Magazine In America 1741 199:

The Magazine in America, 1741-1990 John William Tebbel, Mary Ellen Zuckerman, 1991 This carefully researched and sweeping work ranges from tales of the earliest magazine The General Magazine of Benjamin Franklin and American Magazine of Andrew Bradford to contemporary giants such as TV guide and Sports Illustrated and includes a history of the business press A History of Early American Magazines 1741-1789 Lyon Norman Richardson, 1978 *Radio's America* Bruce Lenthall, 2008-11-15 Orson Welles's greatest breakthrough into the popular consciousness occurred in 1938 three years before Citizen Kane when his War of the Worlds radio broadcast succeeded so spectacularly that terrified listeners believed they were hearing a genuine report of an alien invasion a landmark in the history of radio's powerful relationship with its audience In *Radio's America* Bruce Lenthall documents the enormous impact radio had on the lives of Depression era Americans and charts the formative years of our modern mass culture Many Americans became alienated from their government and economy in the twentieth century and Lenthall explains that radio's appeal came from its capability to personalize an increasingly impersonal public arena His depictions of such figures as proto Fascist Charles Coughlin and medical quack John Brinkley offer penetrating insight into radio's use as a persuasive tool and Lenthall's book is unique in its exploration of how ordinary Americans made radio a part of their lives Television inherited radio's cultural role and as the voting tallies for American Idol attest broadcasting continues to occupy a powerfully intimate place in American life *Radio's America* reveals how the connections between power and mass media began

Magazines and the Making of America Heather A. Haveman, 2020-08-04 From the colonial era to the onset of the Civil War *Magazines and the Making of America* looks at how magazines and the individuals organizations and circumstances they connected ushered America into the modern age How did a magazine industry emerge in the United States where there were once only amateur authors clumsy technologies for production and distribution and sparse reader demand What legitimated magazines as they competed with other media such as newspapers books and letters And what role did magazines play in the integration or division of American society From their first appearance in 1741 magazines brought together like minded people wherever they were located and whatever interests they shared As America became socially differentiated magazines engaged and empowered diverse communities of faith purpose and practice Religious groups could distinguish themselves from others and demarcate their identities Social reform movements could energize activists across the country to push for change People in specialized occupations could meet and learn from one another to improve their practices Magazines built translocal communities collections of people with common interests who were geographically dispersed and could not easily meet face to face By supporting communities that crossed various axes of social structure magazines also fostered pluralistic integration Looking at the important role that magazines had in mediating and sustaining critical debates and diverse groups of people *Magazines and the Making of America* considers how these print publications helped construct a distinctly American society

Literary Research and the Era of American Nationalism and Romanticism Angela Courtney, 2007-12-07 The early years of American nationhood beginning at the close of colonial rule and ending with the onset of the Civil War saw both a young country and its literature grow in confidence and develop an awareness of self identity Pride in the new nation was a primary characteristic of much literary output in the early years of the country whether in the form of fiction poetry drama essay travel writing or journal As the country grew and generations began to be born on the new land Romanticism took hold lauding not only the construct of the nation but also the natural power and potential of the country This era of American literary expression has left behind a rich legacy of traditionally canonized authors as well as material published in the growing periodical press that was of immediate importance to the population at the time

Literary Research and the Era of American Nationalism and Romanticism Strategies and Sources examines the resources that deal with the literature produced in the approximately 70 years of antebellum American literature Covering all formats the volume discusses bibliographies indexes research guides archives special collections microform and digital primary text resources and how they are best utilized for a literary research project Suggestions are offered for best practices for research while exploring a wide selection of resources that run the gamut from classic standards of American literary bibliography through contemporary open access digital resources

Barbaric Intercourse Martha Banta, 2003-01-15 *Barbaric Intercourse* tells the story of a century of social upheaval and the satiric attacks it inspired in leading periodicals in both England and America Martha Banta explores the politics of caricature and cartoon from 1841 to 1936 devoting special attention to the original *Life* magazine For Banta *Life* embodied all the strengths and weaknesses of the Progressive Era whose policies of reform sought to cope with the frenetic urbanization of New York the racist laws of the Jim Crow South and the rise of jingoism in the United States *Barbaric Intercourse* shows how *Life's* take on these trends and events resulted in satires both cruel and enlightened Banta also deals extensively with London's *Punch* a sharp critic of American nationalism and draws from images and writings in magazines as diverse as *Puck* *The Crisis* *Harper's Weekly* and *The International Socialist Review* Orchestrating a wealth of material including reproductions of rarely seen political cartoons she offers a richly layered account of the cultural struggles of the age from contests over immigration and the role of the New Negro in American society to debates over Wall Street greed women's suffrage and the moral consequences of Western expansionism *Age of Contradiction* Howard Brick, 2000 In *Age of Contradiction* Howard Brick provides a rich context for understanding historical events cultural tensions political figures artistic works and trends of intellectual life His lucid and comprehensive book combines the best methods of historical analysis and assessment with fascinating subject matter to create a three dimensional portrait of a complicated time In one of the only books on the 1960s to put ideas at the center of the period's history Brick carefully explores the dilemmas the promise and the legacy of American thought in that time **Sentinel Under Siege** Stanley E Flink, 2018-05-15 If the unexamined life is not worth living surely the unexamined media is not worth heeding *Sentinel Under Siege* traces the

evolution of the media in the United States and its capacity to examine and regulate itself from its earliest colonial roots to the modern explosion of digital technology Once the Bill of Rights was enacted in 1791 the press became the first and only enterprise explicitly protected by the United States Constitution This book is concerned with the legal content given to freedom of the press by the Supreme Court and the fitful attempts of media criticism both intramural and external to build a greater sense of responsibility among the practitioners Stanley Flink former correspondent of Life Magazine and writer producer at NBC and CBS is concerned less with the people s right to know than with the people s need to know Only a competent responsible press whatever its means of distribution can perform the role of watchdog over official abuse of power business corruption and political distortions But the acquisition of so many newspapers magazines and broadcasting facilities by corporate conglomerates threatens a new kind of prior restraint on an independent press the conflicts of interest the power of advertising the unspoken self censorship of reporters and editors print or electronic based on the perceived predilections of their employers and the financial interests of related companies Flink believes that responsible journalism can also be economically viable in the twenty first century because the mass communication of reliable news reporting and media accountability will be vital to the democratic process Unless the news media persistently seeks the high moral ground of public service the first casualty will be an informed electorate The second may well be constitutional protection

Williams, 2016-11-11 Susan Williams recovers the literary and cultural significance of early photography in an important rereading of American fiction in the decades preceding the Civil War The rise of photography occurred simultaneously with the rapid expansion of magazine publication in America and Williams analyzes the particular role that periodicals such as Godey s Lady s Book Burton s Gentleman s Magazine and Atkinson s Casket played in defining how photography was received At the center of the book are readings of a stunning array of fiction by forgotten and canonical writers alike including Edgar Allan Poe Louisa May Alcott and Sarah Hale as well as extended interpretations of Nathaniel Hawthorne s House of the Seven Gables and The Marble Faun and Herman Melville s Pierre In a concluding section Williams offers a view of the fictional portrait in the later nineteenth century when the proliferation of illustrated books once again transformed the relation between word and image in American culture
