Lasting Impressions Jesse Matz, 2017-01-31 Impressionism captured the world s imagination in the late nineteenth century and remains with us today Portraying the dynamic effects of modernity impressionist artists revolutionized the arts and the wider culture Impressionism transformed the very pattern of reality introducing new ways to look at and think about the world and our experience of it Its legacy has been felt in many major contributions to popular and high culture from cubism and early cinema to the works of Zadie Smith and W G Sebald from advertisements for Pepsi to the observations of Oliver Sacks and Malcolm Gladwell Yet impressionism s persistence has also been a problem a matter of inauthenticity superficiality and complicity in what is merely impressionistic about culture today Jesse Matz considers these two legacies the positive and the negative to explain impressionism s true contemporary significance As Lasting Impressions moves

through contemporary literature painting and popular culture Matz explains how the perceptual role cultural effects and social implications of impressionism continue to generate meaning and foster new forms of creativity understanding and public engagement

Henry James and the Art of Impressions John Scholar, 2020-05-21 Henry James criticized the impressionism that was revolutionizing French painting and fiction He satirized the British aesthetic movement whose keystone was impressionist criticism So why time and again in important parts of his literary work did James use the word impression Henry James and the Art of Impressions argues that James tried to wrest the impression from the impressionists and to recast it in his own art of the novel Interdisciplinary in its range philosophical and literary in its focus the book shows the place of James's work within the wider cultural history of impressionism It draws on painting philosophy psychology literature and critical theory to examine James's art criticism early literary criticism travel writing reflections on his own fiction and the three great novels of his major phase *The Ambassadors* *The Wings of the Dove* and *The Golden Bowl* It shows how the language of impressions enables James to represent the most intense moments of consciousness of his characters It argues that the Jamesian impression is best understood as a family of related ideas bound together by James's attempt to reconcile the novel's value as a mimetic form with its value as a transformative creative activity

Impressionism and the Modern Landscape James H. Rubin, 2008-04-03 The examples convey not only these major themes but also the painters' belief in the progress of civilization through science and industry The book thus expands the scope of Impressionist celebrations of modernity to include what might be called Impressionism's other landscape and proposes that in the Impressionists' effort to forge a modern landscape art those signs of modernity defined their vision most clearly

Monet's Minutes André Dombrowski, 2023-01-01 A stunning exploration of the

vital links between Claude Monet's Impressionism and the time technologies that helped define modernity in the nineteenth century. *Monet's Minutes* is a revelatory account charting the relationship between the works of Claude Monet (1840–1926), founder of French Impressionism and one of the world's best known painters, and the modern experience of time. Andr Dombrowski illuminates Monet's celebration of instantaneity in the context of the late nineteenth-century time technologies that underwrote it. Monet's version of Impressionism demonstrated an acute awareness of the particularly modern pressures of time, but until now scholars have not examined the histories and technologies of time and timekeeping that informed Impressionism's major stylistic shifts. Arguing that the fascination with instantaneity rejected the dulling cultures of newly routinized and standardized time, *Monet's Minutes* traces the evolution of Monet's art to what were then seismic shifts in the shape of time itself. In each chapter, Dombrowski focuses on the connections between a set of Monet's works and a specific technology or experience of time, while providing the voices of period critics responding to Impressionism. Grounded in exceptional research and analyses, this book offers new interpretations of key works by Monet and a fresh perspective on late nineteenth-century art, society, and modern temporality.
