Half-Past Tomorrow Chris McGeorge, 2021-08-05 Shirley Steadman a 70 year old living in a small town in the North East

of England loves her volunteer work at the local hospital radio She likes giving back to the community and even more so she likes getting out of the house Haunted by the presence of her son a reluctant Royal Navy officer who was lost at sea and still in the shadow of her long dead abusive husband she doesn't like being alone much One day at the radio station she is playing around with the equipment and finds a frequency that was never there before It is a pirate radio station and as she listens as the presenter starts reading the news But there is one problem the news being reported is tomorrow's Shirley first thinks it is a mere misunderstanding a wrong date But she watches as everything reported comes true At first Shirley is in awe of the station and happily tunes in to hear the news But then the presenter starts reporting murders murders that happen just the way they were reported And Shirley is the only one who can stop them Expo 67 and Its World Craig Moyes, Steven Palmer, 2022-06-17 In 1967 Montreal hosted Man and His World Terre des hommes By far the most successful cultural event ever produced in Canada it was embraced by the public at the same time as intellectuals from Marshall McLuhan to Umberto Eco hailed it as a new type of exhibition for a new global age Because it was held where and when it was on a man made archipelago in the St Lawrence River seven years into Quebec's Quiet Revolution Expo 67 also provided a prism through which the idea of the nation could be refracted and recast in original ways Misunderstood by some scholars as an expensive exercise in official patriotism while maligned by Quebec intellectuals as a crypto federalist distraction from the real business of national independence the fair nevertheless showcased Montreal as the de facto capital of a suddenly modern Quebec engaging with a late modern world Expo 67 and Its World proposes a reappraisal of the 1967 Montreal International and Universal Exhibition across a range of political social and cultural spaces from the dispossession of Indigenous Peoples and what was then known as the Third World through the aspirations of Montreal Quebec and Canada to the increasingly global ambit of youth culture medicine film and finance A new approach to understanding Expo 67 the collection challenges assumptions about the significance of the event to Canadian Québécois and First Nations history **Dem Haoles** Brian M. Gilpin, 2021-07-27 Dem Haoles is an innovative and entertaining study of white privilege Set against the backdrop of Hawaii Dem Haoles explores how white people or haoles are portrayed and why The exploration is guided by the concept of images or archetypes employed to classify and dissect haole representation Dem Haoles mines normally mundane entertainment vehicles like romantic comedies and action hero dramas and reveals that these artifacts of popular culture are more than mindless entertainment They are in fact well camouflaged political messaging The focus on popular culture examined through image analysis makes Dem Haoles entertaining and informative The examination of popular media is detailed and thorough and will evoke deep nostalgic sentiments While the insightful analysis of images its mechanics and intent will provoke critical thinking Together this combination makes Dem Haoles a unique and rewarding experience that will both invalidate old perceptions about Hawaii and ruin the simple pleasure of mindless entertainment **University Drama in the Tudor Age** Frederick Samuel Boas, 1914 Technical Analysis Tools Mark Tinghino, 2010-05-13 Most investors know

that highly profitable trading methods employ a number of technical analysis tools Unfortunately choosing the right ones is easier said than done In *Technical Analysis Tools* professional trader Mark Tinghino cuts through the clutter First he demystifies the essential technical approaches such as chart patterns indicators Market Profile and Elliott Wave He also introduces a new instrument of his own the cyclical model which helps identify trend reversals Next he provides techniques that turn the tools into trading programs Those techniques include how to time buying and selling how to account for the effect of fundamental analysis on technical analysis and how to use spreads to effectively manage risk Real world examples objective analyses of how successful investors implement their own trading systems and dozens of charts and graphs make *Technical Analysis Tools* exceptionally clear and practical Shakespeare Studies ,1916 **Shakespeare studies, by members of the department of English...** University Wisconsin,1916
