[Spiritcarvers](#) Antonella Sarti, 2022-06-08 In a land caught between the sea and cloud where the natural landscape still refuses civilization there are those the composers of words tellers of tales that help shape the minds of the people that live on its shores They are spiritcarvers New Zealand writing today is engaging in an intent struggle to subvert multiple shapes into voices These interviews as a record of biographical orature are shaped into presenting the figure of the storyteller through memory and language explorations of how we imagine and create ourselves with and into words Here we encounter the dichotomy of fiction and non fiction myth and consensual reality imagination and truth do we live within our own selected fictions Identity is shaped by the authors sense of displacement as well as of belonging meeting otherness with dispossession discovering connection through isolation Among the focal points of the interviews are the role of women s writing Maori writing interrelations among different cultures and the influence of literary and oral tradition within New Zealand

The Stepmother Tongue John Skinner, 1998-09-18 There are numerous twentieth century writers in English who are not technically native speakers of the language and whose relation to it is ambivalent problematic or even hostile by a simple kinship analogy one may often speak of the stepmother tongue Whilst fully aware of the current debates in postcolonial theory John Skinner is also conscious of its sometimes unhelpful

complexities and contradictions The focus of this study is thus firmly on the fictional practice of the writers discussed He offers the reader an insight into the diversity and rewards of contemporary anglophone fiction whilst analysing some eighty individual texts A uniquely comprehensive guide the book will be welcomed by students and teachers of postcolonial literature

Warrior Generation 1865-1885 Richard Fulton,2020-07-09 Richard Fulton's *Warrior Generation 1865-1885* fundamentally rethinks the efficacy of an institutional drive among influential middle class opinion leaders to militarize lower class boys in Victorian Britain He contends that instead of engendering the desired cultural militarism as has been commonly argued their push had merely contributed to a fast developing culture of adventure and masculinity Challenging this popular assumption Fulton carefully reexamines many of the oft cited touchstones of militaristic influence on lower class boys deeply assessing their actual effects on the behaviours and cultural practices of this generation He explores a range of themes from among others the propagation of the military's message in school curricula and its glorification in students textbooks to the military's heroic depiction and ubiquitous presence in lower class boys entertainment and popular media

Whole Men Kai Jensen,1996 Kai Jensen takes a provocative look at masculinity in New Zealand literature He argues that New Zealand writing around the Second World War was shaped by excitement about masculinity as a way of challenging society Inspired partly by Marxism writers such as A R D Fairburn Denis Glover John Mulgan and Frank Sargeson linked national identity to the ordinary working man or soldier and attempted to merge artistic activity and manliness in a new ideal the whole man This masculine excitement forged a literary and intellectual culture which was powerful for thirty years and which discouraged women writers Jensen suggests that the aftermath of masculinism still influences the way New Zealand intellectuals see themselves and that the masculine tradition survives in the writing of Owen Marshall Sam Hunt Maurice Shadbolt and even Maurice Gee At the same time he argues that masculinism underwent a process of change after its high point in the 1940s Frank Sargeson's closeted homosexuality posed a complex problem for the masculine tradition and its historians and James K Baxter's symbolic Jungian poetry was also hard to reconcile with the idea that men's writing must be based on robust experience Yet Baxter prepared the masculine tradition for the 1960s and 1970s by renovating the whole man as bohemian lover *Whole Men* is not just about one literary movement but about how literary culture works and how New Zealand intellectuals construct their identities
