Gardner Coates,2016-01-05 Throughout Western history the societies that have made the greatest contributions to the spread of freedom have created iconic works of art to celebrate their achievements Yet despite the enduring appeal of these works from the Parthenon to Michelangelo s David to Picasso s

Guernica histories of both art and democracy have ignored this phenomenon Millions have admired the artworks covered in this book but relatively few know why they were commissioned what was happening in the culture that produced them or what they were meant to achieve Even scholars who have studied them for decades often miss the big picture by viewing them in isolation from a larger story of human striving David s Sling places into context ten canonical works of art executed to commemorate the successes of free societies that exerted political and economic influence far beyond what might have been expected of them Fusing political and art history with a judicious dose of creative reconstruction Victoria Coates has crafted a lively narrative around each artistic object and the free system that inspired it This book integrates the themes of creative excellence and political freedom to bring a fresh new perspective to both In telling the stories of ten masterpieces David s Sling invites reflection on the synergy between liberty and human achievement

**The Legends of the Modern** Didier Maleuvre,2019-11-28 What made art modern What is modern art The Legends of the Modern demystifies the ideas and legends that have shaped our appreciation of modern art and literature Beginning with an examination of the early modern artists Shakespeare Michelangelo and Cervantes Didier Maleuvre demonstrates how many of the foundational works of modern culture were born not from the legendry of expressive freedom originality creativity subversion or spiritual profundity but out of unease with these ideas This ambivalence toward the modern has lain at the heart of artistic modernity from the late Renaissance onward and the arts have since then shown both exhilaration and disappointment with their own creative power The Legends of the Modern lays bare the many contradictions that pull at the fabric of modernity and demonstrates that modern art s dissatisfaction with modernity is in fact a vital facet of this cultural period

nineteenth century very much shaped by these serialized formats sees itself confronted with questions of truthfulness in new and profound ways just as perhaps the accelerated rhythm anonymity and broadened accessibility of new media today have created new possibilities for the dissemination of misinformation and conversely give us cause to interrogate anew our notions of truthfulness By examining both the formal operations of both aesthetic and scientific objects in a series form and the historical context of their publication or presentation the contributions in this volume examine the often strained but yet immensely productive relationship between the way in which a series negotiates questions of truthfulness both by reference to the rules established in its series form or by means of its serial format This volume provides ten detailed cases of the series form from the history of science and journalism and the history of painting photography and literature as well
