Berg, 2007 Literature is ostensibly a sequential and thus temporal medium and painting a static and spatial one yet writers like George Sand and Emile Zola have attempted repeatedly to represent visual and spatial phenomena in literary texts just as painters like Eugene Delacroix and Claude Monet have sought consistently to capture effects of time and movement on canvas The incorporation of elements from one artistic medium into another creates a dynamic interplay of image and ideology both between art forms and within individual texts and paintings which constitutes the crux of this book Each chapter involves the detailed analysis of a text and a painting related through topic theme and technique By juxtaposing the works of ten major writers and ten painters of comparable stature the book explores the various modalities and layers of meaning in nineteenth century French art both verbal and visual and proposes ways of reading the ambivalent artifacts of modernity Illustrated **A Brief History of Light and Those That Lit the Way** Richard J. Weiss, 1996 From Leonardo to Oppenheimer from candles to lasers from cave drawings to cinema from Stonehenge to quantum mechanics from Genesis to the Big Bang light has filled our thoughts our way of life our aesthetics our technology and our means for survival Richard Weiss leads us along these paths over the past 500 light years The way is lit by pioneers such as Rembrandt Einstein D W Griffith Newton and Heisenberg A Brief History Of Light And Those That Lit The Way is a
