support British strategic ambitions It provides rich detail on how the system worked how it was administered how key products were priced bought stored and transported and how it compared very favourably to equivalent systems in France and elsewhere The book shows how the increasing efficiency of the Victualling Board enabled the navy to take advantage of agricultural commercial and financial advances in the British economy to supply its front line fighting forces over ever longer distances and ever longer periods The Victualling Board was one of a number of interfaces between the demands of the State and the supply facilities of the economy to their mutual benefit As a major purchaser through competitive tender the Board made a positive contribution to the entrepreneurial spirit of British society The book goes beyond maritime history by discussing how naval supply provided a huge stimulus for British finance agriculture trade and manufacturing and argues that all this together was one of the principal causes of Britain's later Industrial Revolution
