of literature who wish to explore the ways in which utopias of the past and recent present have circulated as media of cultural exchange and homogenization as sites of cultural and linguistic appropriation and as foci for the spatial formation of national and regional identities in the English speaking world

Mothers and Masters in Contemporary Utopian and Dystopian Literature Mary Elizabeth Theis, 2009 Because advances made by science and technology far outstripped improvements in human nature utopian dreams of perfect societies in the twentieth century quickly metamorphosed into dystopian nightmares which undermined individual identity and threatened the integrity of the family Armed with technological and scientific tools totalizing social systems found in literature abolish the distinction between public and private life and thus penetrate and corrupt the very core of all utopian blueprints and visions the education of future generations At the heart of the family mothers as parents transmit their diverse cultural traditions while socializing their children and thus compete with ideologically driven systems that usurp their role as educators Mothers and Masters in Contemporary Utopian and Dystopian Literature focuses therefore on the thematic importance of this and other maternal roles for generic metamorphosis the shift to dystopia invariably is signaled by the inversion of traditional maternal roles The longevity of the utopian dystopian literary tradition and persistence of the maternal model of human relationships serve as points of reference in this post modern age of relative cultural values Meta utopian exploration of this thematic tension between utopia and dystopia reminds us that no place may not be home but we need to keep going there The Routledge Introduction to Canadian Fantastic Literature Allan Weiss, 2020-12-29 This study introduces the history themes and critical responses to Canadian fantastic literature Taking a chronological approach this volume covers the main periods of Canadian science fiction and fantasy from the early nineteenth century to the first decades of the twenty first century The book examines both the texts and the contexts of Canadian writing in the fantastic analyzing themes and techniques in novels and short stories and looking at both national and international contexts of the literature s history This introduction will offer a coherent narrative of Canadian fantastic literature through analysis of the major texts and authors in the field and through relating the authors work to the world around them Becoming Women Carla

Rice,2014-01-01 In a culture where beauty is currency women's bodies are often perceived as measures of value and worth The search for visibility and self acceptance can be daunting especially for those on the cultural margins of beauty Becoming Women offers a thoughtful examination of the search for identity in an image oriented world That search is told through the experiences of a group of women who came of age in the wake of second and third wave feminism featuring voices from marginalized and misrepresented groups Carla Rice pairs popular imagery with personal narratives to expose the culture of contradiction where increases in individual body acceptance have been matched by even more restrictive feminine image ideals and norms With insider insights from the Dove Campaign for Real Beauty Rice exposes the beauty industry's colonization of women's bodies and examines why the beauty myth has yet to be resolved **Who's Who of Canadian**
