Monet, Renoir, and the Impressionist Landscape Virginia Museum of Fine Arts, 2000 **Monet, Renoir and the Impressionist Landscape** Virginia Museum of Fine Arts, 2000 **Impressions of France** John House, 1995 Impressions of France traces the development of the French painted landscape from 1860 to 1890 a period of dramatic artistic evolution Taking as his context the Paris Salons the central forum for the display of contemporary art in Paris and the focus for discussions of the state of modern art John House explains how the Impressionist landscapes exhibited there both reflected and forever changed the cultural tastes of the age **Monet, Renoir, and the impressionist landscape** George T. M. Shackelford, Nagoya-Boston museum of fine arts (Nagoya, Japan), 1999 *Impressionism* John I. Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes **Renoir Landscapes, 1865-1883** Colin B. Bailey, Robert McDonald Parker, Auguste Renoir, 2007 This stunning book published to accompany a major touring exhibition examines Renoir s landscape art in depth demonstrating that he was one of the most audacious and original landscape artists of his age

One of the great innovations of the Impressionists was their radical use of colour their application of strokes of complementary or contrasting hues captured the shifting effects of light and foregrounded the nature of vision Using colour as the lens through which to magnify the movement's intricacies this catalogue sweeps us from Manet's rich blacks through green and blue landscapes of Monet and Cézanne to the sensuous pinks of Renoir Along this journey scientific discoveries and emerging definitions of modernity are explored illuminating the profound innovations of the Impressionists and the shifting preconceptions of their art Impressions of Light George T. M. Shackelford, Fiona E. Wissman, 2002 It takes a broad view yet never loses sight of the intricacy and variation that make the landscape so endlessly appealing BOOK JACKET

Origins of Impressionism Gary Tinterow, Henri Loyrette, 1994 This handsome publication which accompanies a major exhibition at The Metropolitan Museum of Art is a lively and engaging account of the artistic scene in Paris in the 1860s the years that witnessed the beginnings of Impressionism For the first time the interactions and relationships among the group of painters who became known as the Impressionists are examined without the overworn art historical polarities commonly evoked academic versus avant garde classicist versus romantic realist versus impressionist A host of strong personalities contributed to this history and their style evolved into a new way of looking at the world These artists wanted above all to give an impression of truth and to have an impact on or even to shock the public And they wanted to measure up to or surpass their elders This complex and rich environment is presented here the grand old men and the young turks encounter each other the Salon pontificates and the new generation moves fitfully ahead benignly but always with determination *Origins of Impressionism* gives a day by day year by year study of the genesis of an epoch making style Bibliographies and provenances are provided for each of the almost two hundred works in the exhibition and there is an illustrated chronology With more than two hundred superb colorplates this informative survey is an essential work for both the general reader and the scholar BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Janice H. Levin Collection of French Art Richard Shone, Metropolitan Museum of Art (New York, N.Y.), 2002 Levin these objects were enjoyed almost exclusively by her private circle of family and friends in the domestic sphere of her New York apartment Some of the works have never before or rarely been published and many have not been exhibited in decades The exhibition at the Metropolitan Museum of Art New York for which this publication is the accompanying catalogue is thus the first opportunity for the public to enjoy the abundant fruits of Mrs Impressionists Side by Side Barbara Ehrlich White, 1996 White looks at the personal and professional relationships between eight artists Degas Manet Monet Renoir Cézanne Pissarro Morisot and Cassatt *Impressionist and Post-impressionist Paintings in the Metropolitan Museum of Art* Metropolitan Museum of Art (New York, N.Y.), Charles S. Impressionism Nathalia Brodskaja, 2018-03-13 *Thinking Space, Advancing Art* Elena Fell, Ioanna

Kopsiafti, 2015-09-04 Existing art theory is obsessed by theories of spectatorship based on concepts of signification derived from language This book shows the weakness of such a perspective and as an alternative argues that individual aesthetic transformations of pictorial structure change one's experience of space In addition it proves that this transformation is an ongoing process pictorial art is progressively articulated through historical development and is therefore able to increase its cognitive and aesthetic scope To support such a perspective the book brings together ideas from Ernst Cassirer and Paul Crowther Cassirer's philosophy of symbolic forms offers a profound way of understanding historical transformations in our experience of space and Crowther's work on imagination and aesthetics shows how this can be extended to pictorial space and the uniqueness of pictorial art By combining the two approaches it is demonstrated how pictorial art extends our basic involvement in and cognition of space and provides it with a special kind of aesthetic meaning The Smith College Museum of Art Smith College. Museum of Art, John Davis, Jaroslaw Leshko, 2000 Smith College art professors Davis and Leshko showcase 100 paintings and sculptures from their institution's vaunted collection encompassing Americans from Gilbert Stuart to Louise Nevelson and Europeans from Corot to Henry Moore In the introduction how and why Smith became steward of such a fine body of work is ascribed to the school's high minded mission and its generous alumni donors The rest of the book is divided into two sections one American and the other European Each individual full color reproduction is accompanied by an informative one page essay and a brief reading list During several years of renovations at Smith the items featured in this book are traveling to diverse sites which should increase the book's appeal 118 colour 1 b/w illustrations
